Hard-Pressed Teutons Forced to Yield More Ground to Adversaries on the Southwest and Eastern Fronts, Important Positions Being Captured.

CALM ON OTHER FIELDS

Inclement Weather Has Checked Everything Except Artillery Activity on the Somme and Near Verdun—Turks and Russians Still in Deadlock.

LONDON, Aug. 10.—While bad weather is hampering operations of the British and French in the west, Italians and Russians are continuing their strong offensives against the Teutons in Austria and Galicia, both having made additional gains today. On the Isonzo front Italians are steadily throwing forces across the river and have brought their way east from the captured city of Gorizia. Southwest of that city they took strong Austrian entrenchments near Monte San Martino and also occupied the town of Huschid, which gives them a free hand for operations in the region of the Doberdo plateau and southward toward the Monfalcone sector. Large numbers of prisoners were taken.

Vienna in admitting the loss of Gorizia says that following its evacuation Italian attacks on the Doberdo plateau were repulsed. The statement says that the straightening out of the Austrian lines was made necessary by operations which have been successfully carried out. Vienna also reports that forty-one hundred Italians were captured during recent fighting in this region.

In the Stanislau and Halicz sectors of Galicia Russians have advanced further westward in an endeavor to capture the central portion of the railroad running from Kolomea to Lemberg. Passing across the Monastyrzyska-Niemiroff railroad Russians forced the Zlota Lipa river southeast of Halicz, capturing Krypin on the Stanislau-Nadvorni railroad.

Berlin reports that in Galicia the Teutons have occupied new positions southwest of Wolczecze and south of the Dniester. This report adds that Russian attacks along the Strypa and Stokhod rivers have been repulsed with sanguinary losses to the Russians. Another big battle started tonight near Brody, northern Galicia.

Owing to inclement weather in France military activity is confined principally to bombardments, which are most severe north of the Somme and near Verdun.

Fierce fighting is still going on between the Turks and Russians on the Mush-Bitlis front in Turkish Armenia.

Twenty-one Austrian aeroplanes dropped a large number of bombs on Venice tonight, causing numerous fires in that historic city.

LONDON, Friday, Aug. 11.—Austrians in and around Lemberg have been reinforced by one hundred and fifty thousand Turks, according to a Daily Telegraph dispatch from Rotterdam.

HAVE 410,000 PRISONERS.

PETROGRAD, Aug. 10.—Counting the last ten days' operations the prisoners taken by the Russians since June 1, now number 410,000.
