FREEDOM OR WAR FOR IRISH
HUGE REDUCTION IN TAXES

NEW REVENUE ACT WILL RESULT IN BIG SAVING TO PEOPLE OF NATION

(By Associated Press)

WASHINGTON, D. C., Aug. 16.—[illegible] $790,000,000 in the [illegible] tax bill of the nation will [illegible] first changes in the 1921 [illegible] incorporated in the new [illegible] tax bill, Chairman [illegible] of the ways and means committee, announced in the majority report filed in the house today.

Disclosing as a repeal of the [illegible] and reduction of surtax rates on individual incomes [illegible] become effective until the opening year 1922, $406,000,000 of the estimated loss of revenue will not be reduced in revenue collections prior to 1922," the report said.

Actual reductions in taxes for the fiscal year 1922 are estimated approximately $200,000,000, [illegible] are $1,170,000,000 under those [illegible]. Among the [illegible] changes becoming in the calendar year 1921 were the repeal of the excess profits tax [illegible] $450,000,000, increased exemption of heads of families to $2500 for incomes [illegible] in excess of $5000, $[illegible] 000,000, repeal of all transportation taxes [illegible] January 1, $252,000,000. Estimated gains in taxes becoming in the calendar year 1921 will [illegible] $10,000,000. Total loss in revenue is placed at $965,000,000 [illegible] $177,750,000. A net decrease of $790,000,000 is anticipated in the report.

ORLEANS HORNSILVER COMPANY TAKES OVER RICH SILVER PROPERTY

All legal controversies having been eliminated that might result disastrously to the Orleans Hornsilver Mining company through the taking over of the Orleans group of claims at Hornsilver, the official transfer of the holdings was made yesterday. A. J. D'Arcy, well-known Goldfield mining engineer, who entered into an agreement with J. W. Dunfee on July 18, 1921, is now in full possession of the premises, as representative of the Orleans Hornsilver Mining company, and plans recently perfected for the inauguration of a systematic campaign of mine building thus will be carried to a successful termination.

That residents of Tonopah, Goldfield and the whole of southern Nevada may be permitted to participate in the dividends that may accrue from time to time, a special offering of 200,000 shares has been made. The money thus realized will be judiciously expended in exploiting the property.

In connection with the threatened irrigation litigation in Ferwelliger claiming an interest, that gentleman and J. W. Dunfee have ratified an agreement whereby the legal points involved will be settled individually, thus leaving the Orleans Hornsilver Mining company free to carry out its plans of development which have been outlined by Mr. D'Arcy.

J. W. Dunfee has been identified with the Orleans property since 1905, at which time he was in charge of the work being carried forward by the Champ d'Ore, a French company. Following cessation of operations, Mr. Dunfee secured a lease and bond on the property in 1915 and during his reign a production of about $[illegible] resulted. The Dunfee shaft was sunk to a depth of 585 feet, with several hundred feet of lateral work. On January 1 of this year Mr. Dunfee secured a new lease since which time he has succeeded in uncovering large and rich shoots of ore.

Through the new company an active exploration campaign is promoted by Manager D'Arcy, and the shafts, having depths of 200 and 585 feet, respectively, will be lowered, while it is also planned to build a reduction plant to treat the product of the mine on the ground, eliminating the excessive transportation costs which now approaches 50 per cent of the value of the ores.

BRITAIN CALLS TROOPS TO DUTY ON IRISH SOIL

(By Associated Press)

LONDON, Aug. 16.—All soldiers of leave from Ireland in Aldershot and Farnborough have been telegraphed to return to their regiments immediately.

(By Associated Press)

BELFAST, Aug. 16.—It is reported the military authorities in Ireland have cancelled all leaves of absence of officers and men as a precaution against surprise, and without other significance.

PALESTINE TO HAVE COMPLETE SCHOOL SYSTEM

(By Associated Press)

LONDON, Aug. 16.—So comprehensive is the education plan of the government of Palestine that, at the present rate of progress, the whole country will be provided with schools within four years, it is announced here.

Since January, 34 new village schools, providing elementary education for 1360 children, have been opened, while 46 state-aided schools provided in villages by the inhabitants have been taken over by the government. An additional 35 schools will be opened during the current financial year, it is announced.

Mrs. Oberchain's husband says he loves her still. Didn't know she ran one.

TOURIST TRAVEL IS DIVERTED BY ATROCIOUS ROAD

The towns Tonopah and Goldfield have been deprived of a great amount of tourist travel during the present summer and so wholly attributed to the deplorable condition of the highway leading from the railhead at Mina. The [illegible] Soldiers [illegible] report the fact that the attention of the commissioners of Esmeralda and Mineral counties has been called to this matter time and time again. They close their eyes to the true condition of affairs.

The recent storms have resulted in this road being made practically impassable and as a result travel is being diverted by way of Cloverdale and over Cedar summit to Silver Springs, the distance 15 miles. The travel to Tonopah and Goldfield has naturally been reduced to a minimum and the tourist now goes by way of Carson, Coaldale and Montgomery and on to Bishop. Travel from the north now goes by way of Schurz, over the Bishop road, is crooked and goes on to Coaldale and through Fish Lake valley and Oasis.

Esmeralda county has done no work on its portion of the road from the county line just below the town of Tonopah to Sportsman in two years, resting upon its laurels in the belief that it will capture the travel by diverting it through Oasis and Lida, which would mean that it come from the south. Both Tonopah and Goldfield have suffered great financial damage as a result of Esmeralda and Mineral counties not being alive to the situation and the expenditure of a few hundred dollars on the part of these counties would mean that these sections would be benefited to the extent of thousands of dollars annually. The road between Tonopah and Mina is now almost impassable and autoists are advised to take the Cloverdale road, which is signed on the Millers flat. Much of the tourist travel is now going by Cloverdale and West Gate pass via Fallon to Carson or Reno.

APPOINTMENTS TO COAST GUARD SERVICE OPEN

Congressman Arentz is desirous of having all young men in Nevada between the ages of 18 and 25 who desire to receive appointments as cadet and cadet engineer in the United States coast guard to write him at room 17b, House office building, Washington, D. C., and he will forward application blanks and full information. These examinations will be held through a competitive examination the latter part of December, 1921.

SERGEANT WINS KING'S PRIZE OF MARKSMANSHIP

(By Associated Press)

BISLEY, England, Aug. 16.—Armorer Sergeant John Cunningham, of Northumberland, has just won the king's prize of 250 pounds in the great annual marksmanship competition under the rules of the National Rifle association. The prize is won in three stages at increasing distances up to 600 yards, and carries with it the association's gold medal.

Cunningham beat the next man by one point with a total of 226, although he could hardly crawl to the [illegible] owing to rheumatism. He [illegible] with which he won he had hired at a shilling a day. He is 62 years old.

SAN FRANCISCO MEN RESUME DEVELOPMENT ON LONE MOUNTAIN

Revival of mining conditions in the Tonopah and surrounding districts has proved an incentive for a campaign of work on the property of the Tonopah Gold Hill Development company, controlling a group of 17 claims on the eastern slope of Lone Mountain, near the head of Paymaster canyon, 3½ miles distant from Tonopah.

Reorganization of the company, so far as it applies to the personnel of the board of directors, was perfected the week ago at the undertaking of the company in San Francisco and resulted in the following being elected to serve for the ensuing year: President, W. T. Morgan, expert in the management department of the San Francisco police department; vice-president, Reno Archetto, [illegible] ment merchant of the same city; secretary, John Nelson, an engineer of the Ocean Shore Railroad company; treasurer, Charles Adams, second assistant chief of the San Francisco fire department. These men, with William Shallock, druggist, and Richard Degnan, well-known caterer of the Bay city, make up the board of directors.

President W. T. Morgan, who has been identified with the San Francisco police department for the last 17 years, and who has pinned his faith to the property in question for the last 12 years, arrived in Tonopah this morning. He immediately proceeded to the seat of operations, and after making a careful examination made the announcement that an active campaign of exploration would at once be inaugurated. It [illegible] shaft No. 3 shaft, now [illegible] a [illegible] agreement [illegible] Feb. [illegible], which [illegible] to [illegible] the [illegible] system. This shaft [illegible] on this [illegible] below the [illegible] of the mountain and at a depth [illegible] feet is [illegible] of very [illegible] matter [illegible] on the footwall that is [illegible] mineralized, but which shows [illegible] of ore running as high as [illegible] a ton, the values being principally [illegible]
