Ten Pins, choice liquors, fine cigars and good cheer at Strauss' new saloon

MILITARY.—Quite an excitement was created in town on Sunday by the dashing through Main Street of a splendid Cavalcade from the Fort. Strauss new quarters, the Ten Pin Alley Saloo is becoming a favorite resort. Good exercise and healthy stimulants are the order

GONE EAST.—Mr. W. W. Alderson, one of the oldest residents of Bozeman, and one of its most enterprising citizens, left on Thursday on a visit to the States. Bon Voyage.

SUPERINTENDENCY OF THE NATIONAL PARK.—Hon. H. P. Langford has been apppointed Superintendent of the Yellowstone National Park. The selection of Mr. Langford for this position is a fitting one, as few have done more that he to bring into general notice the unrivalled wonders of Geyserland, and none more qualified by natural tastes and pursuits for this important though unremunerative office.

JOHN HANEY Keeps constantly on hand Pies, Cakes, Crackers Bread and Canned Goods for the hungry, and foaming Lager for thirsty Souls, at the Bozeman Bakery, Main St.

PERSONAL.—Ed. Gardiner, just in from the Mammoth Springs looks hearty, and says there is nothing like them to restore vigor and elasticity to the human frame. He came in with Harry Horr, and proposes returning with that gent.

PARK'S HOUSE.—This excellent hotel, located in the flourishing town of Radersburg has recently been improved in augmenting its capacity and in its furnishing. No hotel in the country is more elegantly provided for the entertainment and accomodation of the traveling as wall as the local community.

ATTENTION.
G. M. Levy has just returned with his new stock of Goods

FROM THE YELLOWSTONE.—We notice several persons on the streets from the vicinity of Dr. Hunter's warm springs on the Yellowstone, and they bring encouraging reports of the prospects in that beautiful region. The settlers are busy improving their ranches, and some of them will shortly be furnishing the Bozeman market with garden vegetables, etc. Mr. Ferris, Dr. Hunter and some others are sowing grain, notwithstanding the lateness of the season. We anticipate quite an addition to the number of settlers there this summer, as facilities for agricultural purposes are abundant, there being plenty of good land, water and timber.

GREAT REDUCTION IN PRICES!
The New Fruit and Cigar Store of G. M. Levy has received a new stock of the Best HAVANA Cigars; the best Brands of SMOKING and CHEWING TOBACCO's; FRESH FRUIT, and a large assortment of CONFECTIONARY and NOTIONS.
I will sell all goods cheaper than Helena quotations. Call and examine my stock before you purchase elsewhere, and you will find that I sell CHEAPER than any other house in town.

IMPORTANT TO SETTLERS.—Gen. Sanders, Register of the Land Office, has received by telegraph a notification from Commissioner Drummond that persons who made settlement anywhere within the Railroad belt, prior to the receipt of notice of withdrawal of the Railroad lands, will be allowed to perfect their purchases of pre-emption claims at the minimum price of $1 25 per acre.—*Herald.*

DR. HUNTER'S SPRINGS.—The curative properties of Dr. Hunter's bathing springs are wonderful. We notice several, who have been hobbling round all winter with rheumatic pains, that are now, under the restorative influences of the springs, able to take an active part in the athletic sports of the boys, and, judging from the hirsute appearance of those who have been there, we opine that the legion of bald-headed back's who waste time and money on bogus hair restorers, would find a few weeks sojourn at the warm springs more conducive to the rejuvenation of their capillary adornments.

[illegible] who was wounded during the *fracas* last week, is rapidly recovering, and is able to appear on the street.

ACCIDENT.—One day last week, as Mr. Granis was assisting to lower some timbers for the foundation of the new addition to McAdow's mill by some means he became entangled in the ropes and precipitated to the bottom, a depth of twenty-two feet, the heavy timbers falling on him, inflicting a severe wound on the skull, and otherwise injuring him. Mr. Granis was taken to the Guy House, and under careful attendance is now doing as well as could be expected considering the extent of the bruises, external and internal, he received.

KILLED BY INDIANS.—On Sunday, two men, named George Owen, and James Banks, were camped in the mountains six or seven miles south of the Crow Agency, when one of them was killed, and their horses driven off by the Indians. It appears that Owen went up the Creek to look at the traps, and on his return, found his companion lying dead on the ground, and that all the horses were gone but one. Supposing that one was left as a decoy to entrap him into an ambush, Mr. Owen would not go into camp for the horse, but struck out on foot for the Agency, whence the news was transmitted to Fort Ellis, when Col. Baker immediately instituted measures for the discovery and punishment of the perpetrators of the fiendish outrage. It is supposed to be the work of the band of Piegans who have been prowling round the Mission ever since the departure of the Crows on their summer hunt, and with whom the Indian fight took place two or three weeks ago. We hope the military authorities will be successful in tracking the murderers and inflicting condign punishment upon them.

INSTALLATION.—At the regular meeting of Pleasant Valley Lodge No. 27, I. O. G. T., held at their hall at West Gallatin, Saturday, May 4th, 1872, the following officers were installed for the term ending August 1st, 1872:
W. C. T.—A. McCormack.
W. V. T.—Miss M. McDonald.
W. R. S.—C. L. Weaver.
W. F. S.—F. A. Shaw.
W. T.—Miss P. Williams.
W. C.—J. B. Weaver.
W. M.—Wm. McDonald.
W. I. G.—N. V. Mathison.
W. S.—Geo. Dickson.
P. W. C. T. (ex off.)—Bro. McLeod.
Appointed officers:
A. S.—H. McDonald.
D. M.—Marshall Nelson.
R. H. S.—Mrs. E. Weaver.
L. H. S.—A. D. Weaver.
J. E. Cook, D. G. W. C. T.

CAUGHT HIM.—On Thursday night several rooms in the St. Louis Hotel were entered, and a lot of valuables stolen. A. J. Simmon's room was also entered and some jewelry abstracted; likewise revolvers and other articles belonging to citizens residing in different portions of the town. The thief became so bold in his villainy that he offered a quantity of the plunder for sale at a number of business houses. This led to his capture. He started before daylight yesterday morning, it was surmised for Blackfoot. Police officer Con. Stapleton, under-Sheriff Harvey English and others, started in pursuit a few hours afterwards. Con. Stapleton overtook his man two miles beyond Greenhorn. On him was found a gold watch valued at $200—the property of Mr. J. C. Rainsford. He gave his name as Samuel Ayles. A preliminary examination was held last evening before Judge O. B. Totten. The prisoner acknowledged his guilt, and in default of $500 bonds, was made an inmate of the county jail.—*Gazette.*

FROM THE UPPER YELLOWSTONE.—Harry Horr just in from the Mammoth Hot Springs reports the weather in that locality as being warm, and the denizens of that wonderful region are enjoying themselves highly during the sunny days.

Improvements are constantly going on and Harry informs us that in a few weeks he will be ready to accomodate all who may favor the springs with a visit. Game and fish are in abundance, and two days before our informant left two of the boys has succeeded in bringing down two large Cusses of the Bruin family.

Harry expresses satisfaction at the choice of Mr. Langford as the superintendent of the Park, and states that undoubtly he is the best man for that place—with the exception of himself. (And H. H. aint modest either.)

He leaves for the springs with a large amount of supplies, tools etc, in a few days.

Ten Doy and the Bannacks.

The Indian office is in receipt of a letter from Mr. Davis C. Turner, of Bannack, controverting the accusation lavishly bestowed by the *Montanian* upon Ten Doy's band of Indians for stealing and running off the horses of one Peter Daily of Madison county. Mr. Turner writes that it has been demonstrated to the satisfaction of himself and every citizen of Bannack conversant with the facts in the matter, the horses mentioned were spirited away by Indians of the Snake tribe belonging at Fort Hall, Idaho, who, for some time previous to the theft, were encamped in the vicinity of Mr. Daily's ranch. Ten Doy, (who has always sustained and exceptional reputation among the peaceable Indians of the Territory for probity of character and devotion to truth-telling,) was indignant when told that his band had been accused of this theft, and emphatically denied that any of his tribe had been guilty of the offence. Through the efforts, promptly set on foot, by Ten Doy and his two sons, four of the six stolen horses were recovered from the thieves, and probably are returned before now to the owner. The other animals taken by the Fort Hall Indian depredators are in a fair way of recovery, Ten Doy exerting himself to the utmost to overtake and reclaim the two horses still missing. We deprecate the visitation upon the Bannack Chief and his Indians of unjust or illiberal accusations. The remnant of the tribe under Ten Doy have been conspicuous for years as peaceable Indians and the friends of the whites. They have encountered privations such as few of of the "Lo" family (not excepting the non-treaty Indians) of the Territtory have endured. Government has not evinced a liberality toward or a care for them at all commensurate with their deservings; and the paltry sums appropriated for their benefit has been largely disproportionate to their needs and their often pressing necessities. We feel charitably toward Ten Doy and the tribal kindred who have followed his leadership and faithfully kept the peace for years under his excellent counseling. It is not often that we can say any good or loving words of the Indians of Montana, but an instance occasionally occurs when we are justified in speaking loudly in their praise—as we now do in testimony of the general good behavior of the Bannacks under Ten Doy.—*Herald.*

FROM GALLATIN CITY.

GALLATIN CITY, May 19th 1872.
Editor of the Avant Courier:

Gallatin City has made arrangements so that in about a week it will be in Telegraphic communication with the rest of the world. P. A. Largey, Esq., the manager of the line, has agreed to supply the necessary instruments &c, if the people will pay the expense of getting it in running order, and will provide an operator. The people are very willing to do that, and have contracted for the poles and work needed, and hereafter if Mr. Indian troubles us we can quickly let the authorities at Fort Ellis know of the danger apprehended.

The people are very glad the arms and ammunition for the Gallatin Valley, are on their way, for they need them very much; many of our settlers have no arms of any kind, and others only the old style of Springfield Musket, a very poor weapon in an Indian country.

Political discussion is at present the order of the day here, and "How are you Horace Greeley" the favorite song; though the Presidential Election is an event of great importance, yet from the fact that our own Territorial Election occurs first, it is considered as only secondary, and the great problem is, not, who is going to be our next President, but who will be our Delegate to Congress for the next term, and the answers given, are as various as the possible candidates.

The managers of the Fair Grounds, are getting things in order for the Fair next fall *very* slowly, but it is to be hoped that when a new Board of Directors is elected the work will be pushed forward to completion with energy, and if the Eastern Montana A & M, Association intends to compete with the Helena Fair, they have but little time to spare, for soon the fields will be white with the harvest.

Yours, &c. R. W. H.

WEST SIDE ITEMS.

From the "Independent" MAY 18TH:

Eggs are scarce at one dollar per dozen.

The Postoffice at Coberley's Ranch is now in running order with key attachment; also, the office at Girard's, Warm Springs.

NEW STAGE LINE.—Mr. A. Heath is preparing to run a line of stages from Deer Lodge to Benton, during the boating season.

Kohrs and newcomer have been up at the Oro Fino mines most of the week, and the mines are running with usual good results.

Water has been running through the Butte ditches and mining has commenced, but there are not men enough in the country to supply the demand for labor.

Cottonwood Lodge, No. 2, I. O. O. F. will give a grand ball in this city on the evening of July 4th. Extensive preparations will be made to make it the grandest affair of the kind that has been gotten up in our city.

The Mammoth Reservoir of Kohrs, Newcomer and Dixon, in Hail Columbia gulch, broke and swept the lower part of the gulch to the bed rock in many places. Damages to reservoir about $700, and from loss of water several hundred.

The "Independent" publishes the Charter of the First National Bank of Deer Lodge. President, W. A. Clark; Vice President, R. W. Donnell, and Cashier, S. E. Larabie. The circulation will be received within three or four weeks, when business will be commenced. The stockholders and officers are among our most prominent and correct business men, identified with our interests, and we congratulate them on securing the first charter for a National Bank on the West Side.

From the New North-West:

Con Kohrs has en route a ten-horse power threshing machine—Daverport build,—which will be here soon.

Grazing is better at present between Helena and Deer Lodge than we ever knew it before. The bunch-grass is perfectly splendid, and is noticeably dense this year.

Mining is commencing or begun in right good earnest in nearly all the West side camps. Two weeks more and the golden treasure will set business throbbing everywhere.

At Philipsburg a large amount of mining is being done on leads and ores are being taken out rapidly. The Imperial Company has 10 men on the Speckled Trout. The shaft is down 85 feet, from which two levels of 90 feet and 50 feet respectively are run, and the two connected by a ventilating shaft. The vein averages nine feet, and ore is in sight everywhere. Ten tons of rock is being taken out each day, having an average richness of $160 to the ton.

Holland, Estelle & Ullery are taking out ore on the Little Emma; have a shaft down 70 feet, and have seven feet of good ore.

The St. Louis Company has six men on the Hope. They are down 150 feet, and will sink to 200 where they will drift for the ledge.

Richards & Maynard have just commenced work on the Grey Eagle, a small but rich and promising lead.

Waterbury, Merrill & Frost are running a tunnel on Speckled Trout Hill and getting on well.

Giles S. Olin, our enterprising and practical townsman, has built a one-stack cupel smelter after the manner of an iron furnace, with force blast propelled by water-power, and fired up on Wednesday morning to run some litharge for the Imperial. Mr. Olin intends running the galena ores which abound in the Camp, and it is believed he will make it a success. We hope he will. No one is more deserving.

From the Pioneer, 11TH.

Since the location of the Railroad to this point has become a settled fact, town lots are going off like hot cakes.

Col. W. S. Scribner, late "Ye Local" of this paper, has dissolved his connection therewith and this morning took his departure for the Jocko region.

Rev. T. C. Iliff has purchased a lot on Main street, near the residence of Dan'l J. Welch, and he contemplates the erection of a M. E. Church building upon it very soon.

Since Wednesday last the Hellgate river has been rising rapidly, and is now up almost to high water mark. During the few days cool weather last week and the early part of this, it fell so low that it was almost fordable.

THE TELEGRAPH brings the intelligence that the Cunard Mail-steamer "Tripoli," bound from Liverpool for Boston, went ashore on the South Tuscor Rock, off Carnsore Point, on the Irish Coast. This is the first vessel the Cunard Company have lost since they commenced carrying the Anglo-American mails upwards of thirty years ago, and but a short time since it was announced that they had never lost a letter or a ship, a record unparalleled in the history of maritime navigation. The crew and passengers were saved, but the vessel is a total loss.

ODDS AND ENDS.

How to handle an iron that is red-hot without being burned: wait until it cools

There is no end of cats in the Isle of Man. The reason is, the cats have no tails.

A middle-sized boy, writing a composition on "Extremes," remarked that "we should endeavor to avoid extremes; especially those of wasps and bees."

A man having a cock that was much given to crowing by night as well as by day, gave him the name of Robinson. The reason why; because Robinson Crusoe.

A Scotch nobleman one day visited a lawyer at his office, in which at the same time there was a blazing fire, which led him to exclaim: "Mr.——, your office is as hot as an oven!" "So it should be, my lord," replied the lawyer, "as it is here that I make my bread."

A schoolmistress, while taking down the names and ages of her pupils, and the names of their parents, at the beginning of the term, asked one little fellow, "What's your father's name?" "Oh, you needn't take down his name; he's too old to go to school to a woman," was the reply.

Several boys in Milwaukee, Wis., have established a line of telegraph wires connecting each other's houses, and, in all, nearly four miles long. They have twenty-five cups and ten Morse instruments. When it rains they stay at home and play chess or checkers, or carry on conversation by their wires.

"Is Miss B at home?" asked Mr. S. of the Irish girl who answered the ring at the door. "Yis she is, sir." "Is she engaged?" "An, is it engaged you say? Faith, an' I can't tell ye, sir, but she kissed Mr. V. last evening as if she had not seen the like uv him, an' it's engaged I be'lave they are, sir."

WE have listened to sermons at the race course; heard the Gospel preached in a theatre; been to a Water street revival; attended a bible-class in a dance-house; heard tell of prayer-meetings in Kit Burns' cock-pit, and now the climax is capped by a column in the Montanian devoted to a homily on "Newspaper Courtesies." Truly, the Milenium is at hand.

CORRECTED WEEKLY.

BOZEMAN, Thursday, May 2, 1872.

Since our last report there has been a slight decline in some of the leading staple groceries. The supply is about sufficient for the demand that will likely continue till the arrival of new stocks, which may be expected from the 1st to the 15th of June.

In the produce market flour is dull sale at our quotations, there being considerable in store and no particular outside demand. Oats, firm at 3 cents, and what remains in the valley are in few hands and they are disposed to hold for that price or no sale.

CONGRESSIONAL ANNOUNCEMENT.

WASHINGTON, D. C., April 22nd, 1872.
TO THE DEMOCRACY OF MONTANA.

Fellow Citizens:—I learn from personal and political friends at home, that my enemies are industriously circulating a report throughout the Territory—that I am coming back to run as an *Independent* Candidate for Congress.

I brand this statement, by whomsoever uttered a
MONSTROUS FALSEHOOD,
so far as relates to any "independent" candidacy on my part. I have never for one moment thought of pursuing any such course. That I will return home at as early a day as possibe is certain. And that I shall be a candidate for the nomination for Delegate to the 43d Congress, is equally certain—SUBJECT, HOWEVER, TO THE DECISION OF THE DEMOCRATIC TERRITORIAL CONVENTION.

In thus announcing myself as a candidate I appeal directly to the DEMOCRATIC VOTERS of the Territory.

I appeal, fellow Democrats, to you to attend the *Primaries* in your several precincts, and to see to it, particularly, that the delegates to your County and Territorial Conventions are composed of men who can be neither bullied nor purchased into a betrayal of the important trusts confided to them—delegates that will faithfully carry out the wishes of the constituencies they represent.

Every Democrat in the Territory is perfectly familiar with the means resorted to—at the last Convention—to accomplish my defeat, and thwart the expressed desires of a large majority of the Democracy of Montana. And I merely ask at YOUR hands, that the "wrong" then done be "righted" now.

To the people, and the PEOPLE only, do I make this appeal for a reversal of the action of last year's Convention.

Very respectfully,
Your obedient servant,
JAMES M. CAVANAUGH.

FIRST CASH STORE!
BOZEMAN, MONTANA TERRITORY, December 11, 1871.
FRIENDS AND ALL:
GOOD, BAD AND INDIFFERENT, it makes no difference to us; it is your Greenbacks we are after, and to get them we propose to sell you MORE GOODS FOR ONE DOLLAR than any other store in town.
We will say to every man who has an interest in his pocket, in the county or in Bozeman, that we believe we are to-day entitled to some credit for there are but few in our circumstances, with limited means, etc., who would dare start in business at the time we did in opposition to men of means, and cut down the prices as we have done. By so doing, we believe we are a benefit to every consumer in the county, whether he buys for cash or not, for, were it not for us, we firmly believe goods would be sold at much higher figures than they are.
To those who buy for cash, or those who do not, we will take pleasure in showing you our goods at any time, that you may see the difference between buying for cash and jawbone.
Thanking all for the kindness which has been extended to us,
We are, respectfully, yours,
A. W. & C. E. TANNER.
