Fall Hats Follow Devious Ways

THE story of the fall hat whether it prove to be interesting, not to say exciting. Its opening chapter now being written in hats for early fall is fascinating, it requires us to look certain in the realm of fabrics and textures and intriguing us by the exhaustless ingenuity of the designers. Starting with fabrics—silver tissue and shining beaver satin, velvet, with plush and plaine say the old familiar favorites that never a female can or a feathered fan have kinds or brocade and rare kinds of embroidery are lavished on these fabrics over which they are placed.

For trimmings the designer resorts to many things, beads of the finest and seed varieties and large wooden beads, metallic braids, metal ribbons, feathers, silk embroidery and stitchery. And the plume appears pure or preening on occasion in the gay and combination of all these.

As may be gathered from the hats that appear in the group above they are far from simple and are artfully made by designers. Some are more or less bonnetty fashioned, crowns are soft or at any rate soft looking even in blocked shapes. A diversion hat at the upper left of the group is good example with a narrow brim that has the effect of embroidery, making an irregular scroll over it. A pile with a dangling fringe studded with rhinestones is there in the corner at the right side. The seven center hat at the right suggests the shape of a similar shape with velvet that has rosettes of narrow dye ribbon on the top at each side. The wide brimmed Breton sailor model with smooth crown is trimmed with embroidery with beads. Beads and narrow ribbon cover the crown of the grand velvet turban, with a flower and leaf design. The tell shape with sermon which may be either worn or turned up makes a fine top against the mass of cherille that has passed as the crown.

When you come right down to reason, what is there to "discount" tires—

THE next time a friend comes to you all excited about some wonderful tire bargain—ask him how much *value* he ought to get for each dollar of tire money.

It's astonishing that any car owner today should not know all the tire service he is entitled to.

Nor how to check up between the economy of par quality on one hand—and big discounts, surplus stocks, discontinued lines and retreads on the other.

* * *

For two years U. S. Tire makers have been telling the American people all about tires.

They have laid open the tire business from every angle.

They have always led the fight for better tires.

They have consistently maintained quality *first* standards with certain economy for the tire buyer.

They have established 92 Factory Branches all over the country. Perfecting U. S. distribution so that you get a *fresh, live* tire every time you buy a U. S. Tire.

* * *

So when a man once decides on U. S. Tires he knows what he is getting in quality—service—economy.

In support of his own judgment he gets the pledged word and reputation of the largest and most successful tire concern in the world.

A sound reason for the fact that you see more U. S. Tires on more cars than ever this year.

"You get a fresh, live tire every time you buy a U. S. Tire."
