BAVARIA WANTS OLD PRIVILEGES

(Correspondence Associated Press)

BERLIN, Jan. 8.—The suggestion originating in the Prussian diet that the national government sound the governments of the federated states on the question of creating a unified German state, has aroused opposition in Bavaria and Saxony. The proposal was introduced by the coalition block of the Prussian diet.

The press dispatch from Munich says the majority of the Bavarian people are unalterably opposed to any scheme that tends to obliterate the time honored preoratives of the state.

In a general debate on the issue in the Bavarian diet the parties, with the exception of the majorities and the independents, opposed the scheme. The ultra left radicals, however, declared that they unconditionally favored it and requested the Bavarian government to direct their efforts in that direction.

The Saxony ministry president, Herr Gentmann, expressed the belief that the proposition namely to set up the plan which purposes to wipe out the political frontiers of the federated states. He said he believed that the latter original quarters were made against, partly in respect to the South German opposition to the idea, and in consideration of all authority in Berlin that some disintermediation might serve as a check to the ambitions of Berlin.

MEXICO MAKES OWN ORDNANCE

(Correspondence Associated Press)

MEXICO CITY, Jan. 11.—Mexico, which has been forced to import its artillery for years, expects soon to manufacture its own field pieces. The Mexican army engineers have perfected a formula for tempering steel for cannon and, when the installation of three electric furnaces in the national arsenal is completed, the first guns will be turned out.

AUSTRAILA BUILDS BIG IRRIGATION DAM

(Correspondence of Associated Press)

SYDNEY, Australia, Dec. 26.—One of the largest irrigation dams in the world is to be built across the Murray river, the largest in Australia. It is to be named the Hume dam and erected at Mitta Mitta on the border between Victoria and New South Wales. The irrigation scheme will benefit three states.

BANDIT LEADER SLAIN IN MEXICO

(Correspondence Associated Press)

MEXICO CITY, Jan. 11.—Despatches from Uruapan tell of the death while attacking the Tepechina ranch, of Jesus Ortiera, regarded as one of the most ruthless bandits in the Michoacan-Jalisco region. Most of Ortiera's followers, together with another rebel leader, Gordiano Gonzalez, are said to have surrendered.

An optimistic note has been sounded by Brigadier General Pablo Gonzales operating in the oil regions, who says that for more than two months owing to the vigilance of government forces, the Pelaez rebels have attacked neither oil camps nor oil company properties. He reports that the rebel chief, Pedro Meza, has surrendered together with seventy followers. He operated along the banks of the Tamuco.

FLORENCE MINE REPORT FOR 1919

The gross value of the production of the Goldfield Florence last year was $268,794.74, according to final figures for 1919 furnished by F. A. Riley, engineer for the company. The output was 146,000 tons at a gross value of $8.60. The total cost was $217,141.56. All engineers were made by leases.

More work is being done on the mine at present than at any time since the early days. The Florence Divide reduction machine is operating in charge of Peter Judy, superintendent. The Cracker Jack is working on a still larger scale and the Red Hill has started work at a number of points on the mining people.

The first shipment from the mine since the third of this month was made a few days ago to the Adams-Clayton and Metcalf lease.

It costs $3,000 to bring the electric power derived from a water fall ninety miles distant to Bombay.

Successful experiments to grow the potatoes have been conducted in Mesopotamia by Englishmen.

Wedding presents in Hungary are given only to poor couples to help them to set their home together.

According to experiments made at the Pasteur Institute in Paris, an average of about six quarts of alcohol can be obtained from each pounds of seaweed.

HIGHEST CLASS SCREEN STARS

Amusement lovers of Tonopah can look forward this year to a rare treat in motion picture offerings. Manager Jack Smith of the Butler Theatre has signed contracts for the best productions of the film world. The motion picture producers have secured the greatest stars of the screen and stage and likewise contracted with the best authors, writers, writers and directors.

Owing to the enormous expense attached to the securing of the best pictures Manager Smith has found it necessary to make a slight advance in the price of admission to the Butler. This is necessary in order to maintain the same high standard of pictures as offered in the past. Notwithstanding the advance in prices Tonopah will still have the distinction of being the lowest priced theatre catering to motion pictures in the state. Starting with next Sunday, February 1, the prices will be increased from 17 cents for 25 cents and the children's prices to 15 cents. As now, the prices include the war tax. The increase amounts to very little. Season coupons will be on sale at the box office in the Butler Saturday. The coupons will be sold from 11 cents to 15 cents. The coupons are now available of Bonna the new president of Bonna the new president of Bonna, is also selling and this time will be and coupons to the stars who will be seen in the motion pictures in the use of the theatre for next year.

Some Carbon theatres do without orders to announce electric lights in some position that they illuminate the audience on more or less as long as they are equipped.

Insurance companies in Goldfield report an October stock. There is an increase in insurance that may be made in Goldfield. The property is now more used at weddings, being considered as a white favor.
