THE BUSINESS BAROMETER.

An Index to the Condition of Trade Generally.

SUGAR IS ONE-EIGHTH CENT LOWER,

Making a Quarter of a Cent Decline in Two Days—The First Peaches—Notes.

Office of The Post,
Houston, Wednesday, May 20.

A typographical error made the decline in refined sugar yesterday appear in this column as ⅛c, or just double the true decline that took place Tuesday. Further declines today, however, have made the question given an accurate forecast of the total loss in two days. Yesterday the Sugar Land refinery and the American Sugar Refining company reduced prices on all grades of refined sugar ⅛c; this morning a further decline of 1-16c was followed local jobbers and during the afternoon notification was received of still another 1-16c drop. This makes a total loss of ⅛c in two days, or ¼c during the last two weeks. The weakness of the sugar market just at this time is quite a surprise to the trade, but is doubtless due to the general depression going on in Europe. Raw sugar has been very weak recently and has declined sharply. Sugar stock in Wall street has also had a marked downward tendency lately, which is quite a contrast to the strength of this specialty for over four weeks ago. It is likewise understood that large lines of raw sugar were purchased by speculators, and the American Sugar company is known to be carrying a big stock. The statistical position is very strong, however, and does not justify the present decline.

PEACH SEASON OPENED.

Houston's first consignment of Texas peaches for this season arrived today. The shipment was received by T. H. Thompson & Co. from Jacksonville, being sold by Jesse Boles, one of the largest growers in that section. The peaches could have been graded as very ordinary perhaps later in the season, but, coming a week or six days earlier than the earliest peaches usually appear, they were considered a rare and costly fruit. The small lot sold for $5, which will average fully 50 cents a peach.

Mr. Thompson has just returned from a business trip to Jacksonville, Tyler and other important fruit points of East Texas. He states that more fruit will be shipped in that section this year than ever before known. The trees are loaded and early varieties are doing well. Active shipments of peaches will begin in next week and every class of Texas fruit will soon be pouring into Houston. The shippers are also making preparations to send large quantities to the Northern markets.

THE FIRST NEW OATS.

Menke & Pillott received from Temple today the first car of oats of the new crop. This is not only the opening of the season for Houston, but so far as known is the first shipment received at any Texas point. The oats graded as fine No. 2 rust proof and are the finest specimen of this grain ever grown in the state. They will take the place of the No. 2 white Nebraska oats which have been selling here for the past ought or months at a premium of 5 cents per bushel over the Texas product. Last year there were no Texas oats of this grade on the market, the entire yield having been damaged. This season South and Middle Texas will raise thousands of acres. This means that several thousand dollars sent to Nebraska for oats last season will be kept in the State this year.

HOG PRODUCTS WEAK.

Prices of lard, ribs and pork didn't reach the bottom today it is the general opinion that they will tomorrow or next day. Prices declined to ridiculous figures in the Chicago market this morning, July pork being quoted at 7.55@7.60, lard $4.92 and ribs $4. Not in the past twenty or twenty-five years have any of these products been so low and lard is at the lowest figure ever known. The main cause of the decline can doubtless be attributed to the fact that the whole country was "long" of hog products. Prices have been so low that everybody began buying for speculation. Becoming tired of holding without profits being in sight, many have taken their purchases on the market recently. As soon as this liquidation ends it is the general belief that higher prices will follow.

LOW GRADES OF FLOUR.

South Texas mills have announced a reduction of 10 cents per barrel on several grades of flour below first patent. Sea Fairy, second roller patent, is now quoted at $4; Sea Nymph, extra roller fancy, $4.20; Sea Pearl, roller family, $3.50. Tidal Wave remains at $4.35 as heretofore. The action was necessitated by the large stock of these grades on hand and the comparatively small demand therefor.

TRADE NOTES.

New potatoes are rather scarce, the demand being greater than the supply.

Eggs were very firm today at 6½@6½c, the tendency continues upward.

Several crates of blackberries were on the market this morning, but being in poor condition prices only ranged from 75c to $1.10.

The South Texas onion crop is an immense one this year. Last season there was great scarcity just at this time.

Strawberries made a good advance today, the best fruit selling at $2.00@2.15. A few consignments in bad condition brought $1.50.

The slack demand has influenced the price of wool to a lower basis and there seems to be no turning point to the weak market.

Eastern packed pears are being offered at very low prices, but the demand for them is very light. For the past couple of years the demand for pears appears to have been confined to California packing almost exclusively.

The country seems to be full of everything except confidence in the boundless resources and steady progress of the greatest land the sun shines upon.

FOR SALE.

Pepsant Toy Pail Jelly, 1 dozen in case. Quite a novelty and cheap.
Harvest Starch, 40 packages in case. Not water required in making.
Faddless Starch, 36 packages in case.
Gold Band Hams. (A delicious article.)
In your next order for groceries try some of the above items and you will be pleased with them.

J. D. TAYLOR & SONS,
1006 MILAM STREET, HOUSTON, TEXAS.

HOUSTON PRICE CURRENT.

These quotations are revised daily and their correctness can be relied upon. Prices are those ruling in the Houston wholesale market.

AXLE GREASE—Diamond, $4.75 per gross; Frazier, in tin boxes, $3.00 per gross; Golden, 50@60c per dozen boxes; castor oil, 65@75c.
