AMUSEMENTS

DAVID BUTLER AT THE BUTLER TODAY

"Fickle Women," the new American comedy-drama with the new star, David Butler, will be shown at the Butler today. The story was adapted from the Saturday Evening Post story, "Sitting On the World," and deals with love problems of Calvin Price, a young Yankee who returns to his home town after the war only to find that someone has slandered his name, and, worst of all, stolen his girl.

Putting a smile on his face he lays out a plan of action. His home town is turned inside out before he straightens things. He is a live wire with a sense of humor, and it is said that there is a good side-splitting laugh to every one of the 5000 feet of film in which the story is told. The leading role is played by David Butler, and New York critics claim his work is one of the surprises of the season. It is one of the best comedy dramas of the season.

Added to the program is a two-reel comedy, "Red Hot Love," finishing out a laughing program from start to finish.

Tomorrow, Blanche Sweet, in one of her [illegible] "In Wrong," and Edgar Rice Burroughs' story, "The Son of Tarzan."

Monday, Seena Owen in "The Woman Who Changed."

Announcement!

NOTICE OF LOCATION LATER

WE TOLD YOU SO!

Are you going to see the oil come in before you think of owning your interest in the drill that is surely proving Nevada's biggest chance for oil?

MERGER

has everything but flowing commercial oil NOW!

If it was any any nearer production you could not buy Merger shares at any price. Merger is your company. It is drilling for you—for the man in the street. It is not a promotion scheme.

A New Field!

is the great goal. The men back of Merger are backing their judgment with their funds that the next great oil excitement will be in Fish Lake Valley. It's the greatest chance in the big west today. It's your big chance to profit—to turn your dimes into dollars.

Production!

spells millions. The smallest fields has meant that to the owners of the original drilling company. Cat Creek, Montana, put the so-called geologists to shame. They did not have a chance there they said, but they are hauling it out in trainloads today. Fish Lake has 100 times the showing Cat Creek had.

Your Chance!

is now, while you can get a share at ten cents. You can do that today, but the drill will write off that chance the minute production is sure.

This is more than an advertisement. It may be the pen that will write four figures into your bank book.

The opportunity is yours—but the closing date, remember, is ours.
