LETTER FROM FLORENCE.

Containing our Usual Batch of Local Items.

From our Regular Correspondent.

FLORENCE, May 22, 1878.

Looking over the fields of wheat and barley, we conclude we are nigh unto the harvest; and this reminds us that many souls are fast ripening for eternity; and the sickle of death never fails to be at hand just when the fatal "Tis enough" rings in the ears of an eternity bound mortal.

"How many will be the harvest,
Why stand whitened in the sun,
Until the sight dazzles and blinds,
And day begins to end?"

JOTTINGS

Marriages are becoming quite frequent in our village. Judge Walker generally presides. Births are both common and proper? being all of the male persuasion.

Our ears nightly feast on the dolce notes of a trio of serenaders; and in addition thereto, we are awakened some nights during the "witching hours," to listen to a duet or solo, followed by a general chorus, eclipsing the grandest efforts of any "stranger-feat."

A brick is being talked of. Silverville is the name of a new town, said to be in contemplation on the north side of the Gila.

Croakers are decaying the signs favorable for another drought. This season, being so favorable for the limited quantity of fruit growing in the Gila valley, it is believed will settle the question of success in this important industry, and many trees will be planted next spring. Let gardens and ranches be planted with fruit trees. There is nothing more ornamental than a cherry tree in the "old door yard," laden with luscious cherries. ADIOS.

LETTER FROM TUCSON.

Some Newsy Items from a New Correspondent.

TUCSON, May 16, 1878.

Your good, newsy paper steals in upon my quiet life once a week like a ray of sweet sunshine. Would be glad if each week I could contribute something of interest from this place that would help to fill its columns to advantage. I might do this easily if I possessed the tact; but, alas! I am not a correspondent. You speak in your last number of your

GOOD LOOKING TELEGRAPH OPERATOR.

Let me say, we have one here, too. Mr. Kelley—who is not only good looking but accomplished; the leader of a first class minstrel troupe, and a splendid singer and dancer, may. Supported by such men as Franklin and Jacobs, they give an excellent entertainment. An

AMERICAN CIRCUS

Has been the rage here for a week past. The lady character—Miss Elma Ryland—cannot be beaten anywhere. Our boys are infatuated, constantly trying to walk slack rope, play with bowie knives, riding burros in a circle, etc., etc. We've got "Tom Sawyer" here as well as elsewhere. Your Pavilion mention is no doubt a very nice place. Here we have a Park, a beautiful, shady place, where the ladies and gentlemen congregate evenings and trip the "light fantastic toe" to the

MOST DELICIOUS MUSIC.

Our band leader is a most remarkable man, playing two instruments at the same time. Refreshments are always supplied in quantity, and of the very best kind. A good joke happened last week while arranging for the circus. Seats were borrowed from the Court House and church. The Dominie remarked that seats from the church could not be spared on account of services to be held, when one of our "barbers" responded "You don't mean to say you are going to have church when there is an American circus in town, do you?" EKKS.

McMillenville.

Arizona Silver Belt.

Notwithstanding the complaint of dull times, a trip to McMillenville would not only convince a casual observer that its citizens are generous and hospitable to strangers, but that the place is thrifty, enterprising and flourishing. Improvements are steadily going on, buildings springing up on every side and business is generally prosperous. With its energetic inhabitants, and being surrounded as it is by the best mines of the district, a bright future for it is inevitable.

Work is being rapidly pushed ahead on the R. E. Lemmon and the efficient superintendence of Mr. Scott. At the depth of eighty feet, in the main shaft two drifts are run, about fifty feet each north and south, piercing the syenite country rock on either side. By these the lead is covered, and shows by actual measurement the enormous width of sixty-eight feet. In each of these drifts a winze is sunk one to the depth of forty-two feet, twenty two below water level, from the bottom of which ores were taken that assayed one hundred and twenty ounces of silver; the other was sunk twenty feet, to water level, and the drift, now forty-seven feet, is being run to the southwest, along the course of the vein. This lead has improved in its downward course for the last twenty feet, over an ounce to the foot. Mr. Scott expects to have hoisting works in operation soon, when bye-and-bye will be able to sink, and confidently believes he will strike a large body of good ore. Work will be resumed on the Hanchett as soon as Mr. Flournoy returns from the East; he is expected daily, and will bring with him machinery for draining the mine.

Arizona Towns.

Globe City, although less than two years have elapsed since the site was in the possession of the Apaches and claimed as within the San Carlos Indian reserve, is now a thriving American town surrounded on every side with rich silver mines which are being rapidly developed by experienced and energetic miners. The town contains seven stores, all of which carry heavy stocks of goods especially adapted to a mining camp; besides these there are two drug store, a stationery and newsdealer, four saloons, two hotels, a restaurant, and boarding house. The legal and medical professions are represented, as also the several industries necessary to a community. We have a good meat market and bakery, a brickyard has just been started—adobes are plenty and can be had at a reasonable price. A sawmill adjacent to the town furnishes every desired size and class of lumber. The sons Themis are afforded the opportunity of displaying their legal lore in either one of both of the Justice's courts or before as many Notary Publics. We have two assayers, one quartz mill in town and another in the immediate vicinity. In the district we think we do not over estimate the population at two thousand, which is being augmented.

Pick Post contains three stores, one hotel, two restaurants, two barber shops, several saloons and corals, and a number of good dwellings. Its growth has been very rapid during the three months, and there is not a building or room to be had at any price, and lots are held at high figures.

The Hassayampa Mining District.

San Francisco Bulletin.

A correspondent writing from Tiptop, furnishes us with the following, concerning the Hassayampa district: It is situated 60 miles south of Prescott, 25 east of Wickenburg, 40 north of Phenix, and 60 north of Maricopa, and in the southerly end of the Bradshaw range of mountains. Is distant from large pine timber from five to ten miles. The southerly portion of the district lies down in the Agua Fria valley, which is a level desert plain to the Gila river. Tule Creek, which passes through the district, has some valuable mill sites upon its banks. There are a large number of mines in this district that are looking fine, are for the amount of work done upon them. The owners of these ledges are old timers, who only work a sufficient amount on their claims to get sufficient out to keep them in grub and whisky. If the above-named leads were in the hands of energetic capitalists they would soon produce large quantities of bullion.

GENERAL MERCHANDISE.

Now that the Mineral Resources of Arizona are being rapidly developed, agricultural products will be in great demand and the Farmer will quickly find himself King, and while enjoying home comforts will reap largely of the golden harvest of the hardy miner. Prospectors who are searching the mountains for hidden treasures—it may be poor as Job's turkey—will in a moment find themselves Bonanza Kings and be able to revel in luxury the rest of their days; but all men cannot become owners of rich mines! All men cannot become wealthy farmers! To the great mass of mankind the price of pork and beans will still be an object.

E. IRVINE & CO.

Being aware of this fact, propose to sell the best quality of goods at reasonable prices. They keep in the little store nearest the flouring mill, with the sign over the door—

VARIETY STORE.

TIENDA BARATA.

E. Irvine & Co., keep a large and varied assortment of goods which they will sell as cheap or cheaper than any firm in town. Their stock consists of

Provisions,
Groceries,
Dry Goods,
Hardware,
Tinware,
Medicines,
Clothing, etc.

Miners and prospectors can do better in getting an outfit there than any place in Phenix. Young folks contemplating marriage will be surprised to find how much they can buy at the store of E. Irvine & Co. with which to make home comfortable and pleasant.

Do not forget that

E. IRVINE & CO.

Keep the cheapest and best goods in Phenix.

Hayden's Ferry.

Our store at Tempe contains a large and assorted stock which will be sold at Phenix prices. Come and PRICE our goods before purchase elsewhere.
