CHILD STRUCK BY AN AUTO

Slow Pace at Which Auto Was Being Driven Probably Saved the Child.

Despite the fact that the car driven by Mrs. H. W. Schaefer of this city was traveling at exceptionally slow speed and was absolutely under control of the driver, saved the little 7 year old son of Dr. H. H. Giles from serious injury as a result of a collision between the car and the bicycle ridden by the child near the corner of Twiggs and Chaparral street just before eight o'clock Monday morning.

The automobile, according to eye-witnesses of the accident, was traveling slower than miles an hour Northbound along the car tracks on Chaparral street. The boy was riding near the curb in the same direction. At a point in front of the Masonic Temple some distance beyond the corner, the automobile turned from the track to avoid a collision with an approaching street car. The boy simultaneously turned Southward as if to gain the other side of the street returning to his home which is at the corner just passed and was struck broadside by the machine, which bowled him over away from its wheels. The machine was stopped well within a length and the shock frightened and shaken up child was taken to his home across the street.

There his condition was found to be not serious, though being bruised about the head and scratched. Dr. Giles, the father, and other physicians examined the child and found no indications of internal or otherwise serious hurt. The wheels of the car did not touch him and most of the injury sustained, it is thought, was from the fall.

BACK FROM LAREDO

Corpus Christi Man Visited Scene of Battle Between Villistas and Carranzistas.

W. P. Givens, president of the Givens Furniture Company of this city, has returned from a visit in Laredo and tells of a unique and most effective mode of human destruction used by the Carranzistas protecting Nuevo Laredo against the Villistas.

During the maneuvers before the city last week in which many Villistas were killed, the Carranzista troopers, according to Mr. Givens, mounted a couple of machine guns behind the metal sides of steel freight cars and concealed themselves well below the top edges as the cars were hauled immediately out from the city through the lines of Villa outposts.

Seeing what they thought to be an unprotected train, which they could very slowly jail to use, these Villistas swarmed around it greedily. With a swift jerk of the levers down came the sides exposing the deadly guns that with one broad sweep literally mowed them down by the hundreds. The train pulled back to Nuevo Laredo leaving the entire expanse on either side of the track covered with mutilated dead.

Hundreds were killed in this way, the dead being piled in heaps along the right of way of the railroad, according to visitors to the scene after the battle.

BAPTIST REVIVAL STARTS

Reverend E. H. Tirey of Teague will preach tonight at the revival services being conducted at the Park Avenue Baptist church. He is prominent in church work throughout the state and will preach again during the services which are expected to last through the week.

Reverend D. B. South, who is conducting the services, announced yesterday that four additions to the church had been recorded during the services Sunday.

A general invitation is extended to all the services.

SUCCESS OF TRADE EXCURSION ON MAY 4-5 IS ASSURED

FORTY-ONE FIRMS AND INDIVIDUALS HAVE SIGNED TO MAKE THE TRIP.

Others Who Expect to Make the Trip are Requested to Notify Commercial Club at Once.

The trade trip that is to be made on May 4 and 5, aboard a special train over the lines of the Link and Rap railroads, to Corpus Christi business men, promises to be a great success. Up to last night a committee composed of Frank C. Allen, C. B. Woodul, Harry M. Baker and Secretary Ferris, representing the Commercial Club, had secured the signatures of forty one firms and individuals who will be represented on the trip.

The expenses of each person will be $10 this paying for the chartering of the special train and paying the expenses of the Corpus Christi Marine Band of sixteen pieces that will be taken along to furnish the music.

In order that funds may be immediately available for paying for the special train the Commercial Club is receiving from each of those who are signing for the trip their check for $10. Under this plan there will be no last minute "messes."

Those firms and individuals who expect to make the trip and who thus far have not signed up are requested to at once notify Secretary Ferris or Mr. Allen, the latter being chairman for the trip.

Those yesterday signing up were:
Joe J. Nix of Nueces Hotel.
W. P. Dearson.
H. S. Kirk.
S. G. Patterson.
Smith and Company.
Model Shoe Store.
F. C. Cook and Brownson Co.
J. Dorenfeld, Jr.
W. H. Hall.

It is expected to have fully seventy five business men make the trip, the number being supplemented by the 15 members of the band. The train will leave Corpus Christi from the Link station on the morning of May 4 at 7:30 o'clock and reaching San Antonio by 1:30 o'clock that afternoon. The second day will be spent in visiting towns of the Rap between Kenedy and Corpus Christi, including stops at Aransas Pass and Rockport.

VIOLA FAST BECOMING A GREAT SHIPPING POINT

Fifty Cars of Onions and Cukes Will be Shipped From New Link Railroad Town.

Viola, the new town 9 miles west of the city that sprang up with the advent of the San Antonio, Uvalde and Gulf Railroad into Corpus Christi, is busy place just now.

No less than fifty cars of onions and cucumbers grown in the section immediately adjoining the town will be loaded at the platforms there for shipment within the next sixty days according to officials of the road.

There are at present between five and ten miles of cast iron pipe which will be used in the waterworks construction being unloaded daily and the county will build a road connecting this shipping point with the Shell road to accelerate the movement of truck as well as other consignments through the town.

SNAP BEANS ON MARKET

Shipments From Here by Express Will Start This Morning.

The movement of snap beans of the Corpus Christi crop will begin with a rush this morning when it is expected several shipments by express will be made. The beans will bring fancy prices, according to the statements of local produce merchants.

Onions are daily moving Eastward from here, the shipments averaging one car per day during the latter part of last week and yesterday.

Cucumbers are expected on the local market about the tenth of May. Cabbage prices now are somewhat lower, the market being rather crowded and heavy shipments from all points being noted during the last few days.

WANTED—Position by man and wife as cook and yard man. In or out of town. Phone 801. 110 Twiggs st. 681

Richard King, Jr., expects to leave this morning for San Antonio for a several days' stay.

COUNCIL TO ASK FOR PAVING BIDS SORTLY

Now Assured That Media, Winnebago and North Carrizo Streets Will Not be Paved.

Media, Winnebago and North Carrizo streets will not be paved. Mayor Miller yesterday stated to a Caller reporter that the council had practically decided not to pave the three streets at the present time, from proceeds of $190,000 paving bonds recently voted and later approved by the attorney general.

The city has recently completed the improvement of portions of Media, Winnebago and Carrizo streets with Mathis adobe and the improvement has been such a success that the council deems it unwise to place a more permanent pavement on the street at the present time, especially in view of the fact that a number of the owners of abutting property have asked that the streets be not paved.

The city engineer's office is now compiling the data that is necessary before bids can be secured for the paving of Staples, North Broadway and other streets that the council has definitely decided to pave. Mayor Miller yesterday expressed the view that by May 1 the council will be ready to advertise for paving bids.

J. H. Littlejohn, representative in South Texas for the South Texas for the Texas Illuminating Company is in the city conferring with Superintendent John Allen who has been in charge of the half million dollar paving contract that has just been completed for the city by his company.

BOAT JAPONICA WILL OPERATE DAILY SCHEDULE

Japonica and Gypsy Will Both be in Local Service During Summer Months.

That ample boat facilities for transporting passengers between Corpus Christi and Port Aransas and Rockport during the summer months will be available, was emphasized yesterday morning when Captain Armstrong of the Gipsy advised that effective not later than May 15 the Gipsy will be placed in regular daily service between Corpus Christi and Port Aransas with frequent side trips to Rockport.

Capt. Armstrong also announces that not later than June 15 the steam yacht Japonica, which is now in the Guadalupe river, near Victoria will be brought here and placed in service between Corpus Christi and Port Aransas. The Japonica is well known in local waters having been engaged in passenger service locally for the past three or four summers.

Announcement was also made yesterday that the Gipsy on Wednesday will operate an excursion to Rockport, the yacht to leave the Pavilion wharf at 7:30 o'clock and to reach here on the return trip not later than 4 o'clock. This will allow a three hours' stay at Rockport and a short stop at Port Aransas.

CARBOLIC ACID CAUSED DEATH MRS. S. J. DICKSON

Woman Forty-Five Years of Age Drank Deadly Poison From Saucer by Mistake.

Mistaking deadly carbolic acid for coffee and drinking the liquid from a saucer found on the dining table, Mrs. Susan J. Dickson, housekeeper on the J. W. Mussett farm about a mile and a half from the city, yesterday morning at eight o'clock was poisoned and died despite all efforts of the attending physicians. She was about 45 years old.

Her son Clyde, who was attending Bay View College at Portland, was summoned at once, but arrived too late, the mother having died 50 minutes after the accident. The father died here about two years ago.

The body was taken in charge by the Scott-Allen Undertaken Company and prepared for burial which occurred yesterday afternoon in the Rose Hill Cemetery. Funeral services were held by the Ladies of the Maccabees of which order she was a member.

WHOOPING COUGH

Well everyone knows the effect of Pine Forests on Coughs. Dr. Bell's Pine-Tar-Honey is a remedy which brings quick relief for Whooping Cough, loosens the mucous, soothes the lining of the throat and lungs and makes the coughing spells less severe. A family of growing children should not be without it. Keep it handy for all Coughs and Colds. 25c at your Druggist.—Advertisement.

TRUSTEE APPLEBY ENTHUSED OVER BISHOP COUNTRY

DOES NOT BELIEVE BISHOP ESTATE WILL BE THROWN INTO BANKRUPTCY.

Prospectors From the North are Buying Bishop Farm Lands—Crop Conditions Excellent.

L. E. Appleby, trustee of the Bishop estate was in the city yesterday afternoon on business. He is very optimistic with the outcome of the Bishop assignment.

"Conditions at Bishop were never better" stated Mr. Appleby. "My northern agents will be in Bishop next Thursday with from ten to fifteen prospective buyers. A strong sales force is being organized in the north, and the outlook is indeed bright for an early disposition of sufficient properties in the estate to retire matured claims.

"Our crops are in splendid condition. Cotton is being chopped and corn is over a foot high. Indications are that we will produce a tremendous feed crop and equally as much cotton as we did last year, around 7500 bales, although the average is considerably decreased. Advices from cotton centers lead us to believe that this staple will bring from 12 to 13 cents this season, being a sure forerunner of prosperity for Nueces county.

"What effect will the bankruptcy petition filed here in the United States Court Saturday have on the administration of the estate?" Mr. Appleby was asked.

"None whatever," he promptly replied. "The prevailing sentiment among practically all creditors is that bankruptcy would be disastrous to the Bishop country, and especially to unsecured creditors, and nearly every one of them will strongly resist the action contemplated.

"My lawyers now have the matter under consideration and when the proper time comes you may rest assured the interests of consenting creditors will be amply protected.

"Unsecured creditors holding claims amounting to approximately $75,000 have already accepted the assignment as being the only manner in which the estate can be satisfactorily wound up. This is pretty good evidence of the sentiment of the public when it is considered there are only about $85,000 unsecured claims against the estate."

GIPSY ARRIVED AT RIGHT TIME FOR YACHT DOLPHIN

Aransas Pass Yacht Sprang Leak While en Route From Corpus Christi to Aransas Pass.

Thrills comparable to those felt by the victims of the Titanic just before she sank in mid-ocean, were given passengers on board the yacht Dolphin of Aransas Pass Sunday afternoon when she sprang leaks while in the middle of Corpus Christi Bay en route from Corpus Christi to Aransas Pass after her maiden voyage to this city, and threatened to carry to watery graves the entire passenger list of fourteen and the crew of three.

The Dolphin had left this city about two thirty and was far from either shore when the leaks were found. Despite all efforts the water rose above the battery coils killing the engines and throwing the boat into the grip of the waves which were in unusual fury and adding the terrors of seasickness thereby to the already trying condition of mind of the passengers.

In terror of the threatened fate the men on board doffed their shirts to wave signals of distress which after what seemed an age of waiting the Gipsy, plying toward this city from Port Aransas, sighted.

Passengers on board the Gipsy say the first intimation they had of the trouble aboard the Dolphin was her peculiar rolling at the mercy of the waves, which was noted and heeded long before the S. O. S.

The sinking ship was taken in tow after all her passengers were transferred to the deck of the Gipsy and while the Dolphin crew manned the pumps the return to Corpus Christi and safety was made.

The leaking ship was pulled to shallow water where her bottom was plastered with boarding to stay the water in lieu of proper repairs and yesterday morning was towed to Hog Island to dry dock.

FIRST AID TO THE KIDNEYS—
Unless you are a physician or a druggist you have no idea how much kidney trouble there is.
Kidney people suffer most, because they have neglected themselves most.
The time to treat kidney trouble is when it is first suspected, thus preventing it, usually, from growing more serious.
The best "first aid to the kidneys" is
Penslar Buchu and Palmetto Comp.
which contains Buchu, Saw Palmetto, Corn Silk, Couch Grass, Uva Ursi and Potassium acetate.
A fifty cent bottle will show its value, but a dollar size is more economical.
