REDS GRAB A FORMER GOLDFIELD MAN IN SIBERIA

Ed Charette Captured With Several Other U. S. Officers

NO CHANGE BY SENATE IN TREATY

(By Associated Press)

WASHINGTON, Jan. 26.—No change in the reservations affecting Article X of the league of nations covenant or the Monroe doctrine provision of the peace treaty will be acceptable to republicans, Senator Lodge informed Senator Hitchcock and other members of the informal democratic committee which has been conferring with the Lodge committee in an effort to reach a compromise.

FIRE AT MYRA DIVIDE SUNDAY

Fire at the Myra Divide Sunday morning at 4 o'clock destroyed the rock house of the company, making a clean sweep of the building which was without fire protection or insurance. The loss is estimated at $1,000. The company began rebuilding this morning and will rush the work to completion. In the meantime one shift will be employed.

The fire was discovered by the engineer who saw flames issuing from the roof and gave the alarm. Two men occupied rooms in the burning building. One of these, J. E. Davis, the foreman, on being awoken rushed to the rear of the house to save his payrolls and some records and sustained severe burns about the head. The other man, Mike Blunt, worked as cook and had a room in the house. He got out without difficulty. The fire is supposed to have been caused by a defective flue. It was the custom to leave a small fire burning all night and the night engineer on going off shift at 3 o'clock put on fresh coal and went to bed. It is thought that the fire came up faster than was expected with the result that the pipe became overheated and communicated to the roof. The shaft house and bunkhouses are believed to provide against a general loss in the event of fire, so the flames did not spread to the other property. Ten men working in two shifts were employed.

PEACE CAUSES SUICIDE RUSH

(By Associated Press)

NEW YORK, Jan. 26.—Since the signing of the armistice there has been a constantly increasing number of suicides everywhere, according to a report issued by the Save a Life league. The report tabulates 5,121 suicides in the United States during 1919. Of the professions, lawyers led the list with forty-three, of whom twelve were judges.

KANSAS COAL MINERS GO OUT ON STRIKE

(By Associated Press)

PITTSBURG, Kan., Jan. 26.—Four hundred Kansas miners struck today because of the passage of the industrial court bill. One mine at Franklin and one at Dunkirk are idle.

FORECAST FOR THE WEEK.

WASHINGTON, Jan. 26.—Southern Rocky Mountain and Plateau regions: Probably occasional snows or rain in north portion and generally fair weather in south; temperature nearly normal.

SOVIETS HAVE HALF BILLION IN GOLD COIN

(By Associated Press)

WASHINGTON, Jan. 26.—The Russian soviet organization has become "strong enough to rule the world," Ludwig Martens, soviet agent in the United States, told the senate investigating committee today. Because of this the soviets have ceased to arouse international revolution to support them, he said.

The Russian soviets have between $450,000,000 and $500,000,000 in the public treasury, Martens said, which it now was desired to spend in foreign countries for the purchase of necessities. There was now no gold in the hands of private banks or individuals in Russia, he added.

BELCHER GIVES THE BOYS A RUN

Belcher, which sold on the curb Sunday night for 27, began advancing this morning, going to 32, and reacted to 30 with sales of very few more shares in the first hours of trading. One element that helped disturb the market was the enormous blocks that came out on the advance, and it was freely hinted that the selling was by insiders taking advantage of the favorable reports from the mine. Four blocks of 10,000 each and one block at 14,000 was included in the selling which shook the confidence of intending buyers in the permanency of the advance. The showing on the 85 foot level has improved materially, as the crosscut last night had made 11 feet surface exposing the footwall. Four feet of the vein matter ran at the rate of $130.77 and 18 inches of blackish ore widened out to 2 feet with a slight increase in values, the face sampling $781.62, with quantities of argentite showing. The turnover of Belcher was 129,000 shares and the total transactions of the session in San Francisco was 229,000 shares. New York opened at 22 and closed at 28 for Belcher. The manipulation of the stocks here was worth marked consideration in trying for dividend and Brooklet.

ENGAGEMENT OF MISS DORLITA O'DONNELL

The engagement of Miss Dorlita O'Donnell, who spent the Christmas holidays in Tonopah as the guest of her brother, Major O'Donnell, commanding officer at Tonopah Divide, will be pleased to hear of her engagement to Mr. Gordon Day, a New York bond broker. Miss O'Donnell proved a welcome addition to Tonopah social circles on her charming personality.

UKRAINE IN NEED OF SANITARY SUPPLIES

(By Associated Press)

BASLE, Jan. 26.—The minister of labor in the Ukraine (Soviet) has cabled the supreme council of Paris asking that the Ukraine be given at least as far as relief goes drugs and sanitary material.

MIDDLEWEIGHTS TO CLASH

Tommy Gibbons, champion of San Paul, has arrived here and opened training quarters in preparation for his go with George Cuppes, the local middleweight.

War Department Stirred By An Ominous Event

Edward Charette, formerly of Goldfield, is a prisoner of war in Siberia. According to reports the situation is very grave for those who are in the clutches of the Reds since the United States has never recognized that authority and it is possible that the prisoners will be treated in summary fashion by standing them up against a wall. Charette was in Goldfield during the active years of that camp, where he was known as the founder of the Charette Drug company, which he disposed of eight years ago and removed to Visalia where he was interested in a pharmacy with his brother.

(By Associated Press)

WASHINGTON, Jan. 26.—No reports regarding the capture by bolsheviki of a group of American railway engineers and a party of American Red Cross workers at Kinchenskaya, Siberia, reported in press dispatches had been received today by the state or war departments. The records showed that Captain Charette, referred to as captured, probably was Edward Charette, pharmacist of Stockton, Calif. There was no record of Miss Ford, also reported captured. Colonel Blunt is believed by the war department to be Frank Blunt, of Illinois, a member of the Stevens railway commission.

STOCKTON, Jan. 26.—Captain Edward Charette, reported captured by bolsheviki, was a druggist here and also was employed at Visalia. Charette was a veteran of the Spanish-American war and entered the Red Cross service eighteen months ago and recently commissioned captain.

RESCUE SHIPS 30 TONS A DAY

Rescue Ridge is going along at a lively clip, shipping 180 tons a week without any signs of a letup to the production. The crosscut from the 1150 level is getting into very friendly ground and the management believes it is only a question of a short time when the output will be doubled. The values are better than $30 which is above the average of the milling ores of this district. Appearances favor a sweetening that will tickle the fancy of stockholders as the mine is on Easy street with the probability of dividends in the early future.

UNITED STATES LEADS IN OIL

(By Associated Press)

WASHINGTON, Jan. 26.—The United States has produced more than 81 per cent of the world's crude petroleum since discovery of that product and, at the latest reports, was producing more than 69 per cent of the world's annual supply, according to compilations announced today by the United States geological survey.

LIFE POLICIES FREE OF COST

Free life insurance will be added to the inducements for miners to work in partnership with the Tonopah Belmont, Tonopah Development and Tonopah Extension companies, as the company has arranged for group insurance on its employes dependent on the tenure of employment. This has nothing to do with the state industrial insurance which covers injuries or death from accident. This new plan becomes effective February 1.

In order to receive life insurance employes must be in the service 90 days when they will be covered by a $500 life policy. After four months continuous service the policy will be for $750. After six months the amount will be doubled by $1000. At the end of one year a $1,250 policy. After two years a $1,500 policy. This is the maximum.

All employes of the company will be given credit for one-half of the period of their term of service to date. If an employe has been in the service of the company eight months prior to February 1, 1920, he will be covered immediately by a $500 policy and at the expiration of two months he would be entitled to a $1,000 policy and after six months he would be entitled to a $1,250 policy.

SOCIALISTS OPPOSE BOLSHEVIK RULE

(By Associated Press)

PARIS, Jan. 26.—The Scandinavian labor congress has adopted a resolution by Hjalmar Branting, socialist leader, condemning bolshevism, according to a Copenhagen dispatch to Echo de Paris.

RESCUE SHIPS 30 TONS A DAY

(By Associated Press)

WASHINGTON, Jan. 26.—No reports regarding the capture by bolsheviki of a group of American railway engineers and a party of American Red Cross workers at Kinchenskaya, Siberia, reported in press dispatches had been received today by the state or war departments. The records showed that Captain Charette, referred to as captured, probably was Edward Charette, pharmacist of Stockton, Calif. There was no record of Miss Ford, also reported captured. Colonel Blunt is believed by the war department to be Frank Blunt, of Illinois, a member of the Stevens railway commission.

MacNAMARA MILL SHIPS BULLION

The MacNamara mill reports one of its regular ten-day shipments sent out Saturday night. This comprised seven bars of 13,300 ounces valued at $20,000. The MacNamara is running to full capacity on company and Divide ores and the value of the shipments shows the mill is treating a greater tonnage than ever before.

EAST DIVIDE IN SULPHIDES

Reports from the East Divide and Alto Divide mines where operations are being conducted from the 400 levels are of a promising character. The crosscut on the East Divide that was calculated to cut the vein that was discovered directly under the cone of the big blowout, is making good headway and should reach the vein in the near future. The vein freely exposed on the surface lies on the contact between rhyolite and Divide breccia. The crosscut penetrates the rhyolite of the narrow ridge on which the hoisting plant is located and then entered the breccia that lies between the ridge and the big blowouts. In doing this work a large blind vein showing sulphides was encountered together with several quartz stringers all showing some values. Distinct foot and hanging walls are in evidence on this vein but no lateral work has been in that direction as the aim of the management is to first reach the contact vein which is their objective.

The north crosscut in the Alto is out 145 feet on the 400 level and, during the last 20 feet sulphides have been encountered. Engineers say it should not be long now before the vein that shows to the north of the shaft on the surface should be encountered on its dip. These two companies have maintained continuous campaign of development and will continue to do so. The extensive work is beginning to show that big results in the early future would not be surprising.

NO CHANGE VENUE FOR CENTRALIA I. W. W.

(By Associated Press)

MONTESANO, Wash., Jan. 26.—Judge Wilson denied a motion of the defense for a change of venue in the case of eleven alleged Industrial Workers charged with murder as the result of the Armistice day shooting at Centralia.

DISABLED SHIP SAVED BY TUGS

(By Associated Press)

HALIFAX, Jan. 26.—The disabled army transport Powhatan, which had been adrift since Saturday, 100 miles from this port, is again in tow, according to wireless advices. Two American tugs are bringing her to port.

NEW FLU CASES ON THE DECLINE

(By Associated Press)

CHICAGO, Jan. 26.—Today's death toll from influenza-pneumonia was the highest since the epidemic began, Health Officer Robertson reported, but the total of new cases is reported to show a marked decrease.

PERSHING GOES BALLOON CAMP

(By Associated Press)

LOS ANGELES, Jan. 26.—General Pershing arrived today for a sixteen-hour visit, during which the exercise of his official duties will be interspersed with public events. The general left immediately for Rossfield, the army balloon school at Arcadia and after inspecting it returned to Los Angeles and devoted most of his day to civic functions.

INVINCIBLE GUN OF THE BRITISH

(By Associated Press)

LONDON, Jan. 26.—The British navy may soon be given a new "uncapsizeable" weapon in a large calibre shell which will pierce the heaviest armor without shattering, said Sir Robert Hadfield, managing director of the Hadfield Limited Steel manufacturers.

BRITAIN BIDS FOR LATIN TRADE

(By Associated Press)

BUENOS AIRES, Jan. 26.—The statement to Lord Ashfield, president of the British board of trade, that the British would supplant the United States in the markets she won in South America during the war have aroused considerable feeling among Americans here. They are given wide publicity by a British advertising agency.

SOVIET GOVERNMENT SHUNS THE PLAGUE

(By Associated Press)

STOCKHOLM, Jan. 26.—Members of the soviet government have left Moscow after a renewed outbreak of plague and gone to Tver, according to advices received here.

FORTY DEGREES BELOW IN EAST MAKES RECORD

(By Associated Press)

BOSTON, Jan. 26.—The mercury was forced to new official low levels by a cold wave which spread over northern New England last night. Northfield, Vt., with a reading of 50 degrees was the coldest place on the North American continent from which official reports were received. Unofficially forty degrees was reported from VanBuren, Maine, and Montpelier, Vermont.

INFLATION OF WORLD CREDITS

(By Associated Press)

NEW YORK, Jan. 26.—The world's debt is estimated by the National City bank today at $200,000,000,000 as compared with $40,000,000,000 in 1914. Paper currency throughout the world increased 600 per cent while the gold reserve behind it increased only 70 per cent.

PARTICULARS OF AUTO ACCIDENT

Particulars of the accident which caused the death of the father of Thomas M. Frazier, comptroller of the Tonopah Mining company, at Hollywood, are given in the following report from the Los Angeles Times:

"W. M. Frazier, 70 years of age, of 1811 South Hollywood, is dead. Mrs. Elizabeth H. Mason, 45 years, of the same address, is probably fatally injured. Bruce T. Mason, 14 years, her husband, and Robert Smith, a chauffeur, of 1422 South Mariposa street, were painfully injured when an automobile in which they were riding was smashed to splinters by a Pacific Electric car at 8:30 sixth street and Rancho avenue. The automobile was struck squarely in the center by the street car and hurled a distance of fifty feet. All four of the persons in the automobile were pinned beneath the wreckage.

Police officers say the chauffeur of the automobile attempted to cross in front of the car and the machine skid have slipped on the tracks.

All the injured were taken to the Receiving hospital. Frazier died there. Mrs. Mason, who with her husband was visiting the Pantages in this Wichita Kan., she was treated for a possible fracture of the skull, concussion of the brain, a broken right leg and internal injuries. Her husband and Smith were found to be suffering from concussion and lacerations about the head.

ITALIAN ANARCHIST INCITES REVOLUTION

(By Associated Press)

CONSTANCE, Switzerland, Jan. 26.—Carlo Vacchelli today at Milan, chief of the Italian Malatesta, recently released from the chamber of deputies, made a resolution which called on the people to overthrow a party of capitalists, officers, who, defending their cause, lead to the demonstration of 1919.

FIRE IN FAR NORTH BRINGS STARVATION

(By Associated Press)

NOME, Alaska, Jan. 26.—White men engaged in mining on the Kobuk, Koyukuk, Colville and Noatak have driven across the rest of the winter on account of the destruction by fire of the only supply store in that region, according to a wireless received today.

JAPS WILL SURRENDER KIAU CHOW

(By Associated Press)

TOKIO, Jan. 26.—The foreign office, in a statement, says Japan acquired the German rights in Shantung by virtue of the peace treaty but, in pursuance of its own repeated declarations, Japan instructed its minister at Peking to make overtures to the Chinese government regarding retrocession of Kiau Chow bay and for withdrawal of Japanese troops along the Shantung railway.

DIVORCE BRINGS NUDE STUDIES

LOS ANGELES, Jan. 26.—A very personal question, touching on the intimate relations of Mrs. Selma Lavington Thorkildsen and her husband, the "Boras King," a query which attorneys for the former resented as "insulting and degrading" entered into the divorce suit which started before Judge Works.

Mrs. Thorkildsen's evidence was designed to show mental cruelty and humiliation. It shed a searlight on the doings of the rich in their private homes and among privileged friends. Mr. Thorkildsen, she said, once answered the telephone in a nude state while her mother was present. He again plunged into the historic bathing pool at the beautiful Thorkildsen home at 2400 Canyon drive and when she asked him to come out he appeared entirely nude while Mrs. Ramsey, a guest, was present. These and other acts, Mrs. Thorkildsen claimed, caused her extreme humiliation.

As an offset to Mr. Thorkildsen's nature stunts, Mr. Shannon asked Mrs. Thorkildsen if she (now) appeared in scants at her home during marital bliss. She admitted she showed her kodak pictures showing herself, her mother, Mrs. Livingston and Andrew S. Gump, a ballroom dancer, standing at the barring point. She admitted she sometimes went bare foot.

Dividends paid Mr. Thorkildsen from the Boras mine related in evidence, amounting to $1,000,000, disappeared, during the examination of Mrs. Thorkildsen from a letter written by a member of her firm. The case will be continued today.

NEWSPRINT EMBARGO REMOVED BY CANADA

(By Associated Press)

OTTAWA, Ont., Jan. 26.—The embargo on the exports to the United States of newsprint from Canada has been removed. Negotiations of the settlement are announced.
