OUR CITY GOVERNMENT.

The Regular Session Held Yesterday Afternoon.

Petitions and Memorials,—Grant the Special Order of the Day.—The Proprietors of the S. A. and A. P. R. R.

At a regular session of the City Council held yesterday afternoon, the following aldermen were present: Aldermen Gallagher, French, Belknap, Conner, Schlueter, Noyes, Pauly, Lockwood, Ingemer and Hambleton. After the Mayor had called the Council to order, and the minutes of the last meeting had been read and approved, the following petitions and memorials were read:

From citizens for the opening of a street between Garden and Press. Referred to streets and bridges and the city engineer.

Applications from Mr. Donker for a permit to erect a beer and lunch stand near the entrance of San Pedro Park, on San Pedro avenue, during the Volksfest, on city property. Hambleton moved that it be received and filed, was seconded. Proposition from DeReynal & Baker for granite (as per sample in the mayor's office), to be adopted as curbing of Class A, 6 inches by 2 feet, at the rate of 57 cents per lineal foot. Referred to Committee on public improvements and city engineer.

Petition from Henry Linburger to remove his market stall from Austin street to the corner of Nolan and Chestnut streets. Referred to market committee.

Proposition by F. Jermy to improve the west side of San Pedro Park, according to plans submitted, the city to pay him a salary of $65 per month and a great lion police authority. Referred to Committee on parks, and finance committee.

The special order of the day on the gas supply question was then brought before the Council.

Lockwood, as chairman of the committee, asked leave to read a report of the City Engineer in regard to the furnishing of gravel by the Aransas Pass railroad company.

French moved that the committee be allowed to withdraw the report.

It was not withdrawn, and the committee was allowed to read it, the City Engineer asserting in the report that he had examined the gravel on the land of the Aransas Pass railroad, but he did not consider it suitable for use on roadways.

The committee therefore recommended that the proposition of the railroad be not accepted. The report was adopted.

A proposition was then submitted by Jermy, which he received from Mr. H. Bernhardt, agent for land, the property of the Hazard Powder (Gun Rot), located on Powder House hill, adjoining, with the exception of 100 feet on Commerce street, to sell all the balance, the land fronting 424 feet by the house in the cemetery, running along Commerce street southward 417 feet. This piece of land, containing nearly 21 acres, which could be purchased at $300 an acre.

Alderman Pauly said this land had no gravel then any other piece of land within as close proximity with places and having sounded the land at different points, he was satisfied there was no less than 7000 cart loads on that hill, estimating a cart load at 15 cubic yards, even at 25c per cart load, it would scarcely pay the price.

The matter was referred to the Committee on Streets and Bridges in conjunction with the City Engineer with power to select two pits, one for the north and another for the east side of the city.

The Finance committee reported that the statements of the City Treasurer, City Attorney and City Weigher had been examined and found correct, and recommended that they be received and filed on file.

The Committee on Fire and Fire Limits recommended that permits be granted to C. Upson and Julius Wagner to erect buildings. Adopted.

The Police committee reported that the monthly account of the City Marshal and City Poundmaster had been examined and found correct. Filed.

On the report of Gas and Water committee, 10 new hydrants at various points on Grayson street, were accepted by the city.

The following ordinance was read a second time:

"Be it ordained by the City Council of the City of San Antonio:

"Section 1. That it shall be unlawful for any person to run any railroad car on the main track of any railroad within the limits of the city of San Antonio, unless the said railroad car be attached to and attended by a locomotive engine.

"Sec. 2. Any person found guilty of a violation of the provisions of this ordinance shall, upon conviction before the Mayor, be fined in any sum not less than five, and not exceeding two hundred dollars.

"Attest: E. P. CLAYDON, City Clerk."

Was finally placed on its third reading and the passage of the ordinance was

Business being in order, Gallagher moved that the City Attorney be instructed to draft an ordinance prohibiting the exhibition of any picture of a lascivious or suggestive character. Referred to Committee on Petitions, Ordinances and the City Attorney.

Alderman Gallagher: That the Street Commissioner be requested to place building gutters on Montevery, San Saba, Cenaro, Cocchi and San Saba streets. Adopted.

Alderman Pauly: That the International and Northern railroad be notified to place a suitable crossing over the street at the intersection of Lamphrane street. Adopted.

The council then adjourned.
