NOT ANARCHISTS.

The Clark Club at Frost Object to Being Called Such.

Frost, Tex., Nov. 5, 1892.

Editor Daily Gazette:

In a communication published in the Corsicana Democrat of the 3rd inst., styled "Frost Rises," by W. C. Williams, the champion of the "Hoodlum Political Gang" of this place appears the following:

"What means this secret organization that has been instituted lately here in Frost?

"We can't believe the Anarchists have found a hiding place in our midst, as we notice, some who have always been our most law abiding citizens, both Democrats and Republicans going to and from it. It can't be a Mafia, because there is not an Italian in all this country. Then what is it? They have had two meetings and all must be sworn to secrecy as all efforts to find out the object of the order have failed so far."

"Thus the free and open Democracy at Frost is left to suppose the matter, etc.

In defense of all concerned, even of their persecuted character, which we consider be tries to bring in question, we beg to say that the organization of which he speaks does not, nor has never, in a secret sense, existed further than go the rights guaranteed to every free American citizen by the constitution of the United States.

But we do not deem it necessary to make any explanation of the true situation of affairs when we reflect as to the source of the tirade referred to above.

It is only for the satisfaction of those outside the bounds of our own domain and those who are not acquainted with the character of the members of our club that we condescend to give this document a second thought.

In this membership to which we refer, is found the representative men of this section the least towering far above the individual who has undertaken to besmirch us—an honorable, outspoken Clark club, with his dirty and infamous slime.

In regard to a hiding place to which we, "Anarchists," as he calls us, resort, we wish to notify him and the public generally that we have at all our meetings been tendered the use of a good, respectable hall in which to hold convers with each other on the political situation of our country, business was over.

But he belies all his pretended supposition when he says, "we notice some who have always been considered our most law-abiding citizens, both Democrats and Republicans, going to and from it."

Yes, Mr. Hoodlum, you are right in this part of the matter, and they still remain as true as ever, considering it a happy privilege, that the way their principles and Democracy leads them, is a different direction to that taken by you, the would-be supreme dictator of the strayed and deluded faction—the Hogg men.

But at this place we find as a majority the most conservative voters of both factions that could be imagined.

As for our club, by the side of the great and gallant George Clark, we have taken our stand and unfurled the banner of peace and progress to the sunny land of Texas.

Under his leadership we propose to fight the battle to the finish, coolly, bravely, fearlessly and honorably, for we find in him the principles of good government, notwithstanding this stupendous fraud to the contrary.

Respectfully,

A. Chamberlain, Chairman,
C. J. Tosh, Vice-Chairman,
J. D. Hensley, Secretary,
R. J. Sanders,
J. Mc H. Wilson,
W. J. Sullivan.

BOXING CONTEST

Last Night Between Irish and Johnson, Dumas and Moore.

Last night at Holland's theatre three boxing contests were on the bills. The first was between two boys, Irish and Johnson, which lasted three rounds, and was decided in favor of Irish. The second was to have been between Dumas, of Fort Worth, and "Kid" Morris, of Philadelphia. The third between Moore, of Fort Worth, and Sherwood, of Chicago. In the second the light failed to come off, Sherwood, who was to have figured in the third, left the house with Morris and so broke up the third one. After this a fight was arranged between Dumas and Moore for ten rounds, and was a pretty fight while it lasted. In the sixth round Dumas got in a good punch on Moore and laid him to sleep.

There is a possibility of a fight being arranged between Dumas, of Fort Worth, and Jack Lamargue, of El Paso, for a purse of $200, to come off some time during next week. Lamargue posted a forfeit of $25 last night, which was covered by the backers of Dumas. The money is in the hands of Dave McCoy. It is expected an agreement will be made between the interested parties by Monday night.

Too Much of a Risk.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty-cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended on. For sale by S. E. Grammer and J. P. Nicks & Co., druggists.

LIVESTOCK NEWS NOTES.

What Was Done Last Week in the Local Market—An Experimental Shipment.

The following prices are being paid by the Fort Worth Packing company for livestock:

Steers, $2.25@2.50; cows, $1.25@1.50; calves, $2.25@2.50; hogs, $4.60@4.80.

Receipts of cattle are fine, at Fort Worth during past week show an increase over the corresponding week last year, and prices are well maintained. The demand is still ahead of the supply. Owing to the bad condition of the county roads, caused by the recent heavy rains, receipts of feed cattle and hogs have been much shorter than they would have been otherwise. The fact that the local receipts are ahead of those for the corresponding time last year under the adverse circumstances stated above, especially in hogs, shows that the farmers of Tarrant are paying more attention to hog raising, and that the market for them at the packing house has proven a stimulus.

The experimental shipments of refrigerated beef from Fort Worth to New York city having proved the biggest kind of a success, the Fort Worth Packing company has shipped several carloads of live beef, as nearly as possible the same quality as the dressed article.

A big movement of cattle is in progress from Arizona and New Mexico to Nebraska and Nevada ranchmen, whose herds have been badly depleted by the terrible winter of two years ago, are beginning to take heart again.

The hog packers claim that with hogs at the present prices, they are losing money on every hog they buy. Their profit comes in on the fresh meat end of the business.

Montana ranchmen expect an advance of about $1 per head on cattle next year, on account of the demand to be caused by the World's fair.

Receipts of Texas cattle in quarantine division at Chicago last month were 97,780 head, an average of 3,760 for each commercial day. The largest day's receipts during the month was on October 10, when 7,741 arrived, and the smallest on Tuesday, October 25, when the receipts were 1,444. It is estimated conservatively that nearly 200,000 Texas cattle were sold outside of the division. October last year's receipts were 118,000 head, which was the banner month until last month, when 120,470 head arrived in the quarantine district alone, and 150,000 counting cattle that arrived outside. A very large proportion of the October receipts were cows.

GOOD PROSPECTS

For the Immediate Completion of the Jetties at Aransas.

Ex-Gov. T. B. Wheeler and Hon. John W. Maddox were in the city yesterday, en route to Austin and Aransas Pass, after a visit to Denison and other points to consult with their co-adjutors in the work of improving the harbor at Aransas Pass. They, with Mr. J. P. Nelson, of San Antonio, are managing directors in the company having the work in charge, and Dr. Ford and Mr. W. R. Munson of Denison, are associated with them. They report the prospects most flattering for an early termination to the work of building their jetties and are hopeful of success in securing deep water at that entrance also. While on this trip their investigations were not wholly confined to business matters, for they are ardent Clark men and their desire for his election is second only to their zeal for the improvement of a new deep water harbor. They promise that for every county in the black land that gives Hogg a plurality they will show two in the coast country and southwest Texas that will give Clark a bigger one. The gentlemen left the city on the evening train over the Missouri, Kansas and Texas road.

It is a Fact

that the rich of to-day may be the poor of to-morrow. Then how essential is it that we should always be prepared for the worst. Wolden's Texas business college fits young men and women for the battle of life by giving them the training in those things necessary to make a business success. THE CLARK FORCES.

After a Hard Chase Have Come Upon the Hoggs and Things Begin to Look Critical.

The Hoggites seem to have consolidated their forces. Are now wanting to bet that they can corral their porker in the gubernatorial pen without much difficulty, though the Clarkites say they do not gamble, but they know Clark will beat his Hoggship to the pen. It is only a few days more till the final charge will be made and the party who tries to ride in on the blundering stud will be apt to get thrown from his charger, and should he get tossed in the mud or run over by swine there is still hope, for he can have his battle soiled suit renovated at Gaston Bro's. steam dye works, 908 Main street, the best place in the state to get such work done. Give them a trial if you need anything in that line and you will be astonished at the result.
