A UNIVERSITY MAN

or a university woman is the person who is chosen for the high salaried position today.

There are many deserving and ambitious young men and young women in South Texas this year who would like to enter some University or College this fall, but who cannot afford to pay out the $400.00 that a nine months' course would cost.

I can give a score of such persons an opportunity to earn such a course by working a few weeks for me. The work is pleasant, and can be completed before the opening of the fall term of school.

Only one person in a community will be chosen, and the first to come will be the first served.

E. J. Mathews, Registrar of the University of Texas has indorsed my plan, and declares that it is very liberal.
