"love, loyalty and affection" to Kalcher set forth in her declaration.

Judge Swayne, in deciding the point, held that the case was an unusual one "not to be heard at the outset by material rules" and ruled that services rendered Kalcher by Miss Quirk were to be valued by the jury in the light of the affection which prompted them.

Miss Quirk, in the course of her testimony, told of gifts of bonds made to her by Kalcher totaling $4,000.

The present trial is the fourth since 1916 has been heard in federal court here. In the first trial the late Judge John R. Sage Tea Darkens Hair to Any Shade

Don't Stay Gray! Here's An Old-Time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that washed or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally that nobody can tell it has been applied. You simply darken a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. (Adv.)

The passing by the senate of the bill in its revised form marks success to the efforts of various Texas organizations, as well as others from Florida, northern states and different parts of the United States.

Rep. Miller, representing the Rural Land Owners' association, Fred Roberts appointed by the farmers of Nueces county, representatives of the San Antonio and Texas chambers of commerce and others appeared before the senate committee at its hearings on the Johnson bill in Washington and presented arguments against section 7 of the former bill, which was so drawn that Mexicans and others not able to pay a head tax or pass a literacy test would be barred from the country. This, it was declared, would have proved a staggering blow to the farmers of South Texas and would have worked harm to agricultural interests in the northern part of the state and elsewhere.
