LLOYD GEORGE MAKES REPLY TO DE VALERA

(By Associated Press)

LONDON, Sept. 17.—Premier Lloyd George replying today to the communication from De Valera yesterday, says that to receive Sinn Fein delegates to the proposed conference as representatives of an independent and sovereign state would constitute formal official recognition of Ireland's severance from the king's dominions. Lloyd George says that so long as De Valera insists that the Irish delegates should confer as representatives of an independent and sovereign state a conference is impossible.

TONOPAH DIVIDE SHAFT SINKING IS PROGRESSING

The main shaft at the Tonopah Divide was lowered 21 feet during the week ending September 14, covering a period of seven days. This makes a distance of 48 feet in the two-week period since work was resumed. It is believed that even better headway will result from the time forward, as it is more than likely that progress will result at the rate of between 50 and 100 feet each month in the future, with no cessation of operations until the water level has been attained.

During the week 85 feet of underground work was performed during the seven days referred to, and it was reported today that the showing throughout the various workings of the mine was better than at any time during its history. Shipments still are going out at the rate of 50 tons daily, the ore coming from the 700 and 800 levels, while the average value of the product is in keeping with that of past weeks.

Development for the week ending September 14, as given out officially this morning by the management, is as follows:

"Drift 201 advanced 25 feet; drift 801 advanced 21 feet; raise 209 carried 15 feet, while the shaft was lowered 21 feet."
