MADE AN ADVANCE.

THE NEW YORK COTTON MARKET OPENED TRIFLE STRONGER.

It Closed at an Advance of Eight Points Under Influence of Higher Cables.

New York, Sept. 7.—The cotton market opened at an advance of 4 to 10 points, ruled generally higher and closed steady at a net advance of 8 points. The advance was due to higher cables, which in turn was based on poor chronicle reports covering the cotton crop for the past week. There was plenty of outside buying support to promptly absorb the offerings of liquidations in the way of long account. The market as a whole was not active.

GRAIN AND PROVISIONS.

Chicago Grain.

Chicago, Sept. 7.—Big receipts of spring wheat kept the wheat market on the down grade today. December closing 1-2 cent lower. The continued liberal receipts in the Northwest was again a feature, being 1078 cars, against 358 cars the same day last year. Cables were without material change, but there was practically no export or cash demand, and as there was no life in speculation, holders showed increasing discouragement and there was generous liquidation with the buying slow and cautious. The exports of wheat and flour from both coasts during the week were about 480,000 larger than the week previous, being equal to 2,320,000 bushels of wheat. But the deliveries at primary points have been so generous that the trade is figuring on an increase of about 1,350,000 bushels in the visible supply next week.

Corn was slow, but held quite steady. The weakness in wheat had some tendency to weaken corn, but this was offset to a considerable extent by talk of frost.

Oats were quiet but firm in the small stocks.

Provisions were dull and weak. October pork is 15c, and January 10c lower. October lard is 2 1-2c and January lard is 7 1-2c to 10c lower; while October ribs show 10c and January only 2 1-2c decline.

Estimates for Monday: Wheat, 100 cars; corn, 480 cars; Oats, 225 cars; hogs, 20,000 head.

BIG PROFITS —ON— Small Investments.

Borrowing prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock, originated by us. All successful speculators operate on a regular system.

$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation.

It is a well-known fact that there are thousands of men in all parts of the United States who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more to those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on at; trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success.
