W. E. POPE HAS BUSY SEASON AHEAD WITH STATE LEGISLATURE

MEMBER OF HOUSE FROM THIS DISTRICT HAS INTRODUCED TEN BILLS SINCE LAST TUESDAY

Confident that Despite the Prohibition Agitation that the Solons Will Enact Much Important Legislation.

W. E. Pope, the representative in the state legislature from the Corpus Christi district, is not the sort of man who believes in sitting back at the first term of service in the house, and voting for or against the bill of the other fellow. Instead he believes in doing after legislation that he wants, right off the bat, in the street vernacular. Though the legislature has been in session less than a week Mr. Pope has already introduced ten bills and he announces that he is going to devote every energy in getting not as many of the bills through as possible.

Here are the bills that Mr. Pope would have the legislature enact into legislation.

The Corpus Christi Waterfront Bill in which the state would cede control of the waterfront to the municipality as explained in detail in previous issues of the Caller.

Bill for the establishment in this section of a State Normal School.

Bill for the creation of a Nueces County District Court for a four year period to assist the twenty-eighth district court which is now with its crowded docket. If the bill is passed the governor would appoint the judge.

Bill permitting property-owners to take sand from bays of the state for improvement purposes.

Bill requiring county commissioners courts of the state to publish in the official county newspapers the proceedings in detail of each meeting of the Commissioners Court.

Bill prohibiting fish dealers from buying fish from minors and from all other persons without first securing an affidavit concerning the ownership of the goods, and providing a period of imprisonment of the seller, the purpose being to prevent if possible the sale of stolen property.

A bill prohibiting any person, his agent or representative, from improperly weighing, measuring, grading or counting article or commodity bought from or sold to the public, the bill being designed as a protection against members of the "short-changing" fraternity.

A bill prohibiting the state land commissioner from using the treasury funds in drilling maps or surveys of state lands. Mr. Pope contends this work is not a standard measure in the United States and that it has proved to be marked by fact and fiction. "In New Mexico" said Mr. Pope, "a cow is one hundred in Mexico another in California another and in Texas neither."

A bill providing for fish and game protection in Nueces County.

Bill requiring all abstractors of land titles to avail an examination and be licensed and to give bond the same as the county clerk for the use of the official records of the county.

Mr. Pope reached Corpus Christi Saturday from Austin on a short business trip and plans to return to Austin Tuesday morning. He is confident that at least several of his bills will be passed into legislation, telling the Caller last night that there is every indication that the Legislature will be able to make fast progress just as soon as the prohibition question is disposed of.

MEMBERS COMMERCIAL ASSOCIATION ASKED TO PICK THEIR WORK

EACH MEMBER TO BE ASSIGNED TO ONE OF SIX BUREAUS AS MEMBER MAY DESIGNATE.

In Addition Each Member is Enrolled Into a Business Council, Provision Being Made for Twenty Councils.

Under the reorganization plans of the Corpus Christi Commercial Association now being put into execution each member is assigned definite work through direct affiliation with a Bureau and Business Council of the Association.

There are six Bureaus and twenty Business Councils in groups. Thus if member Smith is a retail grocer he naturally would be grouped with the Retailers and in Bureau work he can select his own line of work in Civic, Industrial, Traffic and Transportation, Mercantile, Conventions and Publicity, Agriculture and Good Roads.

Secretary Wright is sending out to each member of the Association a post card, with return card, the members being advised as follows:

In addition to the Business Council the entire membership of the Association is to be divided into six bureaus as shown on the return portion of this post card. Kindly mark with a check the bureau in which you desire to work during the coming year and mail the return card to the office of the Association at once. These bureaus will be called together for organization as soon as the membership is divided up according to individual preferences.

The organization of the various Business Groups has already started, each of the units being called upon to hold membership meetings and elect a director to the General Council consisting of the directors from each of the twenty councils. This General council will be a body to consider the many matters of importance for Corpus Christi, taking the initiative in such work and acting in an advisory capacity with the directors of the Association.

The newly elected directors it is expected will meet within the present week and organize by the election from among their number of a president, vice-president and treasurer.

A number of matters of importance are now awaiting the attention of the Association including the question of securing natural gas to Corpus Christi, the reconsideration by the state of a Summer Normal School for Corpus Christi, as proposed by Nat Benton in an interview appearing in the Caller Saturday morning, and other matters.

PHELPS RESIGNS POST AS DEPUTY ATTORNEY

Assistant to District Attorney John E. Green, Jr., to Leave that Office Next Tuesday.

A dispatch from Houston advises that E. P. Phelps, deputy in the office of U. S. District Attorney John E. Green, Jr., has tendered his resignation to take effect up next Tuesday. The resignation, according to the dispatch has been accepted by Mr. Green and forwarded to Washington.

B. E. Simmons a well-known Houston attorney, has been recommended by Mr. Green as the successor to Mr. Phelps. As it is customary for the Attorney General to appoint a man recommended by the district attorney it is taken for granted that Mr. Simmons will get the place.

When the Circuit Court of Appeals on last Tuesday handed down a decision throwing out of court the Nueces county election cases, Mr. Phelps is said to have given out a newspaper interview in which he intimated that the district attorney's office might seek to reindict all of the forty-two Nueces county democrats indicted here during the May 1915 term of Federal Court despite the fact that all of the defendants with the exception of six were either acquitted or the cases against them dismissed.

Mr. Green the following day repudiated all responsibility and knowledge of the Phelps interview.
