The new night-boat train between Chicago and San Francisco was put into operation yesterday. This is one hour faster than the train now running between Chicago and the Western coast. The entire line is being double-tracked. Railroad men declare that it will mean a great deal to Eastern men, but especially suburbs in the service can now go to principal seaside resorts.

The Western Maryland reaches its Pittsburgh terminal today.

Canadian companies are being called upon today to justify the freight rates which have been declared discriminatory by the government.

NO! NO! SHE DIDN'T WEAR IT.

FORT WORTH, Texas, Oct. 2.—A pale girl, fair and the smallest other here you ever laid your eyes on. My, but it's too-o-o-o-ful," exclaimed a pretty young girl student at the Texas Christian university, as she entered her room in the girls' hall, after a shopping tour in Fort Worth. She dropped the wonderful package on the table and proceeded to remove her gloves, while her friends gazed breathlessly to behold that which they had been warned would "hurt their eyes."

"Oh, it's great, girls, and I am going to wear it tonight," went on the young woman as she untied the bundle. After she had removed the inside of wrapping, paper and twine she stepped and held dangling before the astonished eyes of the girls a pair of corsets.

The young women had forgotten that in her trip she stopped in at the Worth hotel, where she had exchanged pickles. She had little time in returning to the city, where she again recovered her tailored suit dress, and replaced to the waiting traveling man his squashy crossed Monroe.

Total port receipts 18,619 bales, against 11,246 this time last year.

Ginners' Report.

SAN ANTONIO, Tenn., Oct. 2.—The ginners' report was published at 3 p. m. this morning and the amount of cotton ginned to September 26, as reported by the various gins throughout the country, was 725,926 bales, against 771,413 bales last year. An additional report from the ginners was received covering the period to September 25 and the following figures were given out: 2,615,835 bales against 2,662,094 last year.

Corpus Christi Cotton.

The total cotton ginned up to yesterday by the Corpus Christi gins was 2957 bales, divided as follows:

		*Ginned Yesterday
Cudwell Gin	1[illegible]6	16
Harrison Gin	7[illegible]1	32
Trott Gin	1564	8
Totals	2957	47

The farmers of Harrison county are not needing cotton pickers and unless they get plenty of hands and get their cotton out while the weather is favorable they will lose a lot of cotton, for it is almost all open throughout the county.

Cotton is being gathered at a very rapid rate in the Kosse section, but there is still a big demand for hands. The crop is practically all open and the weather being fine everyone is anxious to complete picking before it rains. Of three gins, one has closed down for lack of water, another is trying to run by hauling water, while the other has a supply to last ten days or two weeks, after which it is thought that the bulk of the crop will be in.

Produce.

The first apple selling season of the Hood River, Ore., district have reached an agreement to hold in storage the entire Spitzenberg variety, amounting to 175,000 boxes, until market conditions are more favorable.

A letter from Seattle states that fully 200,000 cases of canned salmon have been taken off the market. Packers are holding for higher prices. The pack of pinks is said to be 1,000,000 cases less than last year.

Wholesale grocers are much concerned over the poor prospects for filling canning contracts with retailers in fine grades of 1912 pack peas. In a good many cases they are said to be substituting No. 2s for No. 1s in Alaska grades.

Butter prices have again advanced and still higher prices are looked for. It is with difficulty dealers are able to keep up a hand-to-mouth supply as fresh cream. Towns in which are located good creameries are importing butter.

The San Antonio Light says: The cotton crop in San Antonio's trade territory is pretty well harvested now and the vast number of cotton pickers that have been on the farms for the past few weeks consuming meat, butter, poultry and general farm products are moving into East Texas and the supply of country produce that virtually poured coming marketward is beginning to come again. The produce markets this morning were well supplied with all kinds of poultry, eggs, butter etc. The quality shown in the egg supply was the best of the season, reflecting the benefits of the cooler weather. The change in the weather has boosted eggs to 22 cents per dozen. Creamery butter has advanced to 38 cents a pound and selling by retailers at 40 cents. Hens are quoted at $3.50 to $3.75 per dozen for good sizes, with frying sizes from $3.00 to $3.25. There is a ready demand for everything that the dealers can get from the farmers. The amount of fresh eggs being offered is not sufficient for the demand and the stocks in the cold storages are being drawn upon quite liberally.

Lard and bacon are both on the upgrade. Changes of quotations on these commodities will be found in today's issue.

Grain.

Chicago—The Dallas situation has strengthened wheat, opened 1@1½c higher. December started at 90¾ to 91⅛@90⅝c, a gain of ⅝@⅞c to ⅞ and rose to 91⅝c.

Corn followed wheat. December opened ⅛ to ¼c dearer at 51⅝@51⅞c, reacted to 51⅝c and rallied to 52⅛c.

Demand steadied oats. December started at 31⅛@31⅜c and seemed inclined to hold within those limits.

Provisions advanced with hogs. Final sales varied from a shade off to a gain of ten cents. January pork went at $16.30, lard at $10.57½ and ribs at $9.87½.

Despite profit taking, wheat hardened still further. Lack of export demand, however, brought about a setback.

Closed steady with December ⅛ to ¼ net higher at 90¾c.

After an additional upturn corn fell back when wheat wavered. Closed easy, ⅛ to ¼ net lower for December at 52⅝@52¾c.

Oklahoma City.

Oklahoma City—Cattle receipts 1450; market steady. Steers, $5.10@8.40; cows and heifers, $4.00@5.00; calves, $4.00@7.50.

Hogs—Receipts 789. Market steady to strong. Bulk of sales, $8.15@8.25.

Stocks and Bonds.

New York—Prices tumbled sharply downward at the opening of yesterday's stock market, losses embracing practically all of the active list. Canadian Pacific declined 1½. Northern Pacific and the Harriman issues material fractions. Steel opened with a block of 6000 shares at maximum loss of almost a point. Coalers and the copper stocks were similarly weak.

Increased depression in London and the decision of the treasury department not to facilitate the movement of crops by deposits in national banks impelled further liquidation in the stock market today. Opening quotations were generally lower, in some instances extending to a point or over, with heavy losses greatest in Canadian Pacific and Northern Pacific. Steel, too, was pressed for sale in round amounts. From this there was some recovery, all of which was lost before noon, however, when call money rose to 7 per cent.

Bonds easy.

Liquidation ran its course soon after the opening and prices made some recovery. Several specialties were exceptionally active and strong.

The close was irregular.

WHAT S.S.S. STANDS FOR

The familiar letters, S. S. S., stand for Swift's Sure Specific, a name honestly and fairly earned by a great blood remedy. It is worthy of its title because it really CURES every ailment resulting from impure blood. The majority of physical afflictions are caused by bad blood, because a weak, polluted circulation deprives the system of its necessary strength and disease-resisting powers. S. S. S. cures every disorder which comes from weak or diseased blood, it tones up and regulates every portion of the system, and creates an abundant supply of nourishing properties which fill the circulation and bring health to the body. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, which are also possessed of great tonic properties. It does not contain a particle of mineral or other harmful drug, and is therefore the purest and safest blood medicine for young or old. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Eczema and all other troubles of a deranged circulation. Write for the book on [illegible] and any medical advice.
