Trapped By Teuton Strategy Roumanians are Put to Flight

CAUGHT BETWEEN TWO FORCES INVADERS SUFFER DECISIVE DEFEAT IN TRANSYLVANIA

GEN. VON FALKENHAYN, DEPOSED CHIEF OF THE GERMAN GENERAL STAFF, REDEEMS HIS REPUTATION WITH ONE OF THE MOST COMPLETE VICTORIES OF THE WAR.

SURVIVORS REPORTED FLEEING IN DISORDER

On the Somme Front French Drive Another Wedge in German Lines But Aside From That Nothing of Importance Occurred in Any Battle Sector—Revolution in Greece Said to be Spreading by Leaps and Bounds.

BUCHAREST, Sept. 30.—The Roumanian retreat from Hermannstadt is admitted in an official communication tonight. It says that the Roumanians were attacked on all sides and retreated southward after fighting their way through enemy forces attacking from the south.

LONDON, Sept. 30.—Troops of the Central Powers under command of Gen. von Falkenhayn, former chief of the German general staff, have gained a decisive victory over the Roumanian invaders of central Transylvania, the Roumanians being crushed between two forces in a battle which raged for three days. After sustaining heavy losses the invaders are reported to be fleeing in disorder into the mountains.

This defeat of the Roumanians was brought about by a strategic move such as would be virtually impossible on the western front. Gen. von Falkenhayn divided his forces and while one body engaged the invaders around Hermannstadt, the other encircled the Roumanian advance. Both forces then pressed down on the Roumanians, composed of sections of two Roumanian armies. Bavarian troops holding Rothenturm pass checked the advance of the second Roumanian army, which attempted to come to the aid of its surrounded compatriots. Berlin reports a large amount of booty taken as well as many prisoners.

Fighting continues on the Somme front but with little change in positions of the combatants. Germans are continuing their counter attacks in the vicinity of Thiepval.

Further south the French have advanced north of Rancourt, driving a wedge into the German lines there.

No important changes in Macedonia, in Dobrudja, on the Austro-Italian front or on the eastern front are announced.

GREEK REVOLUTION SPREADING RAPIDLY.

The Greek revolution is spreading by leaps and bounds. Not only has the Greek warship Hydra been seized by the rebels and brought to join the allied fleet in Salamis Bay, but the Kilkis, formerly the United States battleship Idaho, is also reported to have deserted. The Greek Ministry of Marine denied this and the minister has expressed the deepest regret over the defection of the Hydra, but the report persists in Athens, where all is excitement.

According to stories told today, the Hydra was practically stolen by the revolutionists, though with the consent of her commander, an enthusiastic Venizelist.

At an early hour in the morning silent men put out in a rowboat to where the Hydra was anchored under the guns of the Piraeus arsenal and climbing on board, threatened the officer of the deck and the watch officer with death if they made a sound. All the ship's officers not in sympathy with the revolution were put overside into small boats, and two tugs, which had been ordered to come at a given hour, hooked on to the big warship and silently drew her out of the harbor. Arriving in Salamis Bay she was turned over, amid cheers to the allies.

Greece tonight is reported haggling with the entente over territorial terms before taking the final action which will bring her into the war against the central powers.

British losses during September were more than 3,800 daily. Casualties on all fronts in that period were 5,439 officers and 114,116 men, according to a report issued today.
