AMERICA IS ON THE THRESHHOLD OF GREAT ERA, SAYS ISAAC GUGGENHEIM.

(By United Press.)

NEW YORK, April 5.—"America is on the threshhold of the greatest era of prosperity in its history. Within the coming six months, providing no unforeseen circumstances arise, the depression under which this country has been laboring since 1907 will have disappeared completely."

In these words Isaac Guggenheim, recognized head of the enormous firm of M. Guggenheims' Sons and the eldest of the Guggenheim brothers, who has returned from a six weeks' tour of Europe, today predicts an early resumption of commercial prosperity, and evinced his confidence in the ability of the country to overcome the results of the inactivity of the past two years.

(By United Press.)

VICTORIA, B. C., April 5.—The Victoria Times today began receiving the full leased wire telegraphic service of the United Press associations, having discarded the report furnished by the Associated Press.

The Times, which was established 25 years ago, is one of the most influential daily evening newspapers in British Columbia and the action of its publishers in contracting for the up-to-date news service of the United Press associations marks an important step in the enterprising policy that has characterized the conduct of the publication under the management of Mr. John Nelson, its editor and manager.

Ethan Allen Hitchcock Ill.

WASHINGTON, April 5.—Ethan Allen Hitchcock, former secretary of the interior, is critically ill at the home of his son-in-law, Commander W. S. Sims, U. S. N., and grave fears for his recovery are entertained.
