ENGINEERS ARE INCORPORATORS NEW COMPANY

The Hornsilver May Mining company, officered by Goldfield mining men, is the latest corporation to enter the new silver fields south of Goldfield some 20 miles, with a determination to explore a property that lies within 2000 feet of the holdings of the famous Orleans mine which has been proven to be of great richness down to a depth of 600 feet.

The new company is officered with W. E. S'bock, well-known mining engineer, as president; Ben Gill, secretary-treasurer, and J. R. Turner, consulting engineer. This trio comprises one of the strongest managements that could be desired and they are entering the Hornsilver district with a determination to make their company a power in mine production.

The company owns outright the Ida And Nay Election Tide mining claims and also has options on a number of other promising prospects in that district on the May and May. Five mine claims, two strong and well-defined veins; one with a very good value and the other gold, the latter having surrendered some of the richest ore that ever came from the mine of Hornsilver.

Doubt as to the permanency of the deposits of Hornsilver has been dispelled through development that has been carried forward on the Orleans property to a depth of 600 feet. The main shaft is now close to 700 feet, and it is expected to pick up the vein with the firing of any round of holes. If such does not occur at the 700 level, then cross-cutting will be started to intersect the vein.

The Hornsilver district is showing signs of undergoing a genuine mining boom and it is predicted that numerous mines will be developed within the next few months. A number of companies have entered the field with strong financial backing, and in view of the standing of the men officering the Hornsilver May Mining company, no trouble should be experienced in securing needed financial aid to insure the carrying of all proposed plans to a successful termination.

CARD OF THANKS

We desire in this way to extend our heartfelt appreciation to our friends and neighbors and all others who assisted us during the recent illness and death of our beloved wife and mother and sister, James Dumble, W. John Dumble, Edward Dumble and Mr. and Mrs. Coombs.

FRISCO CLAIM SHOWING HIGH SILVER VALUES

The mining excitement in the San Antone district continues unabated and the sensational high-grade ore that has been uncovered on both the Betts and McCarthy leases has created no end of discussion in mining circles. W. P. McCarthy and associates, holding the Frisco claim of the Hudson Mining company under bond and lease, yesterday received returns upon four samples that had been quartered, and were agreeably surprised with the following results: Sample No. 1, taken from a 16-inch streak, showed values of $8.20, sample No. 2, from 2 feet 6 inches, showed values of $21.45, sample No. 3 from 7 feet 8 inches showed values of $12.20, and sample No. 4 from 4 feet showed values of $164.50.

This ore was taken from an open cut driven on the vein and a depth of not to exceed 5 feet was attained in any particular place. Mr. McCarthy took the samples and tried to prevent "fooling" himself, being lessons in ascertaining the true metal values. Those who have examined the Frisco property state that the showing in the McCarthy workings is even better than that in the Betts shaft, considering depth that has been secured. McCarthy and associates are prosecuting active development and believe they have in the making a producer that will give a good account of itself during the coming months.

DR. BRUMFIELD IS SENTENCED TO HANG

(By Associated Press)

ROSEBURG, Ore., Oct. 21.—Sentence of death by hanging is to be imposed Saturday upon Dr. R. M. Brumfield, according to announcement by the court after the verdict had been returned at midnight on Wednesday by the jury which heard the story of the wrecked automobile and headless body of Dennis Russell.

A can of Calumet Baking Powder will make more pies, cakes, biscuits, muffins, etc. then a can of most other brands.

It lasts longer—goes farther because it contains more than the ordinary leavening strength—therefore you use less.

When a recipe calls for two teaspoons of baking powder, use two level teaspoons of Calumet, the results will always be the same—perfectly raised bakings—remember this when you buy baking powder and don't forget that Calumet is the economic buy because it goes farther.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Put this down in black and white!

IT'S A *FACT*—listen:
You know what you've always wanted a cigarette to do.
Chesterfields *do* it.
They not only please your taste but they do another thing—
They *satisfy*.
They give to your smoking a "completeness" that is altogether new and different.
Those fine tobaccos—Turkish, Burley and other choice Domestic varieties—are blended right.
Just right!
That's why you get "satisfy" in Chesterfields.
And the blend can't be copied.
There's no use looking for "satisfy" anywhere else.
Don't try it—*try* Chesterfields.
