

Peruna Secrets You Should Know

Golden Seal Root.

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic.

Many thousand pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.

It seems as though every woman must have a pet. If she can't get a man she must have a cat or a dog.

Are you losing flesh through a racking cough that you cannot check? Allen's Lung Balm will cure the trouble.

The man who stands in his own way is not necessarily blocking the traffic.

For COLDS and GRIP.

Hick's CAPUDINE is the best remedy—relieves the aching and feverishness—cures the cold and restores normal conditions. It's liquid—effects immediately. 10c, 25c and 50c, at drug stores.

Wealth may not bring happiness, but it seems to furnish a pretty good imitation.

WOULD HAVE BEEN DEAD

Says Temple Clark, of Pope, Had It Not Been For Cardui, Now In Good Health.

Pope, Tenn.—"As the result of a fall from a horse, I suffered intense agony for about 4 years," writes Mrs. Temple Clark, of this place. "I was irregular and had falling feelings and other womanly trouble. At last I was induced to take Cardui, the woman's tonic, and it helped me a great deal. I certainly believe if it had not been for Cardui and Theodor's Black Draught, I would have been dead, instead of having the blessing of health."

"I love a dollar, but I have never seen one I think as much of as I do of a bottle of Cardui. I could tell a great deal more and not get tired. I recommend it to all my friends, for I am sure it will cure others as it has me."

Remember that Cardui is a vegetable extract, composed of valuable medicinal ingredients, which build up vitality, tone up the nerves and strengthen the womanly constitution.

For over 50 years, Cardui has been in successful use. Its merit is proven and known. Using it is no new experiment. It has stood the greatest of all tests—the test of TIME.

NOTE: The Cardui Home Treatment for Women consists of Cardui (\$1), Theodor's Black Draught (25c), or Vello (50c) for the liver, and Cardui Antiseptic (50c). These remedies may be taken singly, by themselves, if desired, or three together, as a complete treatment for women's ills. Write to Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

For Lame Back

An aching back is instantly relieved by an application of Sloan's Liniment.

This liniment takes the place of massage and is better than sticky plasters. It penetrates—without rubbing—through the skin and muscular tissue right to the bone, quickens the blood, relieves congestion, and gives permanent as well as temporary relief.

Here's the Proof.

Mr. JAMES C. LEWIS, of 1109 2nd St., S.E., Washington, D.C., writes: "Thirty years ago I fell from a scaffold and seriously injured my back. I suffered terribly at times; from the small of my back all around my stomach was just as if I had been beaten with a club. I used every plaster I could get with no relief. Sloan's Liniment took the pain right out, and I can now do as much ladder work as any man in the shop, thanks to Sloan's Liniment."

Sloan's Liniment has no equal as a remedy for Rheumatism, Neuralgia or any pain or stiffness in the muscles or joints. Prices, 25c, 50c, and \$1.00.

Princess Gowns.

The gown cut princess to below the hip line and there completed with a deep flounce affords additional space for embroidery, a line extending quite around at the top of the flounce above the connecting seam.

Fashionable Colors.

Among the established tones of colors to be worn this season are: Maize, cerise, bluet, lime green, linden green, king's purple.

Prominent People.

King Edward has knighted Lieutenant-General Baden-Powell.

Robert E. Peary took part with the Roosevelt in the Hudson-Fulton river parade.

All Mirza, the deposed Shah of Persia, left Anzali, a Caspian seaport, for Odessa.

Dr. F. A. Cook delivered a lecture in Philadelphia and was greeted with an enthusiastic official reception.

The Rev. Dr. Wise, of the Free Synagogue, denounced intermarriage of Jews and Christians in a sermon in New York City.

Infant's Dress.

The infant's dress that is made with a shaped yoke is a pretty and attractive one, and this model can be embroidered by hand as illustrated or made with yoke of fancy material as preferred. The dress is laid in tiny tucks at the upper edge and can be finished either with a frill or with a hem. It can be made with short or long sleeves and finished with a frill or hem at the lower edge as preferred. Fine white lawn with trimming of embroidery makes the dress illustrated, but all those that are used for babies' dresses are appropriate. The touch of hand work on the yoke means extreme daintiness and a great many dresses of the sort are made with yokes of all-over embroidery or those that are composed of strips of lace insertion, and the model can be utilized in any way.

The dress is made with front and back portions, which are tucked and

THE SEASON'S NEW DESIGNS

New York City.—Such a blouse as this one will find innumerable uses. It is graceful and attractive, it is becoming to almost all figures, and it is the latest style. The long lines given at the front produce an effect of slenderness, and the pretty puffed sleeves, with under ones of thinner material, are among the latest features. In this case, the blouse is made of crepe meteorite and the trimming is net braided with soutache in matching color, while the front portion and under-sleeves are made of tucked chiffon and the chemisette is of white lace to give a touch of lightness and relief. Various combinations might be suggested, however, and the centre-front could match the blouse portions with the under-sleeves and chemisette made from the same material if one liked. Treated in this way, the centre-front would afford an excellent opportunity for the use of embroidery or soutache.

The blouse is made over a fitted lining and itself consists of the front back and centre-front. Both the fronts and the back are tucked, but the centre-front is plain, in this instance cut from already tucked material for a portion of its length, from lace above to give the chemisette effect. Polygamy in Utah.

A little while ago we printed a roster of men who are actually reputed, and doubtless correctly so, to have entered into new polygamous relations within recent years, very recent years indeed as compared with the date of the manifesto of 1890. "The Deseret News," referring to that list, apparently accepted it as correct, and undertook to belittle the polygamy scare" by saying that if these were all who had gone into polygamy since 1890 the list was a matter of no great concern.

This admission, however, on the part of the Church organ serves not to limit the number of new cases of polygamy, but as a foundation upon which reasonably to assume that polygamy is alarmingly prevalent, for to every new polygamous case that comes to the notice of the non-Mormons there are doubtless a hundred that the non-Mormons never hear anything about.

It is entirely safe, therefore, to say, as "The Tribune" has said heretofore, that the new cases of polygamy are numbered by the hundreds; perhaps it would be no great exaggeration to even say by the thousands.

At all events, it is a sure thing that there has been such a recrudescence of polygamy within recent years as could not have been dreamed of at any time between the outgiving of the manifesto and the conferring of statehood upon Utah.—Salt Lake Tribune.

CURED ITCHING HUMOR.

Big, Painful Swellings Broke and Did Not Heal—Suffered 3 Years—Tortures Yield to Cuticura.

"Little black swellings were scattered over my face and neck and they would leave little black scars that would itch so I couldn't keep from scratching them. Larger swellings would appear and my clothes would stick to the sores. I went to a doctor, but the trouble only got worse. By this time it was all over my arms and the upper part of my body in swellings as large as a dollar. It was so painful that I could not bear to lie on my back. The second doctor stopped the swellings, but when they broke the places would not heal. I bought a set of the Cuticura Remedies and in less than a week some of the places were nearly well. I continued until I had used three sets, and now I am sound and well. The disease lasted three years. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Cancer Not a Meat Disease.

Exceptional opportunities are afforded in India for the study of the incidence of cancer in vegetarians and flesh-eaters, since the diet is strictly ordained by the customs of the different native castes. In India the disease occurs irrespective of vegetarian or meat diet just as it occurs in herbivorous and carnivorous mammals.—New York Medical Journal.

MUTUAL FORBEARANCE.

"You and your wife get along nicely."

"Fairly well. We had an understanding from the start. I wasn't to expect a dollar to buy more than a dollar's worth of goods; and she wasn't to tell me about the fine men she might have married."—Louisville Courier-Journal.

Aisle of Car in a Wreck.

A veteran railroad man gave a piece of valuable advice not long ago. "If you ever get into a wreck," he said, "and have time to follow out this suggestion, remember this: Always stand in the aisle. Most of the injuries that are suffered occur because the victim is crushed between the seats. If you are in the aisle you may be thrown forward and bruised a little, but there is much less chance of receiving serious hurts. It isn't always possible to get out of your seat before the crash comes, but if it is follow that advice."

Unavoidably Detained.

A well-known general tells the following story:

One day he received a telegram from a subordinate who was injured in a railroad accident while on furlough, which read: "Will not report today, as expected, on account of unavoidable circumstances."

The tone of the message was not satisfactory to the general and he wired at once in reply: "Report as ordered or give reasons."

Within an hour the following message came back over the wires from the hospital: "Train off—can't ride; legs off—can't walk. Will not report unless you insist."

Fidelity sometimes treads a path-way of thorns. But it is better by far, thinks the New York Telegram, to have them at the feet than on the brow.

OXIDINE

It is a simple and effective home remedy for Chills, Fever, Malaria, and all other diseases arising from a disordered liver. It is effective for Constipation, Indigestion, LaGrippe and Colds in the Head, Throat and Chest, and is sold under a strict guarantee. If the first bottle does not greatly benefit you, return the empty bottle to your druggist and get your money back.

HOW IT RELIEVES

Oxidine has a direct action on the Liver, Stomach, Kidneys and Bowels, and is a powerful invigorator and reconstructive. It destroys the germ of malaria, stimulates the liver, enabling it to throw off the poison in the system, and flushes the stomach and bowels. It also strengthens the kidneys, which often become clogged and inactive in cases of Malaria Fever, and forces them to perform their natural functions. The symptoms of malaria are so numerous and varied that many people suffer from it for years without discovering the true source of their troubles. Chills do not always accompany malaria troubles, and chronic Constipation, Rheumatism, Dyspepsia, many forms of Skin Disease, Piles, Enfeebled Heart action and pains in all parts of the body may be due to Malaria, and can never be relieved without first discovering and removing the cause. Oxidine relieves by removing the cause. It goes to the seat of the trouble, destroys the germs of the disease, restores the organs to a normal condition, builds up the system and aids nature.

Passing of Costly Receiverships.

In the liquidation of the Bingham Trust Company, Clark Williams, superintendent of banks, has again demonstrated that the big fees formerly paid to receivers for failed banks were unjustified.

This bank has paid an initial dividend of 50 per cent. to the depositors. This disbursement comes barely five months after the doors were closed. The amount paid out was over \$1,500,000.

Under the old system of court receiverships, such rapid settlement of claims would have been unheard of. So would such a thing as an expense to the depositors, including the receiver's salary of \$10,026.11, which was less than 1 per cent. upon the total amount disbursed.

The success of Clark Williams's plan is attracting the attention of the legislatures of other states. The people of New York owe a great debt of gratitude to their conscientious superintendent of banking for this reform.—New York Financial World.

A One Legged Cricketer.

Has any one heard of a one legged cricketer? There is a one legged member of the Knotty Ash (Liverpool) Club, who has to use a crutch, but is nevertheless not only a useful bat but a capable wicket keeper as well.

In a match against Trinity Old Boys he scored ten runs by means of a couple of fours—appropriately enough, strokes to leg—and a two and he also helped to add to the score by means of some judicious running.

He sprints between the wickets in a series of hops, touching the ground only four times with his crutch, and so lightly does he touch the ground that except on very soft turf he does little damage to the pitch. As a wicket keeper he brings his crutch into use and prevents many balls well on the leg side from passing him by using the shaft of the crutch.—Baily's Magazine.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
