STOCKS

Contrary to expectation both New York and Philadelphia held sessions of their respective stock exchanges as it was considered the locations to close in view of delicate international complications. Mining stocks were weaker than at the close Thursday and the big market gave signs of heavy liquidation by those who did not care to carry stocks over Sunday.

The following are the closing stock quotations, and the record of the day's sales, as received from the San Francisco stock exchange this afternoon by Broker H. E. Rowline:

ONLY ONE BOXING MATCH IN TONOPAH

The only license for a boxing exhibition in Tonopah is that held by the Tonopah Business Men's club which has arranged for the use of the Airdome on the night of May 22. On that evening Gus Rallmer, the accredited representative of the business men and matchmaker for the club will present Kelly Salvanos and Danny Murphy in a return engagement.

There will not be any bout between Frankie Malone and Eddie Miller announced without authority of the club.

Pleasant Smith has backed down in the proposal of William Strathan to wrestle him and the latter comes back with the statement that he is ready now, or at any time, to meet Smith in any way he chooses to decide. A purse of $150 was subscribed for Strathan to make this match but the money has been returned to the subscribers. Should Pleasant Smith decide to meet the challenger he will not have any difficulty in finding him at any hour of the day as he is staying in Tonopah for an indefinite time. Thirteen dollars advanced by Smith's backer has also been returned to him.

RECOVERS QUICK SILVER FROM RIVER BOTTOM

James Larson, of Empire, who has charge of the work of dredging and recovering amalgam from the bed of the Carson river, yesterday came into town with five flasks of amalgam. The quicksilver, alone, is worth approximately $150 a flask, and there is said to be considerable gold mixed with it is it comes from the river bottom. Lacking facilities for retorting the stuff, it is shipped just as it comes from the sand, and therefore it is impossible to tell the value of the shipment. This is the second shipment of amalgam since the company began operations a short time ago.—Carson News.

BEWARE OF OIL AS IT IS FOUND IN TONOPAH

Tarvia, a product of oil, which was used by the commissioners of Nye county for the improvement of Tonopah's streets, has failed to do the work that was promised and has been dropped. Nothing of it now remains but the smell and a few relics in the shape of stained clothes, which even gasoline failed to refurbish. It is the same with all products of crude oil that have been used for road purposes and Carson in considering its paving problems, should be wary of it.—Carson Appeal.
