GERMANY CELEBRATES CONSTITUTION DAY

The constitution of the German republic is two years old. The anniversary was celebrated with military ceremonies. Chancellor Wirth, left, and President Ebert inspected the army.

City Briefs

S. A. London and wife, accompanied by their little son, Floyd, and cousin, Ogden Coffey, left for a trip to Oklahoma. The family is making the trip by automobile.

Jack, Jr., the little son of Mr. and Mrs. J. C. Cooley, who has been with his grandfather in Oklahoma for some time, will arrive in Corpus Christi tomorrow night. Mrs. Cooley went to Houston to meet the little fellow, and will return with him.

Two more Corpus Christi boys are leaving for school today. Some of these fellows in choosing an Arizona institution, need not look for a place to go. Arizona is the only state in the union to which the old Confederacy sulked at joining.

Miss Ina Henderson, Grand Central Life Insurance Company ... (Adv.)

KNIGHTS OF PYTHIAS ATTENTION

All Knights of Pythias are requested to meet at K. of P. hall this morning promptly at 9 o'clock, to escort the body of our deceased brother M. J. Longchamp from the residence of his brother, San Diego, to the Union Depot, where the body will be taken to Victoria for burial. All members having cars will please come in their cars.

C. J. PRIDDY, K. R. S. and P.

NEW PARKS FOR TOKIO

TOKIO, Sept. 7.—Within the ... five years 10 new parks will be laid out in Tokio. They will be for the use of the working people.

Calomel Losing Out in South

Mr. Dodson, the 'Liver Tone' Man, Responsible for Change for the Better.

Every druggist in town was noticed a big falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking the place of calomel and people know it. Dodson's Liver Tone is purely vegetable, guaranteed by every druggist who sells it. A large bottle doesn't cost a dollar but it is safe to give your money in every case of liver sluggishness and constipation, and ask for Dodson's Liver Tone.

Tone is a pleasant, vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no biliousness, sick headache, sour stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like calomel and salines. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't use a drug.—Adv.

TRACY RETURNS TO SAN ANTONIO WITH REPORTS

Thomas H. Tracy, industrial engineer for the deep water committee, who has been in Corpus Christi for two days in conference with Captain Hugh Miller and Secretary-Treasurer Ben Miller of the deep water committee, returned to San Antonio last night. Mr. Tracy is still adding to the data he has compiled for the argument to be submitted by the committee at the meeting of the board of engineers at which reports on the surveys have been made.

It was expected at one time that it would be up to him to lead the presentation of the argument and statistics before the board, but the decision of the chairmanship of Hoskerr in the survey has necessitated a delay and leaves Tracy to make this available for the committee and industrial engineer responsible for work.

The meeting of the general executive committee of the deep water committee, which was to have been held at San Antonio on September 15 has been postponed until September 19. This action was taken chiefly because of enforced absence of some members of the committee.

E. E. Jones of Houston, consulting engineer for the deep water committee, will arrive in Corpus Christi today for a conference with members of the committee in connection with the proposed jetty and harbor plans in line now adopted. The plans have been carefully gone over by members of the committee personally, and a few changes suggested and these suggestions have been followed by Mr. Jones.

They are to be recommended to the board approved by the general executive committee of a week ago. Under the contract with Mr. Jones it was considered that the committee should receive no right to alter or take from the primitive plans. Engineer Jones is interested in the splendid plans the committee suggested to him and has worked them out to the satisfaction of all.

MAIL CAR ROBBED

By The Associated Press.

TEXARKANA, Texas, Sept. 7.—Although federal, state and city officers have been working for 24 hours on the mail car robbery which occurred here last night, not night when footprints were left on the roof by the passenger train robbers has been discovered the wound inflicted certain officers to give any information of the robbers of the back seated by the bandits.

EXTREME CRITICISM

LONDON, Sept. 7.—Magistrate at Malkin showed over his court stamps which contained "I is a city that was born drunk stood drunk lived in drunkenness." His Honor was objecting to low-cut gowns.

Twelve 1,000-foot piers are being built for ocean going liners in New York harbor.

AMONG THE COURTS

Grant vs. Kennel, which has occupied some time of the civil district court, was concluded yesterday afternoon the charge going to the jury after attorneys presenting argument.

Civil business has been good in Justice McCampbell's court since appearance day last Monday. There is a heavy docket and it is being cleared very rapidly. A number of judgments were obtained by default of litigants to appear. Following cases have been disposed of:

Nueces bond vs. E. G. Farrell, suit on note; judgment by default for $123.31.

Guschebier-Cohn company vs. James E. Daly, suit on note; judgment for plaintiff for $90.95.

Grant vs. Jackson, account; judgment by default for $27.

Superdermo-Color company vs. B. A. Kilbourn, suit on note; judgment for plaintiff for $28.53.

James G. Davis, director general and federal agent for United States railways, vs. Dodd-Bratcher company, suit on undercharge; judgment for defendant on three counts—$90.87, $24.56, and $142.26. Notice of appeal was given.

The only business done in Justice Sharp's court yesterday was the issuance of an attachment for a lot of household goods in storage and the marriage of a couple.

The attachment was issued on complaint of a landlord that a tenant had vacated his premises without paying rent due, and had placed a portion of his household goods in storage. Suit was filed for the amount due and the goods attached.

Two divorce suits were filed and seven marriage licenses issued at the court house. Divorces are becoming somewhat rare of late, records show, while the marriage licenses show a steady increase.

Marriage licenses have been issued to Alberto Rodriguez and Angelita Leyal, Miguel Herrera and Francisca Chavez, Robert Jesse Hall and Claire Von Zuidy, Pablo Guerra and Marjorie Hernandez, Armengal Saenz and Lucy Ibarguen, Jesus Negrete and Antonia Arzazan.

Additional Markets

CHICAGO GRAIN

By The Associated Press.

CHICAGO, Sept. 7.—Wheat futures advanced to a new high on the present option and a new top on the crop for May on the board of trade here today. The trade was active with more outside interest and at the high point prices were up as much as 8¾c over the early low with heavy buying by commission houses and the local element on the way up with stop loss orders uncovered. May led the advance. Final wheat figures were 2⅞ to 4 1-8c higher, while corn rallied 5 to 1¼c up and oats 1-8 to 1½c higher.

Oats advanced 1 1-4 to 1 7-8 from the early low but did not maintain all of this. An easier tone was shown early but the market turned very strong later in sympathy.

Oats followed other grain declines early only to advance later. The south was credited with being a good buyer at times, the advance in cotton being a factor.

Provisions averaged lower, the feature being the buying of January and March lard by houses with eastern connections presumably hedging against sales of refinanced oil.

NEW YORK SUGAR

NEW YORK, Sept. 7.—The raw sugar market was easier for uncontrolled sugar on sales of 54,500 bags of Porto Rico to local refiners on the basis of 4.50 for centrifugal, while 12,000 bags of Haitians were sold at 3.75, c.i.f., equal to 4.79 for centrifugal, the Cuban sugar committee concurred no sales, although it was stated officially that they would take care of all sugars coming forward and will charter no steamers until these are cleared. This made no change in the price, which is 2.1-4c, cost and freight, equal to 4.96 for centrifugal.

The raw sugar futures market was firmer early in the day but after advancing one to 3 points on covering offerings increased, owing to the more liberal offerings in the spot market and prices eased off, closing four points lower to two net higher. Sept. closed at 2.90; Dec. 2.59; March 2.48 and May 2.51.

The market for refined was unchanged at 5.30 for fine granulated, with the increase noted in the demand.

Trading in refined futures was confined to a few lots of September at 40.06, which was unchanged from the previous close. Final bids were 10 lower to 5 higher, September closed at 5.95, Dec. 5.75, March 5.95, and May 5.95, all bid.

CALLED TRAIN PEEPER

LONDON, Sept. 7.—Joseph Peter Kelly fell out of a moving train. At the inquest the coroner explained that it was probably the result of attempting to peek into the next compartment of the train. "This is a common practice," said the coroner.

CASH YOUR COTTON CHECKS
