HUNDREDS ENROLLING FOR MONTH'S COURSE ON U. S. WARSHIPS

CITIZEN-SAILORS WILL BE GIVEN TRAINING IN DUTIES OF JACK TAR.

WORK WILL BE HARD

WASHINGTON, July 26.—Enrollment of civilians for the forthcoming cruise on United States warships is proceeding with indications that the experiment is popular, and there is no doubt that the full quota of two thousand citizen sailors, ranging all the way from 19 to 45 years of age, will be ready to carry their dunnage bags aboard the practice fleet on August 15. The men will board the ships at the ports nearest their home, and in the months duration of the cruise will be given experience in almost every form of naval life from swabbing decks to firing big guns. The enrollment thus far shows men of all trades and professions more prominent and wealthy, who are enthusiastic over this new plan of naval preparedness. Assistant Secretary Roosevelt, of the Navy Department, expects to spend at least some of the month as one of the citizen-blue jackets.

Rear Admiral J. M. Helm, who is at present in charge of the naval militia cruise, will be commander-in-chief of the civilian cruise also, and will use the same warships. The vessels and the ports from which they will sail are: the Virginia, from Portland, Me.; the Kearsarge, from Boston, Mass.; the Illinois, from Newport, R. I.; the Kentucky, and Maine, from New York City; the Rhode Island and Alabama, from Philadelphia; the Louisiana, from Norfolk, Virginia; and the New Jersey from Charleston, S. C.

The cruise will end September 12 and during its last week will be held a mobilization and training cruise of yachts and motor-boats. From August 15 until August 26, the citizen sailors will be proceeding to the training conference at Tangier Sound, in Chesapeake Bay, the nursery practice ground of the Atlantic fleet. Target practice will be held by the training fleet from August 27 to September 5.

The object of the cruise is officially described by Secretary Daniels as follows:

"For training volunteers to afford to civilians an opportunity to gain, by close contact with naval life and naval duties, some experience and understanding which will help them to perceive the way they may best fit themselves for service in the Navy in time of need."

At the end of the cruise each volunteer will be given a certificate by Rear Admiral Helm specifying the duties he performed, efficiency displayed and the naval rating he is best qualified to fill. Volunteers also will announce the intention whether they will volunteer for naval service in case of war within the next four years.

Each volunteer is expecting his $30 for the privilege of the month's cruise, the navy supplying uniforms and other naval clothing. The volunteers will be given substantially the same training as midshipmen from the Naval Academy during their training periods. They will sleep in hammocks, canvas bags will be their substitutes for the cliff-dwellers at home; they will clean ship, polish weapons, assist in the engine room and generally go through the tedious duties of any Jack Tar.

Mixed with the work, however, will be men's recreation and instruction. When conditions permit, the men will be allowed to go swimming twice daily, and hold rowing and sailing races and inter-ship baseball games. Lectures and private instruction will be given daily by navy officers, in addition to the practical experience afforded.

The volunteers are to be organized, messed and berthed separate from the regulars aboard ship and will not be required to pass and work at the mastheads, strike halyards or do extreme hazardous work which might be severely strain men of sedentary life, although all will be required to pass a naval examination before enrollment.

From daybreak until 8 p. m. a flexible program of duties awaits the civilians with almost every minute filled. Before breakfast two and a half hours work will be the daily program of the citizen sailors. During the cruise they will be drilled and instructed in the three and five inch guns of the ships, in signaling, boating of all kinds, fire control, torpedo defense, quartermaster duties, marine electrical machinery, including radio work. Emergency drills, such as fire quarters, calls to "man overboard," and general quarters are also scheduled. The volunteers assigned to engineering duty will work in two hour shifts from 8 a. m. to 8 p. m. All volunteers will be relieved from assignments to attend all drills and lectures.

Three divisions of the civilians will be formed, with subdivisions under petty and commissioned officers. During the last week of the cruise all volunteers will have duty under commissioned officers. Every volunteer will drill as a member of a gun's crew and all will participate in some capacity in the target practice.

The mobility of the practice fleet may be somewhat limited while on Tangier Sound as only their tactical speed will be allowed and their maneuvers will be confined to their reduced mobility.

From Scarborough to Cape May the fleet will be proceeding in and at parts of the battalion participating in exercises with the mobilized yachts and motor boats in problems of defense of naval districts.

In cooperation with the training fleet, several hundred yachts and motor boats will hold maneuvers at Norfolk, New York, Philadelphia, Newport, Boston and Portland, Me. They will after organizing, be given instruction in scouting, patrolling, marauding, manoeuvering by signals, plotting and chart-ing. The department plans the mobilization as an initial step toward a mobilized naval service. The object of the week's work will be to organize in a general way, the yachts and motor boats of the naval districts, and to give owners an idea of what would be required of them in time of war.

SPANNELL TAKEN TO ALPINE

EL PASO, Texas, July 26.—Harry J. Spannell was taken back to Alpine, Texas, tonight for a preliminary hearing on charges of having shot to death his wife and Lieut. of C. M. C. Dalby. The musician was vereing on a slot of vaiiaue as he boarded the train, handcuffed to deputy sheriffs. He refused to make any statement. The hearing probably will be Wednesday.

UGH! CALOMEL IS HORRIBLE! IT SHOCKS YOUR LIVER, IF BILIOUS

CALOMEL SICKENS! DON'T LOSE A DAY'S WORK! CLEAN YOUR LIVER AND BOWELS WITH "DODSON'S LIVER TONE."

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked-out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a 35 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the story and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste. —Advertisement.

EGYPTIAN PEASANTS WAXING PROSPEROUS AS RESULT OF WAR

EVERYTHING THAT THE COUNTRY PRODUCES IS BEING TAKEN BY THE ARMY AT ADVANCED PRICES.

FARMER REAPING HARVEST

[illegible] July 26.—A lengthy report issued with the Egyptian Consulate-General here states: "Egypt is a land that country dwellers everybody satisfied. In the midst of the general agony, though its prosperity exceeds all other lands. Egypt has been a land of plenty, but it has not offset the high cost of all the country's products.

"In the respect Egypt has been a land. There is not no winter tourist traffic. The tourists come no more. But the place is taken by the large numbers of officers who spend their leave in Cairo or Alexandria, and the numbers of soldiers find them fairly good customers. The men spend a great deal of money with small shopkeepers, and the Australians are customers worth having, as they have no more than an Australian private to spend. Also the agriculture season lasts all the year round, while the tourist season at best was a matter of two or three months. Hotels in Cairo which formerly vegetated, cannot now do a thriving business right through the hot season. Several of the great hotels have been taken over by the army as hospitals or for other military purposes and those that remain have as much business as they can cope with.

BALE BRINGS $109.

GREENSBORO, July 26.—Jesse Thornton brought the first bale of cotton which was ginned and bought by the Farmers Gin Company of Gibsonville. The bale weighed 500 pounds and was sold for 21 cents. The seed was bought for $3 a bushel. Mr. Thornton received a premium and the bale was given him. The total amount received is $109.70.
