GALVESTON STEAMER LANDS ARMS TAMPICO

Constitutionalists Receive Large Shipment of Ammunitions From America is Latest Report.

NO INTERFERENCE BY EITHER SIDE

PRESENCE OF MERCHANT VESSEL OFF TAMPICO HAD BEEN KNOWN FOR SEVERAL DAYS TO THE UNITED STATES.

HUERTA MAY TRY BLOCKADE

Much Speculation is Current in Washington, Although No Official Comment Has Been Made, On What Might Happen in Such a Case.

(By Associated Press.)

WASHINGTON, D. C., June 5.—No official comment has been made on the report reaching here today that the American steamer Sunshine from Galveston, has landed ammunition at Tampico, for the constitutionalists without the interference of the United States of America.

It was learned that the Sunshine's presence off Tampico had been known for several days to the United States and its landing without interference was regarded with significance.

There is [illegible] speculation as to what might happen in Huerta's port in case the Federal steamer Antilla now on the way to Tampico bearing arms, for the Federals, should be fired on by the insurgents. Inasmuch as that the United States has announced position with regard to Tampico as an open port, Diplomats believe that should the United States navy be ordered to prevent the firing on the Antilla, it would be a most unneutral act.

"Other purposes have used the force and wealth they have piled up for the aggrandisement of themselves, and the oppression of mankind. America will follow them to disaster, if it follows the beaten path of history. We must strike out on new paths," the President said.

He referred to the Army and Navy as instruments of civilization and not aggression, and after the speech he was loudly cheered. President Wilson delivered the diplomas to the graduating class of the academy today.
