PRESIDENT IN LITTLE ROCK

Reception and Welcome a Repetition of Experiences of Past Week.

GUARD OF HONOR

Consisted of 12 Union and 12 Confederate Veterans.

REVIEWED TROOPS AND INSPECTED BARRACKS AT FORT BEFORE ENTERING CITY—MADE ADDRESS AT CITY PARK AND ATTENDED LUNCHEON—PARTY LEFT FOR MEMPHIS AT 4 P. M.

By Associated Press.

Little Rock, Ark., Oct. 25.—The president's reception and welcome here was a repetition of his experiences of the past week all through the south. Crowds gatehred to greet him and at every turn some new evidence of cordiality was extended.

The guard of honor during the entire day consisted of twelve Union and twelve Confederate veterans of the civil war, a fact which greatly pleased the president.

The party reached Argenta, a suburb of Little Rock, on time this morning and at nine o'clock the train pulled into Big Rock, where the president alighted. He was escorted to the fort where he reviewed the troops and inspected the barracks.

It was nearly eleven o'clock when the party left for Little Rock, where the president was welcomed with cheering thousands who gathered in spite of the threatening weather. The president was met at Argenta by United States Senators Berry and Clarke, Governor Davis and Federal Judge Trebor.

At Little Rock the party was escorted to City Park, where the president was introduced by General Clayton Powell, formerly Mexican ambassador. The president spoke at some length, referring to the pleasure of seeing veterans of both sides in the civil war. He spoke of the children and the value of education and briefly referred to lynch law as demoralizing both to the criminal and the avengers. Following his address luncheon was served, which was attended by a large number of prominent citizens.

The party left for Memphis at four o'clock, where they will arrive at eight o'clock this evening. There the party will be separated, the president Secretary Loeb and Surgeon Rixey going to New Orleans and the rest returning to Washington.

NO STRIKE BY TEXTILE UNIONS

By Associated Press.

Fall River, Mass., Oct. 25.—Each of the five unions connected with the textile industry voted unanimously tonight to postpone action on the matter of declaring a strike until Monday. This was done at the request of a committee from the Manufacturers' Association, who desired that radical action be postponed pending a conference between the manufacturers and the textile unions.

JOSEPH ASSELFORD DIED YESTTERDAY MORNING

Joseph Asselford, a well known bayman, expired yesterday morning at his home, No. 610 West Main street, after an illness of about a week.

Mr. Asselford was a member of S. B. A., No. 1, and was one of the best known baymen in the city. The funeral cortege will leave the family residence this morning at 8:30 o'clock and proceed to St. Michael's church, where the funeral services will be conducted at 9 o'clock. The interment will occur in St. Michael's cemetery.

Murderess Gains a Point.

Washington D. C., Oct. 25.—Mary Mabel Rogers, under sentence of death in Vermont for killing her husband, has been granted leave to proceed on appeal before the Supreme Court of the United States as a pauper without payment of costs. The record in the case will be printed at the public expense.

STORM WARNING DISPLAYED YESTERDAY

And It Is Expected That Cooler Weather Will Now be Felt During To-Day.

Signals announcing the approach of a storm were displayed yesterday and last night over the government building, the weather bureau having received information of the approach of a storm from the southwest. The message was as follows:

"Southwest Storm Warning—Pensacola, Apalachicola, Carrabelle, Cedar Keys, Dunnellon, Tampa. Storm over west Tennessee, moving east. High southwest winds this afternoon, shifting to west and northwest."

It is expected that following the storm will come cooler weather. At least it is hoped that such will be the case.

Weather Summary.

Observer Reed, in his summary of weather conditions, yesterday said:

The depression which was in extreme northern Texas has moved to west Tennessee causing cloudiness to overspread the country east of the Mississippi River, and light rain northeastward through Virginia to the lower lakes and New England; heavy rain has fallen from eastern Texas and southern Mississippi northward to St. Louis, and a general rise in temperature has occurred over the east Gulf and Atlantic states. The northward tendency of this disturbance has been checked by a high area which has moved from North Dakota to the Lake Region which will result in the depression continuing in an easterly direction; followed by clearing and cooler weather. The depression over Montana has increased in intensity causing decidedly higher temperature over Montana and the Dakotas. High pressure, clear and cool weather prevails from the Pacific Coast to Texas, thence northeastward to the upper lakes, with freezing temperatures in Nevada, Utah, Wyoming, and from western Nebraska to the upper Lake Region. The easterly advance of these conditions will result in rain and cooler tonight, fair and colder Thursday, with brisk to high Southwest winds shifting to Northwest.

STRIKERS AND ENGINEMEN FIGHT

By Associated Press.

St. Petersburg, Oct. 25.—An encounter took place this evening between strikers and engine drivers who were preparing to take out trains. Revolver shots were exchanged and a number of persons killed and wounded.

NUMBER OF ARRESTS MADE YESTERDAY

Deputy Sheriff Sanders on his trip to the detention camp made a number of arrests. He went there in charge of a number of prisoners and proceeded to bring back as large a number as he left here with. The parties arrested and the charges against them are:

William Seifert and Asca Saseyer, for killing stock; Chas. M. Figgins, obtaining money by false pretenses; C. Johansen and J. C. Jenson, for violating the quarantine regulations.

Constable Bobe also arrested J. H. Hutchinson, colored, charged with larceny.

Candidates Legally on Ticket.

New York, Oct. 25.—A decision that the Municipal Ownership League's candidates are legally on the New York city ticket and entitled to their emblem, a pair of scales, was rendered yesterday by Justice Maddox at the special term of the Supreme Court in Brooklyn.

Safe Robbers at Work.

Ridgeville, Ind., Oct. 25.—Robbers yesterday blew open the safe in the Ridgeville State Bank and escaped with about $6,000. The exploston aroused Cashier Branson. He hurried to the bank, and was shot in the ankle. Before going to the bank the robbers met the town watchman, overpowered and bound and gagged him.

COTTON PRICES TAKE A JUMP SKYWARDS

Ginners and Census Bureau Reports Indicate Shortage In Crop.

SENSATIONAL FLUCTUATIONS IN NEW YORK MARKET FOLLOWED IMMEDIATELY AFTER REPORT WAS RECEIVED—JANUARY MADE ADVANCE OF 37 POINTS.

By Associated Press.

Dallas, Texas, Oct. 25.—The report of the National Ginners Association made public today was as follows:

"We estimate the amount of cotton ginned to October 18 to be between four million four hundred thousand and four million five hundred thousand bales. These reports show that about 46 per cent of the crop is ginned and indicates a crop of ten million bales. Florida ginned 33,742 against 36,724 last year; crop 33 per cent short. Georgia ginned 1,023,300 bales against 1,013,000 last year; crop 23 per cent short; about fifty per cent of the cotton is being held for ten and twelve cents since the recent decline. South Carolina ginned 584,000 bales against 607,686 last year; crop last year; crop 24 per cent short of last year; about forty per cent of the cotton is being held for a higher price."

Census Bureau Report.

Washington, Oct. 25.—Census Bureau today issued a bulletin showing the cotton ginned in the United States to October 18 as 4,940,723 bales, counting round bales as half bales, against 6,417,891 bales, to the same date last year.

Price Goes Skyward.

New York, Oct. 25.—The report of the Census Bureau caused sensational fluctuations in the cotton market. Before the report was issued the market was nervous on rumors that the report would show fully six million bales. Following the report within ten minutes January shot up 37 points to ten seventy, and other months showed similar activity.

DIRECTORS OF MUTUAL LIFE WILL MAKE INVESTIGATION

Startling Announcement Made Wednesday by President McCurdy.

TO BEGIN AT ONCE

Equitable Cleared Sixteen Million Dollars In Nine Months.

INTERESTING DEVELOPMENT IN INSURANCE MATTERS WAS THE STATEMENT ISSUED BY PRESIDENT MORTON—COMMITTEE ADJOURNED UNTIL AFTER NEW YORK MUNICIPAL ELECTION, NOVEMBER 8.

New York, Oct. 25.—More startling than the testimony before the legislative committee investigating the methods of insurance companies today was the announcement by President Richard A. McCurdy, of the Mutual Life, that a committee of the board of trustees of his company had been appointed to investigate the company and its methods. The members of the committee are William H. Truesdell, Effingham H. Morris, and John W. Auchincloss, all prominent in the financial and business world.

This action was taken at a meeting of the board today and was the result of the insurance investigation matter brought before the board by President McCurdy. The committee will begin work at once.

Another interesting development in insurance matters today was the statement issued by President Morton of the Equitable, showing that the receipts of that company for nine months of this year exceeded the expenditures by over sixteen million dollars, an increase of over five hundred thousand dollars compared with the same period last year. The receipts for premiums on policies for the third quarter of this year were over a million dollars less than in 1904.

The committee adjourned today until November 8, the day after the municipal elections.

RUNS NO RISK IN NEW ORLEANS VISIT

Although Yellow Fever Still Exists No Fear For President's Safety Are Felt.

By Associated Press.

New Orleans, Oct. 25.—Following is the official yellow fever report to 6 p. m.:
New cases, 9; total to date, 3,378.
Deaths, 2; total to date, 439.
New foci, 4.
Cases under treatment, 54.
Cases discharged, 2,885.

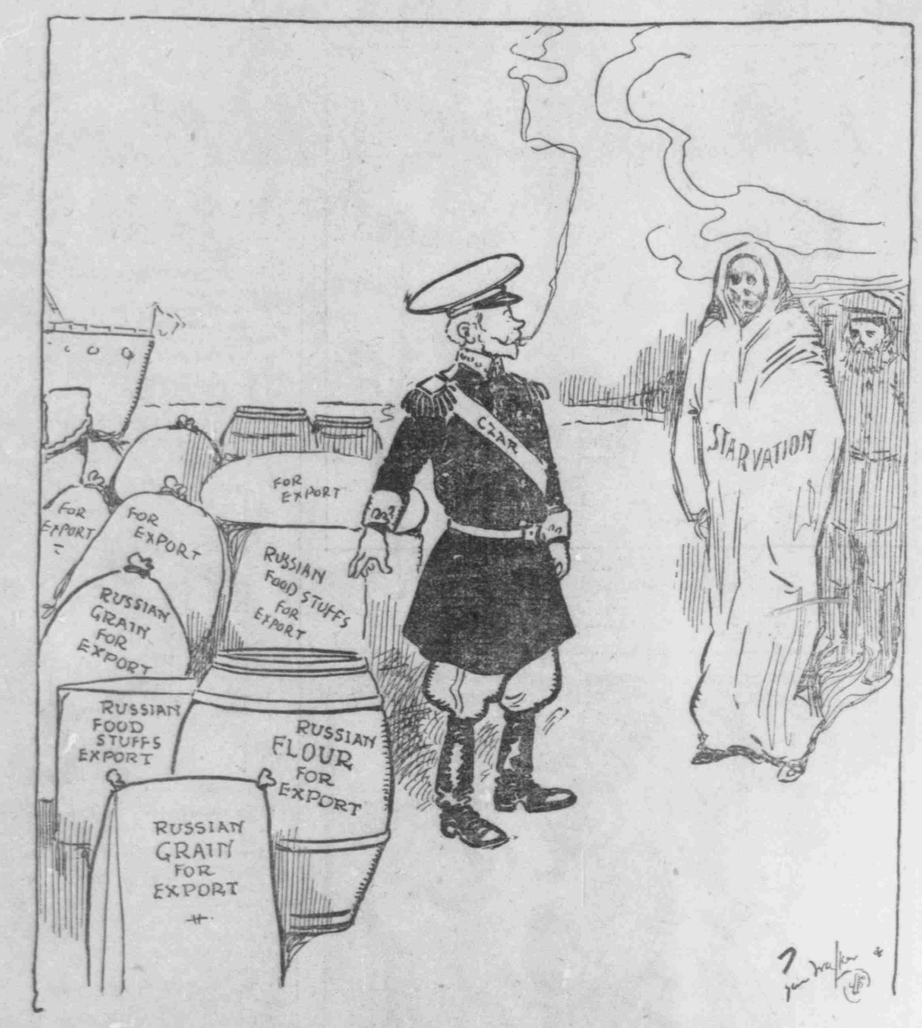
New Orleans, Oct. 25.—While the eve of the president's visit does not find yellow fever stamped out in New Orleans, it is the conviction of all federal and other scientists who are gathered here that the risk he runs in coming to New Orleans for a day is infinitesimally small. The crowded program which has been arranged will keep him continuously on the move, and if there are any infected stegomvia still at large in the city, they will have little opportunity to attack him.

While the fever has not been entirely stamped out, it is so nearly completely eradicated that there is considered little danger either for native or visitor.

STRIKE ISOLATES ST. PETERSBURG

By Associated Press.

Washington, Oct. 25.—The state department to-day received a cablegram from Mr. Eddy, American charge d'affairs at St. Petersburg, stating that owing to the railway strike, all communication was cut off from St. Petersburg.



The Czar Oh! I know you are starving, but the law of trade says that all this food stuff must be exported. When you get real hungry perhaps some charitable people in America will send over a shipload of grain for you. There are 18,000,000 people in Russia on the verge of starvation.—News Item.

QUIET RESTORED IN SANTIAGO DE CHILE

Fifteen Killed and One Hundred Wounded During Reign of Terror Monday.

By Associated Press.

Washington, Oct. 25.—The state department to-day received a cablegram from Santiago de Chile stating that the reign of terror, said to have existed in that city since Monday, is passing and conditions were quieter yesterday. The casualties Monday numbered fifteen killed and one hundred wounded.

Details of the occurrences of October 22 and 23, days on which the disturbances reached high-water mark, show the situation to have been more serious than the dispatches hitherto received would indicate.

Sunday afternoon a public meeting of twenty-five thousand persons was held on the alameda, which soon degenerated into a mob and free fight ensued between the police and the crowd. On account of the riot the whole city was in a state of terror Monday.

DELAYED SHIP SAILS ON HER VOYAGE

The Kaiser Which Had Nine Cases of Fever on Board Departs.

The German ship Kaiser, which was delayed in this port for over a month on account of the prevalence aboard the vessel of yellow fever, has at last sailed on her voyage. The vessel got under way Tuesday and is now far out at sea.

The Kaiser was singularly unfortunate on her visit to this port. She had taken her cargo and cleared, and would have sailed on her voyage in a few days, when sickness was discovered among the men. This proved to be yellow fever, and before it could be checked nine of the crew were either dead or down with the fever.

This necessitated the ship remaining here until the recovery of some of the men. Three of them died, but the others recovered and left with the ship.

Among them was the cabin boy, who was among the first to die. This was his first voyage, and when the captain left his home port the boy was placed in his charge by his parents. The latter were at the dock to see him depart, little dreaming that they were seeing him for the last time. One of the sad duties of the master upon his return will be to inform them of their son's death.

WANT CHARLES FOR KING OF NORWAY

By Associated Press.

Christiana, Norway, Oct. 25.—The government at a secret session of the Storthing to-day asked to be endowed with full power to negotiate with Prince Charles of Denmark for his acceptance of the crown of Norway on the understanding that the people of Norway would endorse the decision of the Storthing and government by referendum.

Oil Advances in Texas.

Beaumont Texas, Oct. 25.—An advance in the price of oil was posted by the Texas Company as follows: Sour Lake, 32c; Saratoga 35c; Batson, 34c; Humble, 36c. The price paid for Humble oil presents the highest paid since the oil fields opened.

Sailor Has Yellow Fever in Havana.

Havana, Oct. 25.—The illness of a sailor who was recently taken from the Ward Line steamer Viglancia and isolated in a fever hospital here has developed into yellow fever.

BACK BONE OF EPIDEMIC BROKEN

Only Eight New Cases of Yellow Fever Reported by Physicians Yesterday.

CAMP TO BE CLOSED

Official Notification to This Effect Issued by Dr. Porter.

DR. ANDRADE, BACTERIOLOGIST OF STATE BOARD OF HEALTH, LEAVES THIS MORNING FOR JACKSONVILLE—TWO DEATHS FROM THE FEVER WEDNESDAY. MRS. ARBONA'S ILLNESS.

Following is the official summary of the yellow fever situation up to last night:

New cases	8
Total to date	505
Deaths yesterday	2
Total deaths to date	70
Cases discharged	350
Cases under treatment	85

Yesterday's report again showed a slight improvement in the fever situation, and there is no doubt that the backbone of the epidemic has now been broken. There were only eight new cases and two deaths, and no new points of infection were discovered.

The new cases are:
T. Mattiesen, Fisherville.
Charlie, Moyer, 316 E. Intendencia.
C. D. Hase, 431 E. Zarragossa.
Mrs. Lila Luton, 409 Guillemarde.
Mrs. Gunn, 319 E. Gregory.
Bessie Lewis, Corner Zarragossa and Barcelona.
Mrs. C. F. Shaw, Big Bayou.
Mrs. Stearns, 313 North Alcaniz.

The Deaths.

The deaths were:
Mrs. Gunn, 319 E. Gregory.
Mrs. Stearns, 313 N. Alcaniz.

Camp Murray to Be Closed.

Dr. Porter yesterday issued an official notification that Camp Murray, the detention camp, will be closed on October 31, in accordance with orders previously issued by Surgeon General Wyman. The closing of the detention camp shows that the officials believe the fever is now practically done for.

Dr. Andrade Leaves To-day.

Another evidence of the wind-up of the fever will be found in the fact that Dr. Edw. Andrade, bacteriologist of the state board of health, who came here several weeks ago, from Jacksonville, to assist the physicians in their diagnostic work, leaves this morning for his home. Dr. Andrade has been of great assistance in the work with which the physicians have had to deal since the fever was discovered in Pensacola, and he has in addition made many friends who will regret to see him leave. By his assistance it was possible to diagnose fever cases at once and to determine what kind of fever existed. A notable example of the value of a bacteriologist to the state board of health may be mentioned in the Milton case. The people there discovered what they feared was a case of yellow fever, and a panic was imminent, but by a bacteriological examination it was found that the case was a different kind of fever and their fears were immediately allayed.

Mrs. Arbona's Case.

In the report of the new cases for Tuesday, as told in yesterday's paper, the name of Mrs. Eugene Arbona appeared. The public in general will greatly regret Mrs. Arbona's illness and there will be a general interest in her speedy recovery. Since the fever commenced she has devoted nearly all of her time to nursing, though she has in no instance accepted pay for it, and many persons owe their recovery from the disease to her skill and unremitting attention.

Mrs. Gunn's Funeral.

The funeral of Mrs. Gunn, who expired yesterday, will occur this afternoon at 3 o'clock. The services will be conducted at Pou's undertaking parlors
