Thursday, December 24, 1885

THE LIGHT wishes all its readers a Merry Christmas, and many returns of the day.

WHO CAN'S this be elegant weather for a sail on Aransas Bay for fishing and hunting? A year hence it will be there where the brain-tired man American will recreate.

THE Waco Day says: "Several carriers and other employees of the Chicago postoffice have been discharged for 'talking politics.' This is a free country, with certain limitations."

To a San Antonian it sounds like a fable to be talking about sleigh rides and ice skating matches in these days of the holiday week. A linen duster and a palm leaf fan would be more appropriate here.

THERE will be no paper issued from the LIGHT office to-morrow, Christmas. A newspaper has but a few holidays, and they are not always observed, but Christmas is one in which dull care will be laid upon the shelf.

CAN'T there be some move made by the public spirited men of San Antonio for the observance of an arbor day? Nothing would bear better fruit and furnish more real enjoyment to the masses. Who moves?

ONE way to prevent agitation is to move to adjourn. This is the tactics employed in the City Council to shut off water-works discussion, and it also shows the people that the Brackenridge monopoly has a very good footing in the lobby.

WITH the saving in of mines and strikes, the Pennsylvania coal regions are having a disastrous time of it. Would it not be pleasanter to put capital into stock in Texas and have paper bullets fired at you by the Governor than to invest in a coal mining enterprise?

CYNTHIA PARKER'S son, Quanna, Chief of the Comanches, and Yellowbear, his father-in-law, were sentenced in Fort Worth, and the latter died. At last the excessive escape of gas at the Gazette and Mail, has been attended with fatal results. Lo, the poor Indian, could not stand it.

THE splendid weather of the past three weeks has in some respects been unusual, but if the people at the East and North could realize that overcoats were unnecessary, and the air was as balmy as early spring time San Antonio would be overflowing with health seekers. A persistent advertising of these advantages will bring them in time.

THE holiday edition of the LIGHT was appreciated by the local public as a paper that was calculated to benefit San Antonio, by reason of the excellent and practical reading matter with which it was filled. San Antonio is a health resort, and when it is properly advertised as such it will reap the benefits in increased numbers of visitors and a steady addition to its population.

SOME wise philosopher utters the following on the subject of advertising: "A stranger visiting a new town is influenced invariably or the reverse by the appearance of its newspaper. The first and most important consideration is its business prospects; next its educational advantages and its sanitary conditions. If the newspaper is filled with live advertisements and the business of the town well represented he concludes that he has come to the right place, and is very apt to settle there. Penny-wise and pound-foolish are the merchants who do not patronize liberally their own paper. Who are the successful business men in this country? They are men who are not afraid to invest in printers' ink. No man will be successful in business unless he advertises freely. Some men are so small that they cannot pay an advertising bill without great reluctance, and such men never occupy a very prominent position as business men. It is the broad and liberal man who succeeds in life."

CANON FARRAR has an article on the Church in America in the January number of the North American Review.

THE Fort Worth Gazette don't want to kick Randall out of the party altogether, only "slip his claws and blunt his teeth." Good advice. The Democratic party may yet badly need sat only Randall, but Cleveland, to whom many but headed Texas politicians have read the riot act and bullied between out of the wigwam.

WHY not have a free-for-all race for Governor at the next election, doing away with nominations. Thus, all the newspapers could champion their favorites, and the people could choose from the great men of the State. There is no doubt that thus the will of the majority would be more fully expressed than in any other way. The successful man would be a Democrat, but might not be a machine politician.

WHY can't San Antonio have a Mardi-Gras celebration the coming year? Not too late to move yet. Something should be done to redeem the good name of the city which came near suffering a total wreck in the Yokelson farce. That a creditable celebration could be given here there is not the slightest doubt. All it needs is the right move at the head of it. It is over eight years since an attempt has been made in this city to celebrate Mardi-Gras.

GENERAL BEAUREGARD will give a history of the Shiloh Campaign in the January number of the North American Review. He claims that General Algernon Sydney Johnson acted only as a corps commander at Shiloh. General Beauregard emphatically asserts (contrary to the common belief) that he was the sole commander on both days, and, without quoting them, controverts the reports of Grant and Sherman as to the nation's forces being taken by surprise.

AUGUSTUS MACRAE, by his defense of the people in the water-works discussion, has truly earned the good will and high esteem of the laboring people and tax-payers of the city. The administration may indirectly attempt to continue that monopoly and its drain upon the pockets of the people, but the time is rapidly approaching when it will become one of the live issues, and men who are in favor of the city owning the water-works will be elected to fill the offices. The present obstructive policy in the Council will not continue always.

IT MAY be quixotic, but the general idea of a peace officer, is that he should be entirely free from all alliances that would tend to exhaust the sympathies in behalf of a sect, body or organization of men who could possibly be arrayed against constituted authorities, or interfere with individual rights. There is no objection to organizations either of labor or capital, because there is no cruer axiom than that in unity there is strength. The Knights of Labor is a good organization, although it may have made mistakes, but that labor has as much right to organize as has capital, there can be no question. It should, and probably will yet, be an organization of true laborers, and not under the alleged control of some who never knew an honest day's labor, and who are more interested in leading the organization into excesses, thus to guide it into a safe and sound policy. But with all its congruous elements of which it is composed, it seems that the admission of police officers to membership is the culmination. A policeman may be an honest man, and a gentleman, but he is no laborer in the proper sense of the word, while he is a policeman. For instance, a strike should be ordered in this city and the 1000 knights quit work and other men, not members of the organization, should try to take their place, precipitating a conflict in which the police were necessary to preserve the peace, life and property, what would be the action of a policeman Knight of Labor? Would he join his fellow knights, or would he violate his oath and assist the anti-knights, if so ordered? This is a contingency that has arisen in almost every city of the Union. A strike may take place in January, or it may take place in March or in May, and what will be the course of the seven policemen who are said to be members of the Knights of Labor and attend the assemblies of that order in full uniform? Can they "serve God and mammon at the same time?" Is it known and permitted by the police officials that policemen are members of said organization? These questions are propounded to set men to thinking, as they may yet assume important proportions, and it certainly can do no harm for all to be well informed on such questions.

Who Will Furnish the Earnestness?

If Congress went about it earnestly, it might give the country a presidential season like a Christmas gift.—Philadelphia Press.

Sympathy for the Unfortunate.

"I was surprised to see you come out of a saloon with that disreputable old tramp, Colonel. Did you invite him to drink?"

"No, certainly not," replied the Colonel, straightening up; "but I felt sorry for the poor old chap, and when he asked me to take something I hadn't the heart to refuse."

Commercial Terms for Commercial Acts.

"Pork" is the slang word for patronage in New York now. The man who gets an office acquires the "pork" to sulgar patisane. There seems to be a great many around that part of the country, if the pressure upon Governor Hill can be taken as an indication, who are willing "to go to the whole hog."—Baltimore News.

Throw Your Dinner Away.

Perhaps such advice may seem like a suggestion of poor economy. But if your digestive apparatus is out of order you might as well throw your dinner in the street as to eat it; for it will do you no good. To enjoy a square meal, put your stomach in good order and tone up nerves and muscles by the use of Brown's Iron Bitters. Mr. M. L. Drake, the Land, Florida, says: "Brown's Iron Bitters will cure indigestion when physicians fail.

Christmas Hymn.

BY VITA.

Hail to the new born infant,
The blessed Virgin's son,
Who on this ever holy day,
His earthly race begun.

There in a lowly manger,
Among the lowing kine,
Was born the infant Jesus.

And o'er that spot so humble,
The star of Bethlehem shone,
To guide the waiting nations,
To the Lord they would not own.

There the wise men of the East
Found our heaven descended Lord
Laid their treasures at his feet
And as their God adored.

And angels with hosannah,
The birth of Christ proclaim
And peace and good will unto man
Through his all powerful name.

So let us hail our glorious King,
Who comes to set us free
From bonds of satan and of death
Of sin and misery.

A Valuable Medical Treatise.

The author of the celebrated Medical Annual, known as Dr. Bonifay's Almanac, is now ready, and may be obtained free of cost of druggists and general dealers in medicines throughout the United States. We learn that the demand for this work has been so great in every civilized portion of the Western Hemisphere. This Almanac is a regular encyclopedia of all the important news of every year for over one fifth of a century. It continues with the unabated popularity which it has enjoyed for so many years, being a compendium of useful and interesting and matchless light reading, and the information it contains relative to the various diseases treated of by the celebrated author, are alone worth the price of the Almanac, which is given gratuitously away by all druggists in the United States, and will be found entirely accurate. The proprietors of Bonifay's Almanac for 1886 will, in addition to the usual edition of a medical work, also publish, in the early January, the biographies of Thomas A. Hendricks, Joseph E. Brown, Jeff. Davis, etc., for the receipt of a thousand stamps, and have work in case by one two are proved to be genuine and correct in his astonishing productions.

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, accompanied with a dull pain, considerable febrile disturbance, with the bowels sometimes costive or alternating with looseness of the bowels or diarrhoea, followed by itching, scaly eruptions, with violent nervous symptoms, depression of spirits, sleeplessness, etc. A sufferer, the proprietor, producing a very disagreeable tumor, after getting warm a common attendant. Blind, Bleeding, and Itching Piles yield at once to the application of Dr. Bonifay's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, stopping the intense itching, and effecting a permanent cure. Price, $1 per box. Address, the Bonifay Medicine Company, Paris, Ohio, and by Harry L. Fowler, R. Cohn & Co., J. D. Dreyer, J. Clavin.

Save Your Eyes.

It is simply wonderful the reputation Hawley's spectacles and eyeglasses have attained throughout the United States; they are known from the Atlantic to the Pacific, and the reputation is still upon real merit. Testimonials from the most eminent men of the country, and those who have had their sight restored by their aid.

All eyes fitted by Oliver Bros., Jewelers and Opticians, Main Plaza.

Home Testimony

From

George H. Kalteyer

CHEMIST.

SAN ANTONIO, - - TEXAS

SAN ANTONIO, TEX., June 1, 1885.

I purchased in this city a package of Prof. Horsford's Self-Raising Bread Preparation and submitted it to a chemical examination, and find that the same is composed of pure and non-poisonous chemicals.

The idea of Prof. Horsford was indeed a grand one in ameliorating the indigestible tendency of soda, which is always the sad result of all Baking Powders composed of Cream of Tartar and Soda, by the admixture phosphate of lime and soda, the very nutritive value of bread, and the bone-producing elements of nature.

It is certainly the best and most healthy bread-raising preparation ever offered to the public, and every mother that has the health of her children at heart should use no other.

I can only join in the endorsement given by the late celebrated chemist, Prof. Baron V. Liebig, to this preparation in saying: "I consider this invention as one of the most useful gifts which science has made to mankind."
