GERST BEER

STANDS FOR Nourishment FIRST
Refreshment SECOND
Temperance THIRD

The heavy percentage of malt nourishes; the hops and carbonic acid refresh you, and the small amount of alcohol (3 1-2 per cent.) makes it in effect, a temperance food-drink.

Nothing could be better for you. It is a vegetable tonic, declared by the celebrated Woleschoot to be "as nutritious as fruit."

DRINK IT AT MEALTIME, AND AT ALL RESORTS

Quaint and Curious Things in Florida

An Editorial Relic.

Great interest is manifested in a skull found in Florida. It is described as being small and deformed, similarly to skulls of Flathead Indians. There is no need for further speculation. It is the top bone of a Florida editor who starved to death from crediting people on subscription. Nothing archeologic or prehistoric about it at all. There will be a larger supply as fast as the possessors die off.—Tampa Times.

"Buckshot" on Mosquitoes.

Captain "Buckshot" Williams of the Homosassa run, is getting off a new one on that place. He said: "You know we had a few mosquitoes down there, but something has got into their heads and they are disappearing in droves. They are literally all gone, and now doors are open and mosquito bars are all tucked away." It is the most wonderful thing that has ever transpired at Homosassa and it is the burden of everyone's talk.—Ocala Star.

A Remarkable Rat.

For some time past there has been a rat causing a great deal of excitement and amusement on Palmetto avenue by walking the telephone wire. The rat is a very large one and sometimes has its baby rat with it. It starts somewhere behind Jim Cowan's house and walks the wire to the Sirrine House, a distance of 40 or 50 yards, carrying its tail straight in the air to balance it, and sometimes stops and looks to see if its little one is making it safely. The baby rat, not so well "on to his job," does not raise his tail, but gets there just the same. They say the rats start promptly at 7 o'clock in the evening on their journey, and any one can see them if they will take the trouble to watch.—Sanford Chronicle.

Sport at Ft. Lauderdale.

Mr. J. W. Stranhan of Fort Lauderdale, who is in the city today, tells of a novel sport which is being indulged and enpoyed there by Capt. Hancock and Tommie Tiger, a Seminole Indian. Several days ago the men captured a very large loggerhead turtle. About it they fastened a harness. To the harness they tied the painter of a canoe. To each of the front flippers ropes rein fashion, are rigged and the monster put in the water. It swims rapidly and tows the canoe about with ease. By pulling on the ropes attached to the flippers the turtle is steered about much the same as a horse. Yesterday Mr. Turtle took a notion he would give the occupants of the canoe a sea ride and headed out the inlet unmindful of all attempts to guide it and according to the informant an anchor had to be put out to bring it to a check. After numerous attempts it was induced to go back inside the inlet to more calm waters and the pleasure of the day was brought to a close. Mr. Stranahan declares that quite a sum has already been offered for his turtleship, but he is not for sale.—Miami Metropolis.

* * *

An Alligator Story.

Mr. Will Prevatt, a younger brother of the late J. T. Prevatt, while riding through the woods near Mims, on horse back, a few days ago, started to cross a stream of water, but he had not gone far when he saw a large alligator coming for him and only about ten feet away. He at once reached in his saddlebags for his revolver, but "Mr. 'Gator" was too quick for him, for before he could think the monster came at the horse and fastened his massive jaws upon its shoulder, and as the horse made a jump backwards for his protection, the alligator took the flesh with him. The horse was pretty badly hurt, but is getting along very well. Mr. Prevatt succeeded in killed his 'gatorship before he left the spot.—Titusville Advocate.

Drowning Postponed.

Some boys who had a rattlesnake in a box with a wire netting top decided that they would kill the snake by drowning; so they weighted the box with rocks and let it down into the river. After letting the snake drown an hour and a half they hauled up the box and found the snake not only alive but so mad he was nothing but a hiss and rattles. The drowning is postponed for the time being and probably some other scheme will be tried to end his snakeship's life.—Cocoa and Rockledge News.

ABRAHAM LINCOLN.

was a man, who against all odds, attained the highest honor a man could get in the United States. Ballard's Horehound Syrup has attained a place never equalled by any other like remedy. It is a sure cure for Coughs, Colds, Bronchitis, Influenza and all Pulmonary diseases. Every mother should keep supplied with this wonderful cough medicine. Sold by all druggists.

SUPPLY ICE FOR DeFUNIAK

Until our ice house, which was destroyed by fire at DeFuniak Friday, July 6, can be rebuilt, we will supply ice to DeFuniak and adjoining places daily by express.

PENSACOLA ICE DELIVERY CO.

CONTRACT FOR SEWERS NOW SIGNED

When It Secures Ratification of Council Work Can Be Commenced.

The sewer contract was signed up yesterday by Chairman L. Hilton Green of the bond trustees and R. K. Storrie, the successful bidder for the contract. Mr. Storrie himself was not here, but his representative with power of attorney J. Currie acted for him. The contract will now go to the council for the latter's approval and when that has been given, the contractor, will probably be directed to commence work at once.

The contract calls for a completion of the system in 350 working days from the time the contractor receives notice from the city engineer to begin work. When this system is completed Pensacola ought to be and will be the healthiest city in the union.

SUMMARY OF THE WEATHER

Yesterday's maximum temperature was only 89 degrees according to the official records at the local weather office, but those who were working in the sun or in exposed places during the middle of the day had an idea that it was something over 100. The maximum occurred at 11:40 a. m., and the minimum of 76 degrees at 6 a. m. On the same date last year the maximum was 83 degrees and the minimum 69 degrees with a rainfall of .84 of an inch. Observer Reed in his summary yesterday of weather conditions, said:

"Pressure remains high from the Rocky Mountains to the Atlantic.

"Local showers and thunderstorms have continued in Texas and in the middle and South Atlantic districts; elsewhere the weather has remained generally fair.

"Temperatures were highest Friday in the middle and northern Plateau districts, 100 degrees being reported from Winnemucca, Nev.

"Conditions are favorable for partly cloudy weather in this section tonight, showers Sunday, with light to fresh north to northeast winds."

D'ALEMBERTE'S PHARMACY PREPARING NURSE'S DIRECTORY

D'Alemberte's Pharmacy is preparing a nurse's directory, which ought to be of great convenience to physicians and people who require the services of a trained nurse. It is the intention to correct the directory every week, so that it will always be in date.

Mr. D'Alemberte has also installed an extension telephone at his prescription counter which will be a great convenience at the pharmacy.

SKIN DISEASES

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

THE ITCHING WAS ALMOST UNBEARABLE.

Dear Sirs—My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs to do so.

Escondido, Cal. L. MARNO.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In ***TETTER*** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. ***ACNE*** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while ***PSORIASIS,*** a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is ***SALT RHEUM.*** It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

SSS

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either. ***THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.***

ROSINE, MISS.

Special to The Journal.

Rosine, Miss, July 7.—Quite a crowd of Rosine young people attended the picnic at Brooklyn on the Fourth and report a very pleasant day.

The many friends of Mrs. Nina Kimmer are pleased to learn that she is improving.

Messrs. E. Johnson and E. O. Wardelle spent the Fourth in New Orleans.

Mrs. Dr. McGowan, of Pearlington, Miss., and two little sons, are visiting her sister, Mrs. W. W. McGee.

Mrs. J. T. Wilder left Tuesday night for her home in Alabama, being called there by the illness of her mother.

Mr. and Mrs. H. Nall and son, Clarence, and Mr. and Mrs. W. F. Mudge and two little sons enjoyed the Fourth at a fish fry on the creek. A refreshing lunch was spread and the day spent in fishing and bathing.

Mrs. E. C. Lee, of Castleberry, Ala., who has been visiting her brother, W. F. Mudge, has returned to her home, to the regret of her many freinds here.

We are glad to see Master Robert Carruth out again, after a short illness.

Miss Daisy Richard, of Ralston, Miss., visited her sister, Mrs. W. W. McGee, last week.

Quite a wreck occurred in Rosine Thursday morning. The local freight was wrecked on the trestle seven cars being badly damaged. Fortunately no one was killed or injured.

Mr. and Mrs. J. A. Shelly and family left this week to visit relatives in north Mississippi.

The Creek Lumber Company is doing good business now. Some fine logs are being brought in.

Mrs. Chas. Carruth spent one day last week in Hattiesburg.

ALL THE WORLD.

knows that Bllard's Snow Liniment has no superior for Rheumatism, Stiff Joints, Cuts, Sprains, Lumbago and all pains. Buy it, try it and you will always use it. Any body who has used Ballard's Snow Liniment is a living proof of what it does. All we ask of you is to get a trial bottle.

Price 25c, 50c and $1.00

NOTICE.

My lease having expired in the Bear building and the place having been rented to another party, I am compelled to suspend business until July 15, when I will be in the new Brent building, where I will operate a new and up-to-date shaving parlor. The shop will be known as the "Marble Hall Shaving Parlor," and I will be pleased to meet all of my patrons and the generous public who has given me their patronage for the past 15 years in my old stand.

12 and 14 West Intendencia Street.

TO SUM IT ALL UP

American Queen embodies all the good points found in the most excellent beer. They consist, first, of the best imported Hops; and Malt from the finest malt growing regions of the world.

Both are prepared for use through processes insuring absolute cleanliness. No air ever touches the wort (not even "filtered" air), making bacili infection impossible in

American Queen

The Yeast used is the very finest. The aging lasts for months and months, until the beer is ripe beyond possibility of biliousness, and as a final precaution, every bottle is sterilized and pastuerized after being sealed.

American Queen is a woman's beer, a child's beer and a man's beer. It is wholesome, beneficial and health-compelling; best for the home, for outings, or on draught.

Call for it wherever you drink beer and don't be imposed upon through substitution.
