WHY IS THE WANT AD?

Like a great filter plant is the Want Ad section of the modern newspaper.

When the water supply of the city passes through the big filter, all the impurities are eliminated and the water reaches the homes of the consumers pure and clear and fit for drinking.

So, too, with the News-Times Want Columns, for, in the business and home world, they are the filter plant that takes away all the evils that prevent success.

The man, or woman, who is not in the proper nitch—in a rut, so to speak—can quickly be extricated by putting himself through the Want Ad filter. The old job that has held him back so many years is cleaned away and a new one substituted which gives him the opportunity he has so long waited for.

The tenantless room, or house, or flat, or apartment is soon filled with tenants when the Wants are applied to for aid.

The vacant realty that has been on the market so long is quickly sold by the Want Ad method.

The business that has become run down for lack of capital is clarified and put on its feet again when a partner with money is secured through the Wants.

These are just a few of the many ways the Want Ad filtration plant clears up the waters of business and they do the same in the home by getting servants when the old ones leave, by selling the discarded furniture and a hundred different helps are ever at the housewife's hand among the ads in the Want Columns.
