TOOK MONEY AND LEFT TEXT

A religious paper, with a carefully marked biblical text, conveying the information that it is unwise to hoard up riches in this world, was the silent but impressive reminder left behind by an industrious sneak thief who recently operated in an aristocratic lodging house on the first hill, conducted by Mrs. Alice P. Hanson, at 1115 Marion st. Two of the roomers lost a sum of money. About this time a very pious gentleman, who had rented a room for a few days, disappeared and carefully spread out on the bureau was a copy of a religious weekly. Plainly marked to immediately attract the eye, the horrified landlady read the following text:

"Lay not up yourselves treasures on earth, where moth and rust doth corrupt and where thieves break in and steal."

GIBBONS WANTS TWO MILLION.

(By United Press.)

BALTIMORE, Nov. 18.—Cardinal Gibbons, as chancellor of the Catholic University of America, has issued a circular letter relative to the income of the institution. He expressed satisfaction over the result of last year's collections which amounted to $100,000, but points out that in order for the university to become what its name implies, the sum of $2,000,000 at least will be required.

MINING MAN DIES.

James Casey, aged 50, a well known Alaskan operator and heavily interested in mining properties throughout the western states, died yesterday at the Pacific hospital from pneumonia. Mr. Casey is survived by a widow and two sons, Ralph and Roy. No funeral arrangements have been made as yea.

ALASKA CITY IS FIRE SWEPT

FAIRBANKS, Alaska, Nov. 12.—Cleary City was wiped out by fire Saturday, the loss being estimated at $250,000. Only the Eagle block, Grand hotel, Miller company's store and the Arctic Brotherhood hall are left standing. All other business places were burned. Several small shops and residences on the back streets were not consumed by the flames. The fire started from defective wiring in the Totem saloon. Many persons had narrow escapes. The town hall will not be rebuilt, as most of the business men will move to Chatanika, the terminal of the railroad at the mouth of Cleary creek.

John Sweeney Found Drowned.

PORTLAND, Nov. 18.—John Sweeney, of Delta, Wash., was found dead in the mud bottom of Guilds lake yesterday. He had mired almost to his shoulders and, becoming exhausted, his head fell over and he drowned in the shallow water. It is supposed he had been dead two days when found.

CALL MASS MEETING.

A monster mass meeting of representatives of all the local business concerns will be held as soon as possible, to get the concerted action of the people in buying goods in the city, thus retaining the millions of dollars that are annually sent to other places. The trustees of the Manufacturers' association will hold a meeting within the next few days to formulate a plan and call upon the firms of the city to co-operate and carry out the idea.

Sad for the Women.

ANNAPOLIS, Md., Nov. 18.—The commandant of midshipmen has issued an order which puts a ban on the practice of midshipmen surrendering their overcoats for protection of their women friends. The new order is similar to the one issued at West Point, which caused such a storm of protest from the social contingent.

New Guns at Fort Worden.

PORT TOWNSEND, Nov. 18.—The work of installing additional heavy ordnance at Fort Worden is being rapidly pushed by the government. P. M. Coyne & Son have been employed to put in the concrete work at a cost of $9,000. The guns are already on the ground and only require to be mounted.

PLAN BIG LABOR ORGANIZATION

A Pacific Coast federation of all labor unions into a grand council is the present dream of laboring men in Seattle, which is about to be put into tangible shape by the bakers, who have already voted in this city in favor of the proposition, and who are making arrangements to hold a vote in all the cities of the coast.

There is no doubt in the minds of the local members of the union that the bakers' federation will form a nucleus about which will gather all other organizations. Such a federation, it is claimed, would give the coast a strong voice in the affairs of the American Federation of Labor.

HOLD FAMILY REUNION.

A reunion of the Corning family was held recently, at which City Jailer Charles Corning, his wife, 11 children and seven grandchildren were present. One son, who is now in Mexico, was absent. Corning is not much of a boaster, but he feels proud of his big all-American family, and when it comes to a large household says he can make a lot of the vaunted prize winners take a back seat. The Corning family has lived in Seattle for 17 years, and Mr. Corning is well and favorably known as a member of the local police department.

WANTS CHARTER AMENDMENT.

Councilman Frank P. Mullen expects to propose a charter amendment at the meeting of the revision commission Tuesday evening, the effect of which will be, if adopted, to do away with the board of health. In its place it will be provided that the city health officer, to be appointed by the mayor, be invested with all the authority of the board of health.

SAY HERBERT IS AN EX-CONVICT

Edward L. Herbert, the young man who was recently arrested in the store of the Howard D. Thomas Co., suspected of contemplating safe robbery, is said by the police to have been sentenced to the penitentiary from Tacoma under the name of Roy Kaufman, serving a five-year term, minus good time allowance. Kaufman, as he was then known, with two others broke into a furniture store and blew the safe open. The local police will place a charge of having burglar tools in his possession against the prisoner.

—largest furniture store in the West—extends longest and most liberal credit—

here's the news our thousands of little girl friends are awaiting---

—news of the results of our "GREATER STANDARD AND TEDDY BEAR CONTEST"—an event in which it seems to us "all Seattle" is interested.

—indeed, it is a splendid pleasure to us to note the great interest our thousands of little girl friends—and their folk as well—take in our yearly contests, which we have been conducting for several years, to provide pleasure and enjoyment for our little friends, which we now proudly number into the thousands.

—our contest this year was the most successful and popular we have given. It was planned along more original lines than previous ones, and the prizes were more and represented greater value (229 prizes, valued at $350), so this announcement of the awards is anxiously awaited.

—there were 5,000 little girl contestants, and the judges had a great task to decide, as every little girl was given the fairest consideration. Of course, we could not award the "big" prizes to all. We had provided to give 260 additional prizes, which we have since increased to 600, upon suggestion of the judges, who found so many more deserving of "special mention."

—the following list represents winners of the twenty-one "big" prizes. The other 600 "special mention" prize girls have all been advised by mail, and prizes will be given them at the store when called for:

every little contest girl is to be our guest!

the "consolation prize"—great news!

—we don't want one of our little contest girls to be disappointed. We think the world of them, and have arranged a "great event" for each and every one of our several thousand "GREATER STANDARD AND TEDDY BEAR CONTEST GIRLS."

—as a fitting climax to the contest we have made special arrangements with THE COLISEUM to entertain our little friends at a special matinee to be given in their honor next Saturday afternoon, November the 23rd.

—each little contest girl will be given a special seat all for herself, and the "big" prize winners will be given "seats of honor" in Coliseum boxes—the entire monster Coliseum Theater, the largest in the West, will be all for our little guests.

—now come to the store (not the theater) and get your special "Contest Matinee Ticket"; come right away, please. You will also be given a special blue "contest badge" for the occasion.
