# SUGGEST REMEDY FOR TREE FAMINE

## Conservation Experts Say Only Way to Relieve the Scarcity of Lumber is by the Planting of Trees.

WASHINGTON, Nov. 18.—Conservation experts from all sections of the United States and a delegation from Canada arrived here Monday to take part in the meeting of the fifth National Conservation congress which begins Tuesday.

Several section meetings were held Monday at which preliminary features of the congress were discussed. The National Association of Conservation commissioners was addressed by Secy. Lane, who made a plea for greater co-operation between the state and federal authorities.

The secretary declared that the greatest obstacle in the preparation of an adequate conservation policy was the conflict between those who believed in state rights. This conflict, he said, was responsible for the difficulty the federal authorities experienced in obtaining the co-operation of states.

"Now the government is not wedded to any particular theory, but it is wedded to practical tests that will develop something to better the country," continued Secy. Lane. "We are indifferent to the agency employed. You represent the states, I represent what is called the central government. We can co-operate and manifestly there can be no success unless we do co-operate."

Reforestation was declared to be the remedy for the coming timber famine in the report of a sub-committee to the forestry section. "Successful commercial planting," the report concluded, "depends upon a good future market, lands of low value upon which to plant choice species suited to the needs of the markets and to the conditions, local and regional, relative freedom from sources of damage, a low initial cost of planting and a return on the money invested equal at least to a fair rate of interest. The long time nature of the investment makes planting more feasible for the federal, state and local governments or long-lived corporations than for the individual or small company."

Other addresses were made before the association of commissioners by Dr. C. R. Van Hise, president of the University of Wisconsin; Dr. George Otis Smith, director of the Geological survey; H. J. Waters, president of the Kansas State Agricultural college; C. F. Marbut, United States bureau of soils, and C. B. Waldron of the department of agriculture and forestry, North Dakota Agricultural college.

# SENATE WILL GET DRAFTS THURSDAY

## Members are Anxious to Pay a Visit to Home Folks But Will Leave Question up to the President.

WASHINGTON, Nov. 18.—Definite agreement Monday both in the administration and in the anti-administration wings of the senate and currency committee to complete their drafts of the currency bill, and submit them to the senate by Thursday, was followed by general talk at the capitol of an adjournment of congress over Thanksgiving.

Informal discussion of the possibility of adjournment on both sides of the capitol, however, failed to take any definite shape. No adjournment will be taken without the consent of the president and he has not yet made known his views. In the senate it was believed the president might agree to a brief recess, although it has been known that he desired to have congress in session in the event of emergencies arising in the Mexican situation.

Both wings of the senate committee continued work on their bills on Monday. The six administration democrats reopened their deliberations to consider the advisability of altering the provision in the Glass-Owen bill for shifting the reserves of the country from the present depositories to the regional reserve banks. It has been suggested that the provision might make too great a demand on the banking resources of the country result in the calling of loans and consequent stringency. The democrats reached no definite agreement, but Chairman Owen agreed to tabulate the figures available on the subject and present them to the committee tomorrow.

Senator Hitchcock and the republicans continued to write their draft of the bill. They increased the gold reserve to be held against the new currency to 45 per cent and provided that when the reserve fell below that point it should be taxed on a graduated scale to the minimum of thirty per cent. The bond refunding section was completely changed.

## "BAGMAN" MAKES PLEA

**Everett Fowler Says He is Not Guilty of Extortion.**

NEW YORK, Nov. 18.—Everett Fowler of Kingston, N. Y., so-called "upstate bagman for Tammany" was arraigned before Judge Crain in general sessions court Monday and pleaded not guilty to an indictment charging him with extorting $250 from S. P. Hull, a contractor doing work for the state. Fowler gave $5,000 bail. His attorney, Martin W. Littleton, denied that Fowler had any idea of making a confession.

## OBJECTS TO THE SMOKE

**Wife Wants Divorce Because Husband Mistreated Her.**

Charging that her husband persisted in smoking cigarets in her room when he knew she could not stand smoke, that he tried to strike her with a broom and has bought her but one dress since their marriage, Raoe May Allen has filed suit for divorce from Edgar Allen, in the circuit court. They were married June 22, 1913 and separated Nov. 17, 1913.

# MOTHER! THE CHILD IS COSTIVE, BILIOUS

## If Tongue is Coated, Breath Bad, Stomach Sour, Don't Hesitate!

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomachache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." Don't be fooled! —Advt.

## WOMEN MAY LOSE THEIR JOBS THROUGH NEW LAW

PHILADELPHIA, Nov. 18.—The enforcement of the new law regulating the employment of women in Pennsylvania may result in hundreds of women losing their places in Philadelphia hotels this week. The main feature of the law is that no woman can work more than 54 hours a week or more than ten hours a day; nor can they work more than six days in any one week.

According to Mahlon W. Newton, president of the Philadelphia Hotel association, the number of women thrown out of work will be at least 500 and may be much greater. The hotel managers, he said, are willing to retain the women, but because of the necessity of hiring extra help where women are employed, wages will be reduced. In consequence, he said, some of the women, unable to live comfortably on less money, will enter other occupations. Men and boys will take the places of the women.

## SHOE WORKERS STRIKE WHEN WAGES ARE CUT

MILWAUKEE, Nov. 18.—Five hundred boot and shoe workers of the United Shoe Workers union went on strike at a local factory Monday because of a change in the piecefork system, resulting in a decrease in wages.

Arvid Erlander and J. R. Oldham of Lynn, Mass., officers of the United Shoe Workers union, arrived Monday and have taken charge of the Workers' case.

In demands presented to the manufacturers the strikers ask their old rate, five minutes time before noon and night to clean up and that they be paid every Wednesday before closing time.

## CLOSE DOWN SCHOOLS BECAUSE OF DIPHTHERIA

NEW CARLISLE, Ind., Nov. 18.—The result of three cases of diphtheria breaking out in the school room and the fact that nearly every pupil has been exposed to the disease, caused the suspension of school Monday afternoon, probably for one week.

The disease broke out in three separate families. Lyman Wade in the seventh, Worth Brummit in the third and the son of Mrs. John Aires, the music teacher in the second grade, were reported ill with the disease Monday. Although nearly every pupil has been exposed no other cases have been reported. Besides the three families other residences are under quarantine.

## HARD COAL RATES ARE TO BE INVESTIGATED

**Interstate Commerce Commission to Take up Charges That Sections are Favored.**

WASHINGTON, Nov. 18.—Investigation of alleged exorbitant rates on bituminous coal from certain points in Virginia, West Virginia and Tennessee, to other points in Virginia, North Carolina, South Carolina, Georgia and Florida, was authorized Monday by the interstate commerce commission.

Railroads involved are the Southern, Louisville & Nashville, Norfolk & Western, Chesapeake & Ohio, Virginia, Nashville, Chattanooga & St. Louis, New Orleans & Texas Pacific, and the Carolina, Clinchfield & Ohio. Date and place of hearings have not yet been fixed.

## CHARGES DENIED IN DR. BLAKE'S ANSWER

**Physician Admits he has not Given Wife Anything Towards Support Since August.**

NEW YORK, Nov. 18.—Dr. Joseph A. Blake, an eminent surgeon, filed Monday afternoon his answer in the suit for separation brought by his wife, Mrs. Katherine J. Blake. All of Mrs. Blake's charges of desertion and non-support are denied in the answer. The answer admits, however, that Dr. Blake has contributed nothing to his wife's support since Aug. 1 of this year. Dr. Blake denies that he is a resident of this state and asks that the suit be dismissed.

The suit for separation is the second one filed recently by Mrs. Blake. The first was brought against Mrs. Clarence H. Mackay for $1,000,000 for alleged alienation of Dr. Blake's affections. This suit was withdrawn a week ago. In the present suit, Mrs. Blake charges long continued desertion and non-support.

## PROWLER AT WHITE HOUSE

**Test as to Man's Sanity to be Made at Washington.**

WASHINGTON, Nov. 18.—While prowling in the shadows of the shrubbery south of the white house early Monday, a man, giving his name as Clyde Wythers and his address as this city, was arrested by the white house police force. He could give no explanation for his presence so close to the executive mansion and was imprisoned. He will be remanded to the asylum hospital for examination as to his sanity.

## ENGINEER IS STABBED

**Strikers Returning to Work Clash With Strike Breakers.**

VICTORIA, Texas, Nov. 18.—Strikers returning to work on the Southern Pacific railroad here late Monday clashed with a strike-breaking crew whose places they took on a train that had just arrived from Houston.

George Gillig, a union engineer, was stabbed to death. The alleged assailant, whose name is withheld, and four companions are under arrest.

## WOMAN WHO ADMITS KILLING MAN FINED

**Miss Letha Perdue Who Shot Her Brother-in-Law Pleads the Unwritten Law.**

HUNTINGTON, W. Va., Nov. 18.—Letha Perdue, aged 19, convicted last Saturday of involuntary manslaughter for having shot and killed James Kendrick, her brother-in-law, paid a fine Monday of $25 and court costs, a total of $71, and was released from custody. A jail sentence of from one day to one year was not mentioned by the court. Miss Perdue's defense was emotional insanity and unwritten law.

Miss Perdue shot and killed Kendrick several months ago. She claimed after the death of her sister, Kendrick's first wife, he had paid attentions to her. Kendrick was taken to a hospital stricken with fever. He later eloped with a nurse and it was in the presence of the second bride that Miss Perdue killed Kendrick.

## DRILL FRIDAY NIGHT.

A meeting to decide the date for the first meeting and drill of the company of uniform rank organized last Friday by the Knights of the Modern Maccabees will be held next Friday night. It is thought that the company will use the Maccabee hall for their drills and other work. There are 18 men enrolled in the company.
