SILVER HILLS JAEGERS GROUP AT TULE CANYON COMMANDS ATTENTION

Great excitement prevails in Goldfield and Tonopah among mining men over the discoveries that have been made of late on the Jaegers property in Tule canyon which is owned by the Silver Hills Nevada Mines company, and the country in question is receiving much attention at the hands of prospectors, lessees and owners of locations.

On the ground being operated under lease on the Jaegers mine by Jim Putnam, ore is being sacked that carries values running around $500 a sack, and in two days 50 sacks of high-grade ore were extracted. The second class shows average assay values of $91 a ton, and it is estimated that within the next six months this leaser will net in the neighborhood of $75,000.

The ore being extracted shows liberally of hornsilver, chlorides and silver glance, and picked samples of the latter carry values running into the thousands of ounces of silver to the ton. The ore vein has a width of over two feet, and is showing at a depth of 40 feet, with every indication that it will extend upwards to near the surface. No powder to speak of is used by the leaser in breaking down the mineral by reason of the fact that about eight inches of talc is showing on the walls, which permits of the ore being pried loose with crowbars.

Six leases on the Jaegers have been granted during the past two weeks, and six men left Goldfield this morning to start development. Eight others will leave Tonopah tomorrow morning, all having become interested in leases on this property. J. M. Finley and associates control a block of ground adjoining the Putnam lease, and it is reported that a splendid showing is in evidence. Adjoining this lease Donahue and associates are prosecuting development with satisfactory results, while the surface showing along the vein for a length of 2000 feet is reported most promising.

H. C. Stimler, manager of the company, who returned from Tule canyon yesterday, stated this morning that the company mill is treating 30 tons of ore daily, and that all of the product of the mine having a value of less than $100 a ton will be treated on the ground. The high-grade ore is being sacked preparatory to being shipped to the Selby smelter. Mr. Stimler brought back with him a couple of hundred pounds of high-grade ore taken from the Putnam lease which has been placed on exhibition in the Mizpah hotel.

TONOPAH FOLKS MARRIED TODAY AT SACRAMENTO

Tonopah residents will be most agreeably surprised on learn of the marriage of Miss Evelyn, eldest daughter of Mr. and Mrs. W. H. Collins, to Lester Kervin, which took place this morning at Sacramento. News of the happy event in the lives of these two popular people was received in a message delivered to the bride's father shortly before noon.

Mr. Kervin left Tonopah about a week ago in a touring car, stopping en route to Sacramento at Lake Tahoe. Miss Collins left here yesterday morning, and so effective had the young people been about their movements that they evidently were been upon taking their friends completely by surprise.

The bride is a charming and accomplished young lady and in reality is a daughter of Tonopah, having been brought here by her parents from Austin 19 years ago. The groom is a son of Mr. and Mrs. William Kervin, and like his bride has lived in Tonopah many years. He is an efficient hoist engineer at the Halifax, and has a multitude of friends who extend to him and his helpmeet sincere congratulations upon this the most auspicious event of their lives.

Mr. and Mrs. Kervin will spend their honeymoon on the coast, returning here in about three weeks, when they will go to housekeeping.

WEEKLY WEATHER FORECAST

Pacific States: Generally fair weather with normal temperature.

COLORED MAN IS HELD UNDER BONDS OF $200

[illegible] charge of using offensive language, he was found lacking. McFadden was arrested Saturday afternoon upon a complaint of Charles Stewart, [illegible] for, and which taken before Justice [illegible] were placed at $200. [illegible] friends but no one seemed willing to go to the bondsman and as a result he was turned over to the custody of Sheriff Thomas. No date has been set as in the meantime the accused is remaining in the county bastile.

McFadden was arrested last Thanksgiving day upon a charge of assaulting Fred [illegible]. He was tried once in the justice court, but the jury disagreed, and since that time up until he was arrested he had been at liberty under $5000 bonds.

MEXICAN HELD ON ROBBERY CHARGE

Jesus Valdez, a Mexican, who recently arrived in Tonopah, is held in the county jail for police investigation. Valdez is accused by Amado Masaga of having robbed him early Sunday morning of $120 in bills. Masaga says that Valdez was assisted by a colored woman who resides in the restricted district. The man was taken into custody by Officer Turner, who found upon his person a revolver. In the event the charge of larceny cannot be substantiated, the accused man will be brought to trial on the charge of carrying concealed weapons.

HOME FROM COAST

John Williams, efficient porter at the First National Bank, returned Sunday from a visit of a month on the coast. He spent most of his time in San Francisco, but found time to visit various points of interest.

MINERS ARRESTED ON ASSAULT CHARGE

[illegible] charged with assault with a deadly weapon, were arraigned in justice court yesterday on the complaint of Frank Hill, who charges that the defendants committed a battery upon the person of Frank Hill, a miner employed by the Tonopah Extension Mining company, and [illegible] resident of Tonopah but a short time. He alleges he was assaulted by the defendants without provocation and has a number of witnesses to testify to his good character and his statements, although he was not seriously injured.

Defendants appeared before Justice Cuddy this morning but upon motion of their attorney a continuance of the case was granted until Friday afternoon at 2 o'clock when they will be called upon to plead.

Conditions in American schools are deplorable, some educators assert. We used to think so too, because they kept the schools open nine months in the year.
