FINANCE AND COMMERCE.

The Spot and Future Markets Are All Lower on Continued Heavy Port Receipts—The Stock Market Weak. The Other Markets.

New York, December 26.—Stocks were weak and irregular today in our stock market. There was a sharp decline in Sugar shares and Atchison and New England sold heavily, while sugar certificates were stronger. The selling of New England stock today was accompanied by many disquieting reports. The directors of the company said that they could not tell whether the interest would be paid or not until tomorrow and operators have kept a close watch on the affairs of the road stated that it is simply a question as to whether control has been sold or not. Rumors of another railroad receivership were circulated in the afternoon and caused renewed liquidation in the general list.

The weakness in distilling certificates was ascribed to the publication of a confidential circular from the company to the trade, in which, it was stated that the increase in wholesale whisky prices is improbable. Boston houses and traders were heavy sellers and traders of Boston stock and bonds and many stops were reached. Many of the holders of the securities held on to the last in the hope that this interest would be paid for and some lots of bonds were bought on the street after the close of the market on a rumor that the money had been borrowed. Some stock was sold for foreign account and there was some belief that prices will sell heavily tomorrow.

Sugar Trust declined on liquidation sales, followed by the publication of the earnings for the third week of December. The selling of Western Union was again ascribed to decreases in revenue from leased lines and other branches, from which the company has hitherto derived its profits.

Silver was bought by E. D. Potter & Co. and traders followed the movement in the idea that some modification of the proposed tariff changes will be made.

The traders sold down Burlington and Northern on the belief that these roads will be affected by the Atchison receivership.

The money at the opening of the week is about the same condition.

The bank statement was not such as to have any special influence on the large surplus. The demand remains only moderate.

Commercial paper is not active. The supply is meager and the demand good. Quotations are 6@7 for prime, 4@5 for good, 3@4 for fair.

Sterling exchange is dull and weak, with but little business. The firm tone of last Friday has disappeared. Posted rates are 4 86@4 87 and 4 88@4 89. Commercial bills are 4 84@4 85½.

Silver certificates are quoted at 86½@87 bid and 87 asked. Bar silver is quoted at 86½ per ounce. Mexican dollars are quoted at 66 bid and 66½ asked.

Government bonds are dull and weak. State bonds are dull and nominally unchanged. Railroad bonds have been dull and generally lower. The decline in Atchison seconds was 1 point. Southern Railway bonds were also lower. Louisville & Nashville was 1 point lower. Northwestern was 1 point lower. Rio Grande Western was 1 point lower. Texas Pacific was ½ point lower. Wabash debs were ½ point lower. Western Union was ½ point lower. Chicago Gas was ½ point lower. Sugar was ½ point lower. Tennessee Coal and Iron was 1 point lower. Cotton oil trust was ½ point lower. Distilling and Cattle Feeding was ½ point lower.

The Liverpool exchange was closed today, but will be open tomorrow for business.

New Orleans futures opened steady 2 to 10 points lower than Friday's quotations, ruled steady at about the same figures, and closed steady 3 points lower for most months than last Friday.

New York futures opened easy 7 to 9 points lower than last Friday's closing, ruled steady 2 to 3 points higher and closed 9 to 16 points lower than Friday's quotations.

Portland via Newport News—

Schooner Horace G. Morse, Harriman, sailed December 2.

New York—

Steamship Comal, Risk, sailed December 18.

Schooner Jessie Jena, Dodel, sailed December 23.

NOTES.

The schooner Warren Adams, now discharging a cargo of coal at pier 20 for E. O. Flood & Co., sailed in over the bar yesterday drawing fifteen feet of water. This shows there must have been at least sixteen feet of water on the bar at the time, for vessels under sail when they strike a bar are apt to broach to and become unmanageable.

Cotton on Shipboard (Not Cleared.)

For Great Britain—

Steamship Houlton,	3830
