"ROUSE EGG"

A Semi-Anthracite Colorado Egg coal, $6.00 per ton. Can be found only at
LILLEY & BIBB'S.

THE ALGERIAN.

One of the most important, as well as one of the most artistic engagements ever presented in this city, will be the coming engagement of the latest New York operatic success, The Algerian, at Greenwall's on Monday, January 29, for an engagement of one night only.

The Algerian has been the leading operatic event for some time past in New York city, where it was presented at Daly's theater it is in three acts, and by Reginald De Koven, the successful composer of Robin Hood and the Fencing Master, and Glen MacDonough, a rising and brilliant young author.

Mr. De Koven has indeed been fortunate in the collaboration of a writer, who has given him so complete a text book for which to supply the music, as Glen MacDonough, who founded his work on an incident suggested by Alphonse Daudet's humorous work, the Tartarin of Tarascon, and he has furnished Mr. De Koven with a libretto, which is spirited in action, and gracefully written throughout.

The lyrics especially seemed to have been conceived in a spirit of fancy that was almost poetic. There is also sufficient humor in the text to make it very funny.

For this libretto Mr. De Koven has written music that is characteristic of his genius. It is always bright, sprightly and unusually pleasing, abounding in the quaint chords and phrases of that far away oriental land in which the scenes of The Algerian are laid.

The boxes of The Algerian affords an opportunity for picturesqueness in scenery and costume which have been improved upon by the management.

Adele Ritchie and Hubert Wilke, two of the most artistic and brilliant singers on the operatic stage, will be seen in the principal roles, ably assisted by the efficient support of Dorothy Morton, Bertha Baylies, Marion Bender, Elma Wharton, Frank Davis, Joseph Herbert, Ben Lodge, James Moffitt and a large and pretty chorus.

Y. M. C. A.

Recently the pastors of the city were invited by the board of directors of the Young Men's Christian association to meet and hear the secretary's report of the financial condition and outlook of the association for the current year. In response to this invitation a majority of the pastors met at the time and place designated, and, on learning that the work was seriously crippled by a debt of about $1200, most of which appeared, demanded settlement this month, it was resolved that the Ministers' association be duly called to take some action in the premises.

On January 13 the Ministers' association met in the parlors of the Y. M. C. A. and unanimously resolved to hold union services on Sunday night, January 28, when the cause and condition of the Y. M. C. A. will be clearly set forth and commended to the benevolence of the public.

In accordance with the plans then adopted, the following congregations are requested to worship together on next Sabbath evening at 7:30 o'clock: The First Methodist and First Presbyterian at the First M. E. church; The Taylor Street Cumberland Presbyterian and St. Paul's Methodist, at the First Christian church; the Mulkey Memorial and Tabernacle C. P. at the Missouri Avenue M. E. church; the Broadway Baptist and Second Christian, at the Broadway Presbyterian church.

The pastors are assigned to the following churches:

Rev. M. W. Doggett and W. F. Lloyd at First Methodist.

Revs. O. L. Fisher, H. Wilson and A. R. Hutchison at the First Christian.

Revs. Bailey, Hall and French at the Broadway Presbyterian, and Revs. Armstrong, Shawbaugh and Martin at the Missouri Avenue M. E. church.

JUNIUS B. FRENCH, Sec'y.

RESIDENCE BURNED.

The fire department was called out by box 43 at 5 o'clock yesterday afternoon to a fire which was rapidly consuming the residence of W. A. Lane on Burnett street, between Jackson and Texas. The alarm was not sounded for quite a while after the fire started, and considerable headway had been made by the flames when the firemen arrived on the scene. The fire originated from a defective flue between the ceiling and the roof. Chief Cella soon discovered that the water pressure was not sufficient, and put an engine to work. It was a hard fight and a good fight to save the building at all, but the flames were conquered before they destroyed the building. Mr. Lane was fortunate enough to get nearly all his furniture out. An upper story room which contained a small amount of household goods was lost with contents. A new double story house which had just been completed only a few yards from the burning house was well protected by strong streams of water, and was damaged to the extent of about $50 only. The building was the property of Mr. Lane, also. The insurance on the house burned was $1200; the furniture was insured for $300. The supply of water used in extinguishing the fire was from the old water works.

REFLECTIONS.

The flower of the family does not always make good bread.

It is easier to take an ass by the tail than some men at their word.

The most active, old-fashioned board of education, as chastened memory recalls it, was a pliable pine shingle.

If some men were really as big as they feel, when they came to die they would fill the world with boxes.

Six things that cannot be made to agree are two women, the church and the devil, and green apples and the small pox.

Next to trying to catch the ear of a deaf man, perhaps the most difficult undertaking is to convince one's self that he has caught the attention of a crossed woman.

HILLSBORO WILL GET THE SHOPS.

Special Dispatch.

Hillsboro, Tex., Jan. 26.—A mass meeting of the citizens was called at the court house this evening at 3 o'clock by G. R. Bennett, chairman of the railroad shops committee, for the purpose of settling the matter whether Hillsboro would be able to raise the $7500 for the purpose of purchasing the 100 acres of land the railroad company require given them on which to locate their round-houses and machine shops. The house was called to order and A. H. Pike was chosen chairman and T. S. Johnson, secretary. Speeches were made by Hon. T. S. Smith and W. C. Morrow.

The subscription lists were then read for the purpose of seeing who would add to the amount they had previously subscribed. Not more than half of the parties were present. After this program had been finished there was a deficiency of about $1000. A motion was then made by a progressive citizen and carried that all who were willing to obligate themselves to raise this amount to make certain sets in the house. About fifty responded to the call.

This virtually settles the matter. Hillsboro gets the shops inside of ninety days.
