Poorman & Miller. He was examined before Justice Leidy on Wednesday and bound over, in the sum of $500, in default of which he was taken to jail.

Products of Seneca County.—The following is a statement of the agricultural products of Seneca County for the year 1858:

	Acres.		
Wheat	30,681	483,706	bu.
Rye	909	11,913	"
Barley	1,963	28,095	"
Buckwheat	1,309	15,645	"
Corn	22,036	483,223	"
Oats	12,319	220,578	"
Potatoes	1075	64,503	"
Grass	22,150	30,691	tons.

No Rain Yet!—The Drouth is beginning to be very seriously felt in this community.—We have had no rain of any account for four weeks and this, with a torrid sun pouring down upon us all the while, has completely dried us out. Corn grows but little and is parched and withered. The same may be said of potatoes and garden vegetables, while the cisterns and wells are giving out, all over the city, and the cry is "water! water!!"

Seneca County Fair.—The new Floral Hall is completed and ready for contributions from fairy hands and the beautiful in Nature and Art. It presents a fine appearance and will be quite a feature at the next Fair, which comes off on Wednesday, Thursday and Friday, the 28th, 29th and 30th of Sept. The Board are now engaged in distributing the big posters, containing the Premium List, Rules and Regulations, and are making other active preparations. It only remains for the people to do their part, by beginning in time, that this Fair may be the best ever held in the county.

The Duelists, of whom we made mention last week, are still alive and kicking, the pistols having been loaded with nothing but "villainous gunpowder" and paper balls, though this was kept secret from one of the parties by the seconds. The wound Hoy received of course was feigned. Kelley, the one of "murderous intent," on the morning of the affray, thinking he had wounded his antagonist and hearing vague rumors of arrest and "Judge Lynch," "cut stick" for parts unknown and, when last seen, was making good time for Canada. Hoy has been arrested and held to appear, not for the duel, but for committing an assault previously upon a fellow-boarder, with a pitcher, by way of getting his hand in and his "pheelins" worked up.

Cemetery Association.—It is a burning shame and stigma upon the fair fame of our city, that we have no decent place for interring the dead. The old burying ground is nearly full of graves and illy adapted to the purpose for which it has been used; and, besides, it is now rendered almost inaccessible by the demolition of the bridge leading to it. Will not some of our influential and public-spirited citizens take the matter in hand?—There are, in the vicinity of the city, several beautiful cemetery sites, that may be secured. The heirs of Thos. Coe, deceased, offer for sale, on reasonable terms, about 30 acres, lying south-east of town and adjoining the Coe road. This is said to be a most desirable location—about ten acres are cleared and the balance is in a state of nature, beautifully timbered, rolling and sandy. This matter should not be procrastinated and we hope immediate steps will be taken to secure and lay out a suitable piece of ground.

Wheat Drills.—As the time for putting in the next crop of wheat is near at hand, it becomes every farmer to look about and consider upon the surest and best mode for depositing his seed with "mother earth," in order to induce her to return, in a tenfold ratio, the goods entrusted to her care; and to accomplish this no farmer will dispute that the Drill is the right way; as it is a fact, generally known, that drilled wheat requires at least six times less seed and will yield that proportion more than broad-cast sowing, and a farmer, sowing from 20 to 50 acres, will more than be paid for his drill in one season. The next question that arises is, where shall we get our Drills? We say, at home—patronize your home institutions, when you can save money by it.

SMITH, BARNES & Co., of this place are manufacturing a very superior Drill, for drilling Wheat, Rye, Oats, Barley, Buckwheat, Corn or any kind of grain native to our climate, [illegible] to each Drill—for the small sum of $55, while those [illegible] from a distance and sold by agents are sold as high as $70 and $80, and are in no respect better than the Drills above offered at $55.—Every farmer, who buys these Drills, from a distance, only pays 15 or 20 dollars simply for the support of these agents, who sell and for freight to bring the Drill to this place. Farmers should look to their interests, and examine these Drills before making their purchases, as they have them on hand for examination, at all times at their Foundry and Machine Shop, South end Main Street, Tiffin Ohio.

REPUBLIC NEWS.

REPUBLIC, July 24th, 1859.

MR. EDITOR:—As it has been a long time since I have seen any communication from our town, I have come to the "pleasant" conclusion that I would write a few lines, to keep you posted about our affairs.

We have been making some grand improvements in our "City," which greatly enhance its beauty. AARON has been getting "THUNDER POLES" on the Academy; SIMEONS has had his STORE PAINTED; MILLER has a new sign over his CABINET SHOP and GREGORY & Co. have a new awning over their grocery. Now, Mr. Editor, don't you think we are improving?

Our citizens were thrown into a great excitement last week by the DEATH of a COLORED FEMALE, supposed to have died of STARVATION. She was found by the roadside, near the graveyard bridge.

If such a death had occurred on the wild prairies of Kansas, far from any human habitation, it would not have been surprising, but in a civilized country, among a Christian people, IT IS HORRIBLE. PETER.

M'Alister & Cowles have removed their Stove and Tin store to their new room, immediately south of Saylor's.

All About Tiffin.—A correspondent of the MAC-A-CHEEK (O.) PRESS, writing from this place, says:

The population is supposed to be about 7,000, and we have no cause to doubt it. Its surrounding country is beautiful, as well as fertile. The farmers raise from twenty-five to thirty bushels to the acre, and other products in the same ratio. There is quite a number of fine buildings that adorn the city. The Shawhan House, Shawhan Block, Nos. 1. and 2, Tomb's Block, Gross Block, Lesser's Block, Davis House, with many others, present a fine appearance. The Methodist Episcopal Church is also a fine structure. Heidelberg College is a large, commodious building, and had it been rightly used in the beginning, would have proved quite an ornament to the place. All honor is due Dr. Koiffer, the President, for his untiring efforts to bring it out. The Union School building is a noble structure.—We have not seen its equal outside of Cincinnati, in either college or university, for mammoth proportions, yet costly finish. Wemight go on and speak of the Tiffin & Fort Wayne Railroad, the Wire Bridge, LUNATIC ASYLUM, and many other things of interest in this place, but at some future time we hope to speak more at length.

What the writer mistook for a "Lunatic Asylum" we know not, unless it was the ADVERTISER office.

NEIGHBORING COUNTY NEWS.

CRAWFORD.

The new jail in Bucyrus is rapidly approaching completion. The JOURNAL says, in five weeks it will be entirely finished and ready for the reception of guests.

A new bridge is to be built over the Sandusky at Bucyrus. The contract has been let to John H. Junkins of Upper Sandusky.

FAYETTE THORNTON, for several years Post Master at Benton, has resigned the office and D. TUTTLE, Esq., of that place, has been appointed in his stead.

MARION.

ECONOMIZING.—The Postmaster General has cut down the mail route between Delaware and Bucyrus from a tri-weekly to a semi-weekly. He has also taken off entirely the "through" mail on the route from Cleveland to Indianapolis VIA, the B. & I. Railroad line. These changes are made in order to economize the means of the Department, which is rendered necessary by the refusal of the last Locofoco Congress to appropriate the means to keep up the service to the old point. Hence the people have to suffer great inconvenience because the Locofocos failed to do their duty. Let the people hold the right ones responsible.—REPUBLICAN.

SANDUSKY.

Workmen have again commenced laying track on the Fremont & Indiana Railroad, between Fostoria and Findlay. During the past week, the company have received one locomotive, eight freight, two passenger cars and one baggage car. The passenger cars are from Wason's Car Manufactory, Springfield, Massachusetts, and in point of finish and elegant appearance, are unsurpassed by any in the west.—DEMOCRAT.

LUCAS.

The Toledo Times and Herald have consolidated, and under the double name appears a democratic paper, supporting the principles of the Cincinnati Platform of 1856, and Stephen A. Douglas for the Presidency. H. T. Smith is publisher.

HANCOCK.

A violent thunder storm, says the JEFFERSONIAN, passed over Findlay on Monday evening of last week. Several houses were struck by lightning but no one was hurt.

S. A. Spear, Esq., editor of the Findlay JEFFERSONIAN, has been appointed Superintendent of the Union Schools at that place. The COURIER takes exceptions to the appointment. It thinks a political editor the wrong person to have control of young minds.

Council Proceedings.

COUNCIL CHAMBER, Tiffin, Saturday, July 23, 1859.

Council met and was called to order by the President.

Members present, Hovey, Heming, Wagner and Watson.

The Clerk then read the minutes of last meeting, which on motion were approved as read.

A number of accounts were then presented and read by the Clerk, amounting in all to $434.34, for services of supervisors and for hauling gravel and working the streets &c. in the 1st and 2d Ward.

When on motion said accounts were allowed and the Clerk instructed to draw orders on the proper funds for the several amounts of same.

The Petition of Joel Hull, requesting the permission of Council to transfer his interest in Meat Stall No. 1 in Market House to John Hensley, was then read, by the Clerk, and on motion of Mr. Watson, permission was given to said Hull to make such transfer as requested.

The Clerk reported that the Street Commissioner had returned to him, under the order of Council made at its meeting on the 9th inst., an estimate of masonry to be paid for by the City, viz: 28 3-5 perches amounting at $1.50 per perch to $42.90 and that he had thereupon issued an order, on 1st Ward fund for that amount to N. Cornaly in full payment of same.

On motion the action of the Clerk in the premises was approved by Council.

On motion Council then adjourned to meet Saturday, July 30, 1859 at 8 o'clock P. M.

Sad, but True.—How often has the church bell tolled forth its solemn notes, and the wailings of kindred, and the lamentations of friends arisen, as the body of some loved one has been borne to a premature grave, who died through ignorance of their disease by those who attended them, or the adulteration of deleterious and ineffectual remedies. We write this in all soberness and sincerity, and in thus alluding to the dead would try and benefit the living. What are some of the most fatal messengers that beckon to the tomb? We answer, Scrofula, Erysipelas, and similar diseases. Now, although Providence has ordained that such diseases shall exist, it has also provided a remedy, distilled from the herb of the field, and its name is Kennedy's Medical Discovery. Isn't it, reject it not.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

Winchester's Genuine Preparation of the

HYPOPHOSPHITES

OF LIME AND OF SODA.

The Great Remedy for Consumption, Scrofula, Bronchitis, Asthma, Debility, Dyspepsia Nervous Diseases, Chlorosis, and the Complaints of Women, Loss of Energy, Wasting, &c., &c., &c.

This extraordinary CHEMICAL PREPARATION of PHOSPHORUS, (the RESTORATIVE and CURATIVE properties of which were discovered by Dr. J. F. Churchill, of Paris,) is performing wonderful cures throughout Europe and the United States, having already attained, since its introduction, a remarkable popularity, both with the medical profession and the public. It is a purely SCIENTIFIC PREPARATION, acting with ABSOLUTE certainty, and of INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The

Cure of Consumption.

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, in all cases, by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death. Hereditary predisposition seems in no way to counteract the effect of the HYPOPHOSPHITES; patients in whom it was most strongly marked recovering as rapidly as others.

This Remedy has not only a curative effect; but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPEMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

It is impossible, within the limits of an ordinary advertisement, to furnish the EVIDENCE, OVERWHELMING PROOFS in my possession in regard to the success of this new and SPECIFIC TREATMENT for one of the most terrible scourges of the human race. But in order to satisfy the numerous inquirers who are daily addressing me for information, I have just published a translation of

Dr. Churchill's Work on Consumption.

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases, and Letters, Documents, Testimonials, &c., which, together with a Circular, will be sent on receipt of TWELVE CENTS in stamps to defray the expenses of postage.

Those, therefore, who wish RELIABLE INFORMATION pertaining to deciding whether to try this extraordinary remedy, should lose no time in writing for Dr. Churchill's Treatise. Thousands would be restored to health by placing themselves under this treatment during the Summer, which is the most favorable season; but, when, if they delay, may get down to premature graves.

Price of WINCHESTER'S GENUINE PREPARATION, (of the HYPOPHOSPHITES of LIME and SODA (in Syrup,) $7 per bottle; three bottles for $5. Single bottle, (a concentrated solution), $1 each. THE DRY SALTS furnished to the Profession. Each bottle has full directions for use, with my fac-simile signature. USE NO OTHER.
