HEROINE TO BE FITTED WITH ARMS

Money Aid Is Coming to Armless Child Who Gave Skin to Save Another

FAIRMONT, W. Va., Feb. 21.—"Artificial" is a new word in the vocabulary of Rosie Sacola, the armless orphan of 10, who is the greatest heroine in the United States.

"It's a very big word—what does 'artificial' mean?" Rosie asked Dr. C. M. Ramage, the superintendent of the hospital, when she first heard him use it.

The doctor explained to her that the artificial arms he was talking about would be almost as good as the arms she had lost—only, he added, she would have to have another operation before she could use a pair of them.

BOTH OF HER ARMS WERE AMPUTATED

For one of Rosie's arms had to be amputated very close to the shoulder, and the other exactly at the shoulder, as the result of being burned by a live wire.

In order that Rosie may be able to use the artificial arms, say the doctors, it will be necessary to graft bone on what is left of one of her real arms. They say this bone can be taken from her shin.

"I'm ready for anything you say," Rosie told the doctor. "For I know it's all for my own good."

Rosie won her title of the greatest heroine in the country by volunteering and undergoing a skin-grafting operation, in which she gave her own skin to save the life of another little girl who had been burned.

Her one prayer is to be given a chance to be useful.

Because it is believed she has earned this chance, the Rosie Sacola Hero Fund is being raised. Its purpose is to give her special care and special education, so as to fit her for a valuable life work.

CHILD HERO FUND MAY BE RAISED

The custodians of this fund are Mayor W. W. Conaway, of Fairmont; Miss Margaret McKinney, agent of the state board of children's guardians, and Miss Viola Hall, treasurer of the Fairmont Women's Business and Professional club.

If enough is raised, it is planned to establish a permanent trust fund, not only to help Rosie, but to help other child heroes.

It is requested gifts be sent in two's—from two cents upward—because they are to replace Rosie's two arms.

Gifts should be addressed to "The Mayor, Fairmont, W. Va.," and checks should be made out to the "Rosie Sacola Hero Fund."

SUBURBAN STORE HELD UP; ROBBED

While one robber covered George B. Cundy, proprietor of the Lake City Grocery, three miles north of the city limits, Sunday night, another scooped $260 from the cash register. Both jumped into a roadster in which they had left the engine running, and speeded toward Seattle.

Deputy sheriffs and motorcycle policemen who made an effort at once to block all roads, were still working on the case Monday.

Cundy was about to count his cash before closing the store. One of the bandits came in and leveled a gun at him without speaking. The other followed and took the money. Cundy was alone.

One of the bandits, he said, wore an army officer's overcoat and was about 40 years old.

Two boys on bicycles held up and robbed C. L. Burns, 543 E. 80th st., at Green Lake station, Saturday night, according to his report to police. Burns lost $3.

When the first boy approached him menacingly, he knocked him down, Burns claims. The second lad drew a revolver and stopped his resistance, and then they robbed him, Burns told detectives.

The guest of Mrs. S. Bekins, 319 27th ave., George Simpson, 24, departed with an overcoat, revolver and $5 that did not belong to him, she claims. He was held in city jail Monday following his arrest Sunday night.

Two masked robbers held up the Harbor Island grocery, 725 W. Hanford st., Saturday night, stole $75, held Hans Olson, proprietor, and two customers at bay and fired once at Olson when he pursued them.

13 Sinn Feiners Killed in Battle

CORK, Feb. 21.—Burial of 13 comrades shot in battle brought to Sinn Feiners today the knowledge that British forces have taken the offensive.

The 13 were killed near Middleton, County Cork, yesterday afternoon, when the Second battalion of Hampshires surprised the Sinn Feiners in a house. Eight Sinn Feiners were captured, the military escaping with one man slightly wounded.

The battle was taken as warning here that government forces have definitely abandoned the plan of awaiting attack.

Daugherty Asked to Be Attorney General

ST. AUGUSTINE, Fla., Feb. 21.—President-elect Harding has asked Harry M. Daugherty, of Ohio, to be attorney general, it was announced today.

George Foss, former congressman from Illinois, today was under consideration by President-elect Harding for the post of secretary of the navy. A. T. Hert, of Kentucky, and John Hays Hammond, who probably would be accredited to California, were still in the running, however.

James J. Davis, Pittsburg, and T. V. O'Connor, Buffalo, were in the lead for the portfolio of secretary of labor.

Herbert Hoover's appointment as secretary of commerce appeared to be accepted as a certainty by Harding's advisers.

Friends of Charles G. Dawes renewed their activity to get him the treasury post, but it appeared unlikely that Harding would reopen negotiations with him. Harding will finish his inaugural address this week. He went over those sections relating to foreign affairs at the conference with Charles E. Hughes, secretary of state in the Harding cabinet. Harding will leave here next Sunday or Monday for an overnight stay at Marion before going to Washington to be inaugurated.

FAMILIES FLEE FLOOD WATERS

EUREKA, Cal., Feb. 21.—Heavy property damage has been done and a number of families have been driven from their homes by a freshet on the Elk and Eel rivers beginning Sunday.

Late yesterday a dam at the mill of the Elk River Mill and Lumber company on Elk river burst, releasing a half million feet of redwood logs, which crashed down the stream, tearing out bridges and uprooting trees along the banks.

The road and railroad along the river were under six feet of water during the night. Transportation today was by means of row boats only.

Several families were forced to desert their homes and seek safety on the highlands. No lives were lost.

The Eel river was rising rapidly early today and was threatening to overflow its banks.

DADS AND SONS FEAST TUESDAY

To Get Acquainted at Crystal Pool Banquet

Tuesday, at 6:30 p. m., at the Crystal Pool auditorium, dads and their boys will meet about the banquet table and celebrate the Father and Son day, which has, within the past few years, been annually observed in Seattle and in all the principal cities of the country on some convenient date in February.

The committee, named by the Rotary club, which is backing Father and Son's day in Seattle, and of which William F. Eckart is chairman, chose Washington's birthday in the belief that no more appropriate time for such a celebration could be selected than the anniversary of the birth of the father of his country.

Tickets at 75 cents each are on sale at the Y. M. C. A., at the high schools, at Swift's drug store, Second ave. and Pike st., and at the Spring cigar stores. As no father will be admitted without a son, nor will a boy be given a seat unless accompanied by his own father, or some one who, for this occasion, takes the place of dad, one ticket is useless; ticket takers will require them in pairs.

CONGRESSMAN FLAYS LANDIS

Says Baseball Post Scheme to Block Justice

BY HERBERT W. WALKER

WASHINGTON, Feb. 21.—Direct charge that baseball magnates appointed Judge Landis of Chicago as a national arbitrator of their organization to defeat suits against them was made by Representative Welty, Ohio, today.

Welty was before the house judiciary committee which opened investigation of the impeachment charges against Landis by the congressman.

"His appointment was a plain attempt to block justice," said Welty. "Organized baseball named him in the hope that the action would stop the prosecution of the Chicago White Sox players indicted for gambling, and the $240,000 anti-trust suit brought by the old Federal league against the National and American leagues."

Welty told the committee that Landis should be removed from office because he holds the office of federal judge and arbitrator of organized baseball. He charged that bribery was the motive of baseball magnates in employing the judge and that his holding both offices tends to nullify prosecution of Chicago players for throwing world series games and the $240,000 judgment obtained by the defunct Federal league against the American and National leagues in anti-trust proceedings.

The only witness to be heard today was Welty. After he concludes his testimony the committee will determine whether it should call other witnesses or make its report.

That Germany's bill will be redrafted.

That the future relations between France and Great Britain will be finally determined.

That Turkey and Greece may adjust their territorial claims and proclaim peace.

Statesmen brand as impossible chances of a split between France and Great Britain, but they admitted they saw no chance of reconciling the views of Premiers Briand and Lloyd George in regard to Germany.
