Mr. Dell Hatch, of the Lorena neighborhood, was in the city yesterday. He speaks highly of the cotton crop but reports a Panhandle fever in his section, which is likely as soon as the crops are gathered, to carray off a large number of estimable citizens and first class farmers to that section. There was a considerable loss to the farming community in the southern part of the county last fall, by a hegira to the Panhandle, there is likely to be a much larger one this fall.

Appropos of the weather and prognostication, a good story was told last night on the street cars in which Mr. Strauss the weather prophet of Waco, was the butt of the joke. In the spring, one fine evening after a rain when the sky was as clear as a bell and all nature as smooth as the back of a kitten; while Mr. Strauss was going home, some one asked him his opinion of the prospects for fair weather. Mr. Strauss loooked about him at the sky, looked sagaciously at the new moon sinking in the west, and when he had got his weather apparatus adjusted, gravely and slowly predicted that there would be no more rain for thirteen weeks. The gentleman who asked for the prediction went home satisfied and made preparations for garden work the next day. At twelve o'clock at night he woke up to find the rain coming down in such torrents that he was obliged to get up and put his calves in the barn to keep them from drowning.

That Damage Suit.

The city is sued for damages. It seems there is a short space on South Ninth street where there are three or four gullies running diagonally across the street, which the city has neglected to fix until the Curiosity Shop, loaded with a set of furniture, a gasoline stove, a large mirror and a lot of dishes, ran in the ditch, tipped over, broke everything generally, hence the damage suit.

Oranfill and the Advance.

While that lively little sheet, the Advance, has been removed to Dallas, the editor is still here in Waco and the Waco Curiosity Shop proposes to prohibit high prices on stoves and furniture and give notice now that they will have a full stock of both, and will make it hotter this fall and winter than it was during the time that hell was full of preachers.

A large majority of the voters of Waco cast their ballot for the Waco Curiosity Shop.

The attention of the city council is called to South Ninth street, between Dutton and Cleveland streets. Their never has been any work done there, and it is almost impossible. The Curiosity Shop is in for a damage suit.

Many ladies in Waco are now using stoves that need no pipe, no flue that makes no smoke, dirt or soot, that burns neither wood nor coal. This curiosity can be seen at the Curiosity Shop.

Prunus Pissardi

This is what the New Orleans Times-Democrat says of this beautiful and ornamental fruit tree the very latest fruit from Japan:

PURPLE-LEAVED PLUM.

N. O. Times-Democrat, August 20.

The purple-leaved plum (prunus pissardi) succeeds well thus far both in Louisiana and Mississppi, promising to become very valuable either as a fruit-bearing or ornamental plant. Silas Miller, the well-known horticulturist, in writing to the Rural World regarding the quality of the fruit, says:

The fruit is medium size, say one-inch and a quarter in diameter, round as a ball; dark red, almost black. Quality good and said to be as near curculio proof as any plum can be. Both the English and French consider the tree one of the most valuable ornamental trees received for years, in which our American horticulturists agree. This, in addition to the good qualities of the fruit, will make it a favorite.

I was the first to introduce this tree in Central Texas. I will take orders for them for fall delivery.
