BURGLARS AT WORK.

SO PART OF THE CITY SKULKED BY THEM.

The Center of the Town, Far Out to the Third Ward and Over to the Fifth is Visited by Night-Prowling Work.

The bold, bad burglar is abroad in the land, and has been for some time.

He seems to have to a marked degree the outlying portions of the city as the scene of his operations, as the latter name is the heart of the city has been passed by few nights. One of these was Stamper's dry goods establishment, which after and have some entire Monday night, and the other was Monday night, when the grocery establishment of J. W. Mackie & Co. was visited.

An entrance to the latter was effected from the rear, the usual formula of the burglar being plainly discernible from a small door at the rear of Kaer store and Stamper's bar, on Preston avenue, which is found and open, as the lock that was for side an optimism. A very large and well equipped from above a back door and the chief had power in the house. The safe of 2000 was taken from the main register, a block of bologna sausage and crackers was made back a back in the office, and an exit was made through one of the front doors opening on Preston avenue, between Main and Travis streets. If any goods were taken it is not known. The excellent business of the gentlemanly burglary is mentioned upon as no doubt by the force to look to the office.

The store of Mr. F. F. Dwyer, corner of Prairie avenue and Louisiana street, was entered some time after a burglar. The time is that between midnight and to have passed. The place was entered during the night. Last night about 9 o'clock, the night watchman said that about 10 o'clock, the night watchman said that the Louisiana street side of the house was opened, to the Prairie avenue side, and from so far as anything was missed, or removing a blanket, which is a gold filled-case watch, and some cigars were taken, and traces of the burglar were discernible all among the barrels and boxes.

Mr. Dwyer reports of the number of Dick Jackson and Ed Jackson, who are in Monday night about 2 o'clock. Officer on the beat became suspicious that some mischief was in progress on the premises. They entered and were found, a search was made and for proof, by a group of the members who happened to be on the lake and seen by of the Gang, and to see the officer. The officer was then in the Dwyer and the young Jackson, who is one of the burglars, and who was arrested. The prisoner, John Watson, who had under the principle whose name cannot be.

Vandalism at Glenwood.

The desecration of flowers in Glenwood cemetery is of such frequent occurrence that lot owners are determined to put a stop to it. Not only are cut flowers stolen from graves, but plants are dug up by the roots and taken away. Some of these vandals are said to be well dressed women, who carry off flowers and plants in parasols and umbrellas. One lady, who last year planted pansies by the grave of her little child, who in life lifetime was passionately fond of the flower, has had two settings stolen. Last Saturday a lady set out a number of plants on the grave of her little boy. An hour after she had left the cemetery, which was about 1 o'clock, the plants had been stolen. The
