ARENTZ LANDS SEAT ON THREE COMMITTEES

WASHINGTON, D. C., April 12.—With the convening of the special session of the 67th congress the matter of committee assignments is occupying the time of senators and representatives to the exclusion of nearly all else. Senator Oddie has again been returned to his home by illness—and it has not been learned what committees he will be on as the assignments are not given to the press until all work is finished by the committee on committees.

Congressman Arentz, after some deserved spurring, landed positions on the committees he was most interested in, namely irrigation of arid lands and mines and mining. The latter committee is an important one consisting of 14 members, and positions on it have been held almost exclusively by eastern men. Milton H. Welling of Utah was the only westerner on this committee in the sixty-sixth congress. New members rarely secure places on it. Arentz had been scheduled for Indian affairs but he protested.

"Why, there is more mining in one county of Pennsylvania than in the entire west," said Representative Mann, the Republican leader of the house, after he had declared that Arentz could not be placed on mines and mining.

"That may be true," Mr. Mann replied the Nevada congressman "but so far as I know I am the only mining engineer ever elected to congress. I know more about mining than any other one thing, and I maintain I belong on that committee." "Well, I am a new member, but I am an old miner."

After some low-spoken conferences between Mann, Mondell and other prominent Republicans, Arentz received the appointment he was after, getting from the Indian affairs committee.

Congressman Snyder of New York, chairman of the committee on Indian affairs, had particularly requested the Nevada congressman to accept a place on his committee. It is an enticing place, one involving a splendid trip of visitation to all Indian reservations in the United States at least once during each congress. Characteristically, however, Congressman Arentz chose the path of duty as he saw it.

The Nevada congressman was given a third committee assignment, somewhat to the surprise of himself and others. He was named on the committee of expenditures of the interior department, but by request he surrendered this to go on the committee of mileage, after winning his contest for mines and mining. C. R. Evans of Nevada was a member of the committee on mileage in the last congress. It is a small committee of five members, John A. Elston of California being chairman.

Ex-Congressman Evans remains at the capital, appearing almost daily at the office of Congressman Arentz. He said he may leave in a few days for an extended trip to Texas via Boston and Detroit.

TRY OUT PLAN OF 'PAY AS YOU LEAVE'

(By Associated Press)

ST. PETERSBURG, Fla., April 12.—The Municipal Railways company here began operating several suburban trolley lines April 1 on the "pay as you leave" plan in an effort to ascertain if a saving in time would not be effected at stops within the city when the cars were outbound.

Passengers on all lines heretofore have paid fares as they boarded the cars and congestion at points of departure because of fare collection has resulted in serious delays. It is the theory of officials that only a few passengers will leave the cars at each suburban station and that collection of fares as they alight will result in the runs being made on schedule. Incoming passengers continue to pay fare as they board the cars.

ABANDON TYING OF PASSENGERS IN SEATS

(By Associated Press)

ELKO, Nevada, April 12.—Passengers on the stages from Elko to Tuscarora again are making the trip without the necessity of being tied in their seats with ropes. This method of travel was enforced by the stage owners to insure safety of passengers and prevent accidents on the rough roads. Improvement of the highway has made travel less hazardous.

AMUSEMENTS

GRACE DARLING AT THE BUTLER TODAY

"Even As Eve," carries an appealing sex angle with a thrilling tale of a girl's escape from a band of fanatics, from the story of the famous author, Robert W. Chambers. It will be the attraction at the Butler today.

It is a thrilling tale of a girl reared in the wilds of the Adirondack mountains by a father who has suffered wrong from the world and would shelter his daughter by forcing her to join a furious sect which forbids marriage. How this book clashes with encroaching modern ideas of society and how Eileen escapes from her enforced exile, and wins love and life, is the thrilling story in this intensely fascinating story.

Added to the feature will be a two-reel Sunshine comedy, entitled "It's Fifty Bear" with a laugh in every foot.

Tomorrow, William Russell in "The Charm Deformed," the strange story of a living lie.

Coming "Nomads of the North," another one of the "big" pictures of the year.

RUN DOWN BY AUTO

James Trainor, the 7-year-old boy, who was accidentally run down by a Ford truck driven by John Zaak of Goldfield while playing ball in the road near the ball park last evening, is doing nicely, Dr. Cowden reports. The boy's collar bone was broken and one of his ribs fractured.

CARD PARTY AND SALE

Rebecca Circle will give a card party and needlework sale Wednesday afternoon, April 13, from 2 to 5. Admission 30c. Odd Fellows' Hall. Refreshments. A9-3t
