INJUNCTION DISLIKED BY AMERICAN LEGION

NEW ORLEANS Oct. 16.—There was bitter resentment over the federal writ enjoining 47 New Orleans saloons from selling liquor during the convention voiced before the opening session of the American legion convention by George I. Berry of Tennessee, first vice commander. He declared that Americans who thought enough of their constitution to fight for it in France needed no federal injunction to make them obey the law in their own country.

WILL INCREASE MILL CAPACITY AT CANDELARIA

Crushing Plant Can Easily Take Care of 600 Tons Each Twenty-Four Hours

[illegible] of the new cyanide mill of the Candelaria Mines company is to be increased gradually from the [illegible] of 300 tons per day to 600 tons and probably to 800 tons. Equipment for the added capacity, consisting chiefly of crushers, is now available. [illegible] the management completed a plan to increase the enlargement of the plant. It was deemed better [illegible] the original equipment [illegible] to work on by [illegible] the "greenhorn" installation and [illegible] mill practice.

The construction department of the mill is designed to handle more than the proposed 600 tons in 24 hours by the extra crushers and [illegible] a crushing capacity of [illegible] in eight hours. The last addition beyond the [illegible] now contemplated can be made at little cost and will improve the efficiency of the plant. The process employed is a safe and [illegible] and [illegible] milling plant will be [illegible] those of the [illegible] in semi-peonal [illegible].

Superintendent F. A. Henske has authorized the statement that the initial performance of the crushing plant indicates that it will exceed all earlier estimates of capacity and that it is delivering an excellent product for the ball mills. The first bullion has been made on ore from various parts of the property including [illegible] stope fills from points above the level of the main drainage tunnel. A large tonnage of this material is available, assaying from 12 to [illegible] and can be handled at exceedingly low cost.

The new mining level on the Nevada Hills shaft has been delivered at the mine and is being installed. The collar of the shaft is approximately at the same elevation as the main tunnel about 1200 feet to the south and the electrically propelled ore trains will deliver ore to the mouth of the tunnel from both ore pockets in the tunnel and the loading bins at the shaft. The shaft workings will supply ore from the levels below the haulage tunnel, which is at the eleventh mine level, the shaft extending to the nineteenth level and connecting by a winze with the twenty-third level.

The ceremony was performed at the home of the groom's mother on Prospect street in the presence of only the immediate relatives of the contracting parties, the Rev. Frank Mandelson of the Presbyterian church officiating. The contracting parties were attended by Mr. and Mrs. J. J. Hemmes, the latter being a sister of the bride. Following the ceremony those present sat down to a sumptuous wedding dinner, and during the evening a number of friends called to extend congratulations. The groom has been employed by the J. W. Stewart agency for the last three years and is a man of the highest integrity. The bride came here a few months ago from Thorne, where her mother resides, and has since been employed at the Fallon store as a clerk.

THRILLING ZANE GREY STORY TODAY

"The Man of the Forest," which has been made into a picture from Zane Grey's most interesting novel, will be the special attraction at the Butler today.

It is a picture for the whole family, adults and children alike, for it is as clean and wholesome a picture as ever was made. Full of action and thrills there runs through it all a sweet and tender love story that holds attention.
