HOLOCAUST IN A CONVENT

Four Persons Perish and Others Are Badly Injured.

PLAIN TRACES OF INCENDIARISM

St. Agnes' Convent at Sparkhill, N. Y., the Scene of the Terrible Disaster—Loss $100,000.

NYACK, N. Y., Aug. 28.—Four lives were lost by the burning of St. Agnes convent at Sparkhill this morning. Four others jumped from the windows, receiving serious injuries. Two will probably die. The following is a list of the dead: Teresa Murphy; Jane ——, servant, aged 72, burned; Helen Brown, aged 6; Emma Mackin, aged 4, died of fright. The injured are: Sisters Ignatius and Marie, concussion of spine, both badly burned and may die. Sister Agnes will also die. Sister Bertram, concussion of spine; Sister Caroline, arm broken; Sister Sienna, shock; Hannah Shea, inmate, aged 12, broken hip. This fire is the third which has occurred in St. Agnes convent within a short time. Whether or not the earlier fires were incendiary has never been determined, but the fact that last night's fire started in three separate places has convinced the authorities that the circumstances are very suspicious. The loss is $100,000.

BIG STRIKE OF CLOAKMAKERS

Fifteen Hundred Employed by Popkin & Co. Walk Out.

NEW YORK, Aug. 28.—Fifteen hundred cloakmakers employed by A. Popkin & Co., 764 Broadway, have gone on strike because, it was said, Mr. Popkin refused to agree to a new wage schedule. A committee of his employes called on him and told him that they were going to submit a new wage schedule, as it was customary to do every year. Mr. Popkin said in reply that he did not care anything about it. They would probably strike anyhow, and he was prepared for such an emergency. It is said that he finally called the committee back and asked that he be allowed to have time to arrange things with the employes. The committee then declared, however, that the strike should be permitted to go into effect immediately if he did not sign the new scale. This he refused to do without time to consider it, and the cloakmakers left their work.

New Play for Viola Allen

NEW YORK, Aug. 28.—Miss Vilo Allen, who is to play a five weeks' engagement at Powers' theater beginning in September, arrived on the American liner New York this morning. Miss Allen said she went to Florence, Italy, to confer with F. Marion Crawford, the novelist, who is to dramatize for her his forthcoming novel, "In Old Madrid." Mr. Crawford's play will not be produced for another year. Its scene is laid in Spain during the reign of Philip II., and the entire action takes place in four hours. Don Juan of Austria will be one of the characters.

A Trolley Car Collision.

PHILADELPHIA, Pa., Aug. 28.—A head-end collision between two trolley cars occurred today on the Norristown, Chestnut Hill & Roxborough railway, in Plymouth township, Morton county, a few miles to the north of this city. Thirty persons were injured.

THE PUBLIC IMPROVEMENTS

At a meeting of the board of public works held Saturday afternoon, contracts were awarded for the construction of two new sewers. Stirrat & Goetz were awarded the contract for the Post street sewer, their bid being $2,588.40. J. A. Bailey was awarded the contract for the Boren avenue sewer, the bid being $1,369.

Action was not taken on the Thirty-third avenue and Alexander avenue improvement as the estimate of the bidders made the expense very near the limit of expenditure allowed by law. The improvement relates to a right angle made by Alexander and Thirty-third avenues, and it is said to be greatly needed. It is two blocks north of Yesler way, and near the brow of the hill overlooking Leschi park. Bids will be called for again.

BLACKBURN IS IN DANGER

His Support of Goebel May Mean His Own Defeat.

LEXINGTON, Ky., Aug. 28.—The anti-Goebel movement, which culminated here recently in one of the largest conventions of Democrats ever held in Kentucky, continues to gain headway, and it is likely that it will be the means of defeating not only Mr. Goebel for governor, but also Mr. Blackburn for United States senator. If the plan to run candidates for the legislature who are opposed to the election of Blackburn is carried out, it will make the election of Mr. Blackburn very uncertain. The sound-money Democrats, of whom there are no less than 15,000 in the state, will refuse to vote for any of Blackburn's legislative candidates, and the anti-Goebel silver Democrats declare they will also scratch them, so that it would seem that the election of the Blackburn legislature, which has been so confidently promised by the Goebel men, is a matter of great doubt.

By their attacks on corporations, and especially on railroads, they have arrayed a powerful force against them, and from now on the battle will be on in earnest.

The Goebel leaders and the Goebel organs claim that the Lexington convention was organized, controlled and paid for by the Louisville & Nashville railway company, which has been endeavoring to defeat Goebel in his race for governor because he is hostile to that corporation. It is indignantly denied by ex-Gov. Brown and those most prominently connected with the bolting movement. Certain it is that hundreds of delegates attended that convention who would spurn to have ridden to Lexington on a free pass on that occasion. As evidence that he is in no way connected with the Louisville & Nashville, Mr. Brown points to his record as governor, in which it is found that he prevented the Louisville & Nashville from purchasing the Chesapeake & Ohio Southwestern railroad in Kentucky, now the Illinois Central.

AN EXCITING GAME.

The first of a series of games of baseball between the Rainiers and Alphas was played yesterday at Madison park. The score was 3 to 2 in favor the former. The game was exciting from start to finish, and from the sixth to the tenth innings the score was a tie.

KILLED IN AN EXPLOSION

NORFOLK, Va., Aug. 28.&Three of the battery of boilers in the extensive sawmill of Frank Hitch exploded simultaneously this afternoon at Portsmouth and wrought awful havoc. Colored men only were employed in the engine room, and of these Douglas Shearer, fireman, was instantly killed. The skull of Gus Osborn, water tender, was fractured; Preston Williams, engineer, was terribly scalded, and several others received minor injuries. When the explosion occurred an unknown man was standing on one of the boilers which exploded. The upper portion of this boiler rose, Police Officer Elliott, and a fisherman, who name is unknown, who were eye witnesses, say, apparently 1,000 feet in the air, and, falling, described an arc and alighted in Scott's creek, a half mile from the mill. Upon it rested the body of the man who stood on the boiler when it burst. The explosion wrecked the large plant, but fortunately the force of the blast went out over the harbor, and not toward the city behind the mill. The cause of the explosion is unknown.

Icebergs in the Atlantic

ST JOHN'S, N. F., Aug. 28.—A number of fishing vessels that have arrived here within the last few days report immense bodies of ice and bigbergs off the coast, which seriously interfere with the fishing and force the fishers off the banks, sometimes with a loss of gear. The ice floes also interfere greatly with steamer traffic across the Atlantic.

Large Interest Paid.

PLAINFIELD, N. J., Aug. 28.—Forty years ago Henry Augustus Frazee of South avenue loaned to William P. Hedden, a Newark merchant, $3,500, with which to carry on business. Mr. Hedden afterward failed and went west to engage in mining. Mr. Frazee gave up every hope of recovering the money, and had practically forgotten about the affair, when recently he received a call from William E. Robinson, of Toledo, O., who informed him that a few months ago Mr. Hedden had died, and in his will left $15,000 to him because of the old loan.

Chicago's Shaky Bridges

CHICAGO, Aug. 28.—Two bridges over the Chicago river have been ordered closed to traffic, seven others were condemned as dangerous and two more were labeled "very suspicious." These last will be allowed to remain open for some time, unless something happens. Then they will be closed.

UNION PACIFIC HAS O. R. & N

NEW YORK, Aug. 28.—According to reports here, the Oregon Railway & Navigation company preferred stock held by the Northern Pacific, has been transferred to a banking house closely allied with Union Pacific interests. This gives the Union Pacific control of both common and preferred stock of the Oregon Railway & Navigation company.

KENNEDY WILL RESIGN

Frank Kennedy, who for the past two years has occupied the position of police clerk, has announced his intention of resigning. Kennedy was recently promoted from the clerkship to duty on the city detective force. He will travel for a wholesale cigar store.

The Only Place for Them.

"I say," said a friend the other day "you are an old hand at it. I have only just got married, and don't understand much about the business. I should like to know whether a married man has any rights left when he takes unto himself a wife?"

"Rights? Yes, lots. He has a right to pay all the bills——"

"Stop! I mean this. Let me give you an instance. Every box, every chest of drawers and portmanteau, and, in fact, every available receptacle of every description, is stuffed full of my wife's property, and when I want to put away a few collars and cuffs——"

"Hold hard, I know what you are going to say. Listen, young man. If your bedroom were 200 yards long, lined from the door to the ceiling with shelves, and you wanted a place to stow away a couple of shirts, you couldn't find a nook that wasn't full of hairpins, scent bottles, odd gloves, pieces of ribbon, odd feathers and artificial flowers, little bits of tape and buttons galore, with pins and needles thrown in, so just accept the inevitable. Wrap your personal property in an old newspaper parcel and hide it under the bed."

He grinned ironically, but passed on a sadder and wiser man.—London Tid-Bits.

BURGLAR SHOOTS A POLICEMAN

LA SALLE, Ill., Aug. 28.—William McGuire, a prominent Democratic politician and a member of the local police force, is dead at his home in La Salle as the result of wounds inflicted by a burglar last night. Intelligence that the home of I. Guthmann was the scene of a burglary was brought to police headquarters at 8 o'clock, and McGuire responded immediately. As he approached the house several shots were fired from a window, and the officer fell, struck in the abdomen. He died this morning. McGuire made a deposition saying he thought his assailant was J. Robinson, who was arrested in a bumboat on the river at midnight. Two other suspects are also under arrest.

WALLA WALLA BONDS SOLD

WALLA WALLA, Wash., Aug. 28.—The city council considered bids for $350,000 city bonds Saturday. W. J. Hays & Sons, of Cleveland, O., offered $3,464 for $133,000 class A bonds, drawing 4½ per cent, and running 20 years. For class B, or water revenue bonds, they offered to take $117,000, if given a bonus of $872.

E. H. Rollins & Co., Boston, Mass., offered $2,000 for $133,000 class A, drawing 4½ per cent., and $117,000, class A, 5 per cent. They offered to take $100,000 of class B for $2,500 bonus.

Morris & Whitehead, Portland, Or., offered $2,100 for all the $133,000 class A, drawing 4½ per cent., and $127,000 class B, drawing 5 per cent.

After some minor changes had been made in the bid by Mr. Morris and his attorney, it was unanimously accepted.

WILL PROBABLY RETURN

Robert Rogers, age 13, was found asleep in a Seattle & International railroad car yesterday morning by Officer Glasscock. Rogers is out of the reform school on parole. He was placed in the county jail and will probably be returned to that institution.

THE GREAT HORSE ACT

Joe Berris' Marvelous 65 Performing Horses.

The sublime culmination of the art of training is marvelously shown in the equestrian performance executed by 63 thoroughbreds under the guidance of Joe Berris, America's most famous equine educator, appearing with the Walter L. Main circus in this city tomorrow.

The act introduces the finest specimens of American and Arabian thoroughbred horses executing the grandest and greatest performances ever imagined. A positively wonderful display of such downright novelty, out and out originality, unrivaled magnificence and thrilling interest as to blot out forever all previous animal exhibitions. There are rings within rings; platforms upon platforms; in and upon all of which horses perform concurrently and simultaneously; moving in five circles, in opposite directions. This feature alone is said to be worth more than the price of admission, and is but one of the hundred astounding numbers on the fascinating program.

WILL RAISE ANDELANA.

The ship Andelana, which lies at the bottom of Tacoma harbor, has been purchased by Capt. W. F. Walters & Co., of Seattle, who will make an effort to raise her. A daring young diver, H. Vanderlip, has been engaged to work on the wrecked vessel. He is confident that he can reach the vessel, and will make the attempt very shortly.

MARKET QUOTATIONS

Monday morning—The most important changes in the markets today are found in fruits and vegetables, and the arrival of a California boat this morning is likely to cause a further decline. A carload of mixed California products arrived yesterday, causing sweet potatoes to fall to $2.50. Tomatoes are on the market in great abundance at 50c a box, but can be had at almost any price. Crabapples and California Bartlets are also coming in freely. Onions are getting firm and are likely to advance in a few days.

Oats are being bought by jobbers at $25. This was for the first car from Eastern Washington, and on the arrival of others the price is likely to fall again. Barley has steadied and will probably hold at present quotations. Wheat is almost entirely out of the market, and none is coming in.

Fish of every kind is scarce, including salmon, which has recently been quite plentiful. Halibut is virtually out of the market. No fishing craft arrived Saturday or Sunday.

The following prices are being offered to the producer by the local dealers for delivery in round lots on the dock or in the car at Seattle:
