MARKET NOTES.

Stocks and Bonds.

New York.—Canadian Pacific and St. Paul, with advances of two points, respectively, were the prominent features in the strong opening of the stock market.

Minor specialties continued to figure to a disproportionate extent in the limited dealings. American Car and Pittsburg Coal improved and Colorado Fuel 1½.

Standard stocks went higher, particularly Reading and Steel. Beet Sugar was unusually active at a 2½ point advance. Wonish preferred advanced 1½c.

Close strong. Tobaccos reacted. American Tobacco falling under closing figures.

Money and Paper.

New York.—Prime mercantile paper, 5@6½. Sterling exchange steady, with actual business in bankers' bills at 4.84@50 for 60 day bills and at 4.87@50 for demand.

Commercial bills, 4.83¾.
Bar silver, 61¾.
Mexican dollars, 48¾.

Government bonds firm; railroad bonds irregular. Money on call steady at 2@2½; ruling rate, 2½; closing bid, 2½; offered, 3.

Time loans stronger; 60 days, 3¾@4; 90 days, 4¼@4½; six months, 4¾@5.

Livestock.

Fort Worth.—Cattle receipts 3000 head; market steady; top on steers, $4.65.

Calves—Receipts 1000; market strong to 25c higher; top $7.00.

Hogs—Receipts 75; market nominal.

Sheep—Receipts 600 head; market strong; lambs, $6.75.

Oklahoma City.—Cattle receipts 1250 head of cattle and calves; market was steady; top steers, $5.30; stockers, top, $5.20.

Kansas City.—Cattle receipts 14,000, including 1300 Southerns; market was steady to 10c lower. Native steers, $6.50@$10.50; calves, $4.50@$8.25.

Hogs—Receipts 6500; market strong. Bulk of sales, $8.55@$8.75.

Sheep—Receipts 9000; market steady. Mutton, $3.50@$4.25; lambs, $6.60@$7.60.

Chicago.—Cattle receipts 4500; market slow and generally steady. Beeves, $5.45@$10.60; calves, $6.50@$10.00.

Hogs—Receipts 10,000; market was strong.

Sheep—Receipts 30,000; market was strong for sheep and lambs. Native, $3.25@$4.40.

St. Louis.—Cattle receipts 5000, including 2500 Texans; market steady; native beef steers, $6.50@$10.50. Calves in carloads, $5.50@$8.80.

Hogs—Receipts 5,000; market steady. Pigs and lights, $6.50@$8.95.

Sheep—Receipts 4500; market steady. Native mutton, $2.75@$5.00; lambs, $5.50@$7.60.

The consumer is beginning to balk at the high meat prices and is satisfying his hunger with rice and the cheaper commodities. "Higher prices than ever before known are now being asked for beefsteak, caused by the recent record average cost of steers, and this has served to break the demand and route the bullish enthusiasm from the steer trade," says the Chicago Drovers' Journal. "The consumer is carrying a grouch against the increasing beef cost and this attitude cannot be justly criticised, since beef cost has gone by a point far above all expectancy and the break in the demand for cattle locking the choicest quality is only a natural consequence of this."

Grain.

Chicago, Ill.—Wheat prices today showed a tendency to sag, owing to absence of expected frosts in Canada. The market opened ¼ to ⅜ to ½ lower. September started at 94⅝c, a loss of ¼, and declined to 93¾c.

Corn rose on account of stocks in public elevators here becoming exhausted. September opened ⅛ to ¼ up at 72⅛@72¼c and advanced to 72¾.

Liberal sales by commission houses had a weakening effect on oats. September started ⅛ to ¼ off at 32@32⅛, but reacted to 32.

Offerings of provisions were light and prices recovered from an early drop. First transactions were unchanged to 5 lower with January at $19.15 for pork, $10.27½ for lard and $10.17½ for ribs.

Chicago.—Quotations were as follows:

Cash wheat—No. 2 red, $1.05@$1.06; No. 2 hard, 95@96½c.

Corn—No. 2, 72⅝@73½c; No. 2 white, 81@81½c.

The cotton market is still on the down grade. It is predicted that the 10c level will be reached by the end of this week.

Sales of manufactured goods are slow and cotton is not in much demand.

Until the rush of cotton from North and Central Texas is somewhat checked, there is very little likelihood of the price advancing.

Lockhart.—Eight thousand bales of cotton have been received here to date. Pickers are scarce and raising in price daily.

Galveston county's first bale of this year's cotton was brought in on Monday by Gus Mikes, a negro farmer who lives near Hitchcock. It was sold at public auction by John Capien of Alta Loma and was bought by F. O. Poole for 15 cents a pound, with a premium of $50.

Austin.—E. B. McNordle, sheriff of Coryell county, and George Miller, a leading resident of that county, are here on business. Sheriff McNordle says that a bumper grain crop will be raised this year in his county, but that the cotton crop is not up to the standard.

San Angelo.—Nearly an even hundred cotton pickers have been shipped from San Angelo to East Texas points in the past several days. Agents for planters have been here urging laborers to go to other points to pick cotton.

On account of the increase in price at primary markets, lemons have advanced from $5.75 to $6.00, and it is possible another increase may occur ere long.

Malaga grapes from California are off 25c per crate from previous quotations.

The Dessel-Boettcher Company will unload today a carload of mixed vegetables, consisting of snap beans, beets, turnips, carrots, green onions, radishes, head lettuce, celery, cabbage, cucumbers, rhubarb and cauliflower. Also a car of California potatoes.

The provision market is very strong and indications point to further advance over the present new quotations, which are: Hams, 19c per lb; breakfast bacon, 17@27c per lb, and bacon bellies, 15½c per lb.

The butter and cheese market is stationary, with every indication of a further advance at an early date.

A large fruit crop is in prospect this year for Idaho. A few years ago no fruit was grown in that State. Now, as the result of irrigation, it bids fair to soon rival Oregon in the production of apples and is also coming to the front with peaches, pears and other deciduous fruits. Estimates place the shipment of cherries from Lewiston, Clarkston and Snake River this year at approximately 35,000 boxes. The fruit crops in other sections are to be of the "bumper" variety. In Western Arkansas and Eastern Oklahoma is expected to tax the capacity of the railroads; 5701 carloads of peaches are anticipated from these sections and 4000 carloads of apples from Northwestern Arkansas.

The New Jersey cranberry crop will be 40,000 barrels, compared with 35,000 barrels last season, according to reports.

At the last auction sale in New York Verdelli lemons sold at $3.75 to $6.25 a box. The market there is reported to be very strong.

The probable cranberry crop in Louisiana is placed at 135,000 barrels, compared with 142,000 barrels last year. The shortage is due to poor weather this season.

Selling prices f. o. b. coast on 1912 pack sockeye salmon are announced on the same basis as last year, namely, $2 on No. 1 Cove, $1.95 on No. 1 talls and $1.80 on half pound cans.

A Chicago advice says that most of the pickle manufacturers have withdrawn from the market temporarily. Sales of medium 1300 count are being made at $6.00 a barrel f. o. b. factory.

The New York Journal of Commerce says that the Georgia peach crop, according to latest estimates is expected to yield about 5,000 cars and, with a continuously favorable shipping season will give the growers direct about $1,500,000. The movement is now well under way. Weather conditions have been fine and peaches are carrying well. Georgia growers have gone to great expense this season in getting the best of pickers and packers from Florida in order that the pick and pack might be of the highest quality. The earnest wholesale price level in New York and other leading markets are on a low basis for this stage of the season for a high quality of fruit; it is therefore expected that the moderate prices will insure a large and continuous demand.

DONT NEGLECT CATARRH

Even in its early stages Catarrh is a most distressing complaint known by its symptoms of stuffy feeling in the head and nose, roaring in the ears, mucus in the throat, difficult breathing, etc. When the blood becomes thoroughly polluted with catarrhal matter the inflammation extends to the bronchial tubes, causing hoarseness and often an agonizing cough; the stomach is affected, resulting in dyspepsia, loss of appetite, and finally all the mucous membranes of the body become diseased. Catarrh is a disease of the blood and must be treated constitutionally to be cured. It is beyond the reach of local treatment.
