Our base ball boys came in from Central last Sunday afternoon as quiet and solemnly as though they were returning from Sabbath school. So it is safe to say that the Central team was "woully all the tuk" and "hard to catch."

Spring weather calls for spring clothing. The bright sunshine shows up the wrinkles and frayed edges of all the old rags and shabby suits. Nature is putting on her new dress. Gentlemen, you'd better get into line, and go to C. C. Shoemaker's for a suit. *

Mr. and Mrs. J. J. Kelly entertained a large party of friends last Wednesday evening in honor of Miss Mamie, who, with her good mother, departed for Denver the following morning, where they will spend the summer. Cards, music and a delicious lunch were the leading features of the evening.

Next Sunday is Whit Sunday, or Pentecost, which comes after Easter and Christmas as the third of the great festivals of the Christian Church. [illegible] fire alarm was sounded last Tuesday morning about six o'clock from the Broadway hotel building. Great crowds hastened to the scene to find that the store house of the Club House saloon, in the rear of the building, was in flames. Just how the fire caught remains a mystery. When the fire was discovered the room was securely locked and Geo. Hauser was the last person to enter the room. This was at about six o'clock the night previous. At that time no signs of fire was visible. Mr. Hauser, however, has a very plausible theory as to how the fire originated. The building is of brick with iron roof. Through the roof is an open stovepipe hole, and he believes that some of the gang which has been operating in the city for some time climbed to the roof, which was easy of access, lighted a match to see what he was [illegible] below, and perhaps dropped [illegible] of the inflammable [illegible] room, which stored large [illegible] liquors, cigars, etc., [illegible] ruined by fire, smoke [illegible] was covered by in- [illegible]

The great flood of last July deposited between two and three thousand tons of sand and gravel in the tunnel and the work of hoisting it is enormous. Dad Mungen, the veteran superintendent of the pumping works, gets up at about 2 o'clock a. m. and pumps water into the reservoir for the day's use until about 7 a. m. when the power is used in hoisting dirt, etc. There is over 150,000 gallons of water in the reservoir and 80,000 gallons is furnished to supply the daily demand. Mr. Nichol thinks that when greater depth is attained in the new well and the dirt and sand is removed from the tunnel that the company will have an abundance of water and that all demands for city, irrigation and mill purposes can be amply supplied.

Three Hats.

This highly amusing 3 act comedy has been carefully rehearsed and will be presented at Morrill Opera House tomorrow night by Silver City amateurs. There is a rich vein of high and low comedy running through the entire play with enough of tragedy interspersed to make it exciting. Weekly Crop Bulletin.

Week ending May 9.

The week ending May 11 was far from being favorable for growth of crops. High, dry winds and cold nights kept everything back. No rainfall was reported during the week. Light frosts occurred very generally on the 8th and 9th but not severe enough to cause very great damage. The stock ranges are badly in need of rain and stock, though in fair condition yet from the old feed, are falling off and will suffer in some localities soon if rain does not come.

The lambing season is now on and the reports indicate a fair increase in the flocks. Water is getting scarce on the ranges but is very plentiful for irrigation in the rivers and plenty of snow in the mountains yet.

The season is very backward all over the Territory and warmer weather with rains are the desired conditions.

SIGNAL TRIUMPHS WON.

By Dr. Price's Cream Baking Powder

Two signal triumphs have been achieved by Dr. Price's Cream Baking Powder. First it received Highest Award and Diploma at the World's Columbian Exposition of 1893. Next it secured Highest Award and Gold Medal at the California Midwinter Fair of 1894. At both Fairs it surpassed all competitors in every respect. The award, in each instance, was for strongest leavening power, perfect purity and general excellence. It was sustained by the unanimous vote of the judges.

The victory at Chicago establishes the supremacy of Dr. Price's as "The Foremost Baking Powder in the World." The triumph at San Francisco confirms and emphasizes it.

Grandmother

knows that "pie-plant" is healthy and that soda settles the stomach. Doctors know the same thing. "Ripans Tabules" are largely made up of Rhubarb and Soda. So it's easy to see why grandmothers and doctors both can recommend "Ripans Tabules" for dyspepsia and all stomach disorders. We sell this reliable remedy for 50c. a box. One "Ripans Tabule" is enough to give relief.

Grandfather
