CEMENT ROAD OVER SIERRAS

(By Associated Press)

AUBURN, Calif., Sept. 22.—A cement highway over the Sierra Nevada mountains from the western terminus here of the present paved highway to Reno within a few years was promised by George W. Mansfield, a member of the California state highway commission, and W. H. Alexander, highway commissioner from the state of Nevada, at a meeting recently held in Auburn.

Alexander stated that the road from Reno to the California line would be completed during the year 1920. Mansfield was unable to specify any time for starting construction on the California end, saying it depended on the exigencies of bond-selling and ability toward contracts.

The route will probably closely parallel the old Central Pacific railway, the first transcontinental line to be built, and will cross the summit at an elevation of 7,118 feet. It is expected that much of the way the cost will be in excess of $20,000 per mile. The distance from Auburn to Reno is 105 miles.

The California highway commission has directed that surveys be made and specifications drawn at once for a highway from Auburn to the Nevada line. Similar preliminaries have already been accomplished by Nevada authorities for the part of the road lying within that state.

NO REINSTATEMENT OF THE LONDON POLICE

(By Associated Press)

LONDON, Aug. 26.—Sir Neville Macready, head of the Metropolitan police, is determined that none of the constables who recently went on strike will be reinstated as long as he is at the head of the force.

More than a thousand of the men lost their places, and their pensions, when they struck, and now that the strike has failed many of them have applied for reinstatement.

Sir Neville says that every man who actually refused duty has been dismissed, and not one has been reinstated. He and the home secretary, Mr. Shortt, hold that men who strike are unfitted to be policemen.

Talk is cheap, but somehow gossip always gains currency.

Love levels all things, with the possible exception of the head.

PERSONAL

W. A. FARRIS and family returned last evening from a motor-car tour that took them back as far east as St. Louis, Mo. The first Mr. Farris heard of the strike was when he reached Reno.

JUDGE R. L. JOHNS and George A. Kernick returned last evening from the Needles district where they went to sample the Arrowhead mine.

F. J. ABBOTT, president of the Lone Mountain Divide Mining company, was a passenger yesterday for Los Angeles, going by the southern route.

CHARLES F. TAYLOR, Rube Kelly and P. Mooney have returned from examining a mining property at Randsburg, Calif.

LLOYD W. MORTON, assistant cashier of the First National bank, left last evening for San Francisco where he will join his family and return with them to Tonopah.

O. T. JOHNSON, manager of the Johnnie mine, is spending a few days in Tonopah.

GEORGE M. ROSE, local agent for the Standard Oil company, departed last evening for San Francisco where he will spend three weeks' vacation.

L. C. BRANSON motored in from Arizona this morning and expressed the intention of remaining in Tonopah.

DR. A. H. ELFTMAN left this afternoon for Omuo where he goes to complete an examination of the Olympic mine. He will continue on to San Francisco.

WOMAN STARTED THE RUSH TO BIRCH CREEK

Upon turning the new works over to Mr. Inman, Jack Cahill was heard to remark that they, meaning Mrs. Cahill and himself, were going back their property farther to the south and predicted that within a comparatively short time he would show up a mine equally as promising as the big find now the center of attention.

Jack has the right kind of help and we haven't the slightest doubt but what they will make good. We would like to devote a little space to Mrs. Cahill, who is a mild, pleasant voiced little woman, a true partner whether looking after her husband's comforts in their little home down on the flat or trudging at his side for miles in the hills.

Through the several years that they have spent in the Birch Creek district she has daily climbed with him to his place of work, where her faithful pan is never idle in their persistent search for the yellow metal.

All have marveled at Jack Cahill's enthusiasm and wonderful courage but that is better understood as we come to know more of his life partner and watchful friend; whose her thoughtfulness and never failing interest, was led one day to pan a handful of the dirt scraped from her husband's trouser pocket and which incidentally led to the Great Birch Creek discovery.

You may not be getting much of a run for your money, but how much of a run are you giving others for theirs?

This true-to-life photograph will take the conceit out of almost any man and an occasional woman.

If a girl only knew it, she'd be more successful in catching him if she'd toast him some evening in a gingham apron and ask him to wait until she finished the housework, instead of meeting him all fluffed up when he could hear her mother clattering the dishes in the kitchen.

Now if they'd only amend the constitution to prohibit forever the barter, sale, importation and exportation of idle and vicious gossip that would be prohibition that everybody except the gossips would ratify.

Also an idealist is a fellow who thinks he can get twenty miles out of a gallon.—Philadelphia North American.

HOSPITAL TO THE MEMORY OF AMERICANS

(Correspondence Associated Press)

PARIS, Sept. 27.—The memory of the American soldiers who fell at Cantigny is to be perpetuated at Mondidier by the establishment of a municipal hospital constructed from American Red Cross barracks. Over the entrance to the administration building will be an inscription reading: "Gift of the American Red Cross to the Town of Mondidier in Memory of the American Soldiers who Fell at Cantigny."

Cantigny, in the valley below Mondidier, was the first American stronghold in Picardy. In the fighting of the allied advance last summer Brig.-Gen. Robert E. Mills, commanding the 2nd brigade, marine corps, advanced farther than any other troops in Picardy.

Mondidier is located on the left side of the Paris-Amiens road. The French people are memorializing the gallant deeds of the American soldiers.

In the country surrounding Mondidier the soldiers are returning to the soil. Crops are growing where in January there were hundreds of shell holes, dugouts and trenches. Nearly half of the devastated fields in the district have been cleared. But while this has been going on the villages have in a little measure been neglected. Nearly all are, however, in being rapidly restored. Churches and schools are springing up everywhere, and in the vacant Red Cross barracks are caring for this purpose.

Despite the fact that their homes are dark cellars and dugouts, the people are cheerful and never fail to express their gratitude and appreciation for what America has done.
