TO OUR PATRONS.

As will be seen by an advertisement elsewhere, we have purchased Mr. J. Baldwin's interest in the CHRONICLE, the style of firm dating from Feb. 20th, 1873, will be Neblett & Grant. Having assumed all liabilities we are alone authorized to receive any and all accounts due the late firm. This change compels us to call earnestly upon all indebted to us to come forward and make payment. We have been indulgent with many for a long time, to our detriment, and we indulge the hope that they will liquidate their indebtedness and enable us to prosecute our business with renewed vigor. We hope our friends will assist us in getting up an increased circulation, thereby enabling us to furnish them a paper eminently worthy in every respect.

May 3, 1873-3w.

A FIRST class hotel is about to be erected at Jackson, Tenn.

COTTON was heavy in New York on the 7th inst., at 19¼c for middling.

GOLD was dull but steady in New York, closing on Wednesday at 117¼@117⅜.

TENNESSEE BONDS was very strong in New York on Wednesday evening at an advance to 81¼ for the old issue, and 81½ for the new.

CIRCUIT COURT met last Monday and adjourned till the 28th inst. Chancery Court is still in session.

THE Building and Loan Association offers $800 to borrowers, on Wednesday next.

WE publish to-day, from the Brownsville States, a beautiful eulogy upon the character of Bishop Quintard.

ANDREW E. EAKIN, of Washington, Ark., has been commissioned by the Governor as Commissioner of Deeds for Tennessee.

"THE NEW YORK OBSERVER," a large, eight page paper, is one of the best published in this country. The letters, by "Irena-es," are worth the year's subscription.

THE extension to the tin and stove establishment of Hamlett & Morris, makes it a convenient and beautiful store room. They have an excellent stock of wares.

ATTEND Franklin Hall next Monday night. The Hook & Ladder boys are prepared to give you an entertainment well worth your patronage.

ATTENTION, H. AND L. CO.—You will assemble at the truck house at 2½ o'clock, sharp, Tuesday evening, May 13, for drill. Py order of H. Frech, Chief of Fire Department.

JOHN L. DUFF, Capt.

HUGE SNAKE.—S. S. Tally, of District No. 16, this county, a few days ago, near Batson's store, killed a rattlesnake about four feet in length and having seventeen rattles.

THE entertainment by the Hook and Ladder Company comes off at Franklin Hall, Monday night. Let everybody attend. You will get your money's worth, besides aiding in a good cause.

A GENTLEMAN living 2½ miles from the city wants to hire two white servants—a cook and house girl. For particulars apply at this office.

PEOPLE from all parts of the world were present, on the 1st inst., to witness the inauguration of the Vienna Exposition by the Emperor of Austria. It is said to have presented an imposing spectacle.

PATRICK SULLIVAN was found guilty, at the last term of the Criminal Court, of an assault with intent to commit murder, and sentenced to three years imprisonment in the penitentiary. He took an appeal to the Supreme Court, and is now out on bond.

THE Union and American, of the 2d inst., says: "Mr. Satterfield arrived in the city yesterday with a bountiful supply of iron ore from White county, which he intends contributing to the mineral department at the Exposition. These specimens were obtained from an ore belt five to twenty miles wide, and said to contain the richest deposit in the world."

A WOMAN named Susan Eberhart, convicted of being an accomplice of Enoch F. Spann in the murder of his wife, on May 4, 1872, in Webster county, Georgia, was hanged on the 2nd inst., at Preston, Ga. She was hanged on the same gallows and with the same rope with which Spann was hanged about three weeks ago. About seven hundred persons were present to witness the horrid spectacle, among whom were about a dozen white women.

Public Schools.

We publish, on first page an address from the State Superintendent of Public Schools, and commend it to the careful consideration of our readers. None will deny that education is the great need of the State, and since the Legislature has laid down the system upon which schools are to be built up, and provided all the pecuniary aid that can be afforded under the circumstances, it devolves upon the people of the several counties to make that system practically available for the education of the children of the counties. We all feel that this great work has been commenced under very unpropitious circumstances—the almost crushing weight of the State debt, individual embarrassment and heavy taxation—all of which are repressive of that zeal and public spirit without which no great enterprise can be made a perfect success. We hope, however, there is enough of the spirit of self-sacrifice in our people to make them resolve to take up the work where the State has left it and press it forward to completion.

Agricultural Report for April.

We have received the April report of the Department of Agriculture, and gleaned from it the important information that the wheat crop generally, is more promising than at the same date last year. This is especially the case in California, and the northwestern States. From the localities where the fall of snow did not lie long enough and deep enough to protect wheat during the continuance of the intensely cold weather, the reports are less favorable, and indicate less than the average yield.

From this county, is reported a smaller yield "on account of late planting, and thinner than usual on account of freezing out. There is no telling the come out in wheat; but there is no doubt about it, wheat and rye are badly injured."

Gray & Kerr's Stemmery.

We visited this establishment this week, and were politely shown through it by Mr. Wm. M. Keer, one of the firm, who has been successfully engaged in the business for 15 years.—This firm, is putting up tobacco at the stemmery known as M. M. Kerr's, which is said to be the best arranged and ventilated tobacco house in the city, are doing a lively business. They have already about one hundred hogsheads of strips and will probably put up much more during the season. The strips they have now on hand are a splendid lot, in fact, we understand that a German buyer of much experience says that they have the best lot he has seen anywhere. The gentlemen fully understand their business, are excellent judges of the weed, and have every facility for handling tobacco in their well appointed stemmery, and will keep up the reputation won for it by its former proprietor.

WE have received a letter from a gentleman who resides at Carrollton, Miss., who contemplates moving to this State. We take the liberty to answer his interrogatories through the CHRONICLE, as it may meet the eye of others who desire to find a new home. He asks—

What is the population of Clarksville?

What sort of climate?

Is it healthy?

Have you railroad and steamboat communication through the year?

Have you good schools?

Is there any German element there?

How about the surrounding country—what is the produce?

How land sells?

ANSWER.—The population of our city is about 6,000.

The climate is pleasant and salubrious.

We have both railroad and steamboat facilities—our river navigation lasts nearly throughout the year.

Our educational facilities are unequalled—we have both public and private schools, and will soon have systematised free schools in operation.

We have an industrious, intelligent German element, most all in a prosperous condition.

Our surrounding country is unsurpassed for beauty and fertility.

Tobacco, corn, and wheat are our staple commodities. But a small farmer, devoting his time and attention to raising potatoes, cabbage and all small vegetables—which yield abundantly—can find a good market for all. An industrious man, who understands gardening, can make money here.

The price of land varies according to locality and quality, ranging from $5 to $50.

We have given you, as nearly as possible, a simple, truthful statement, avoiding exaggeration, as we do not desire to deceive, although anxious to add to our population. Living here is not the cheapest, but the price of labor and produce is in proportion to expenses incurred.

Hoping the above will be satisfactory, we cordially invite you and all industrious men, to locate in our county—our people are clever and hospitable, knowing well how to treat the stranger.

THE Anniversary of the Baptist Sunday School, in this city, will be held on Sunday evening, 18th inst. An address will be delivered by Prof. J. H. Fuqua, of Kentucky, and a number of premiums will be awarded to the pupils.

Go to Franklin Hall next Monday night and witness the performance of "Ten Nights in a Bar-rom," and "Slasher and Crasher."

DR. J. F. JOHNSON has located at the residence of his mother, seven miles from town, on the Russellville pike, where he intends to continue the practice of medicine.

THE Trenton (Tenn.) Gazette warns the public in regard to two corn doctors calling themselves Jo. Harland and John Fisher. They left a widow lady of Trenton minus a board bill.

THE Knights Templar have made arrangements with our city Brass Band to furnish music next Tuesday. The boys will, doubtless, give them some excellent music.

HOOK & LADDER entertainment at Franklin Hall next Monday night. Everybody and his wife is expected.

SEE professional card of Dr. C. W. Greenfield in to-day's paper. He is a worthy gentleman and skilled in his profession.

CAPTURED.—Sheriff Beaumont and A. B. Foster have used the utmost vigilance and undergone much labor and trouble in capturing Sam. Hooper, the negro who murdered the negro man Orange some days ago. After chasing him all over the country they captured him, last Wednesday night, near Danville, Tenn. They had to shoot at him several times to bring him to a stand. When taken he had his pistol drawn, and would, doubtless, have fired, but saw that the officers had the advantage of him. These gentlemen deserve credit for capturing this negro, and bringing him to safe quarters.

FINE BEEF.—Jackson & Moore bought a fine, barren heifer from Roach & Ramey, which weighs 1,600 pounds, which they will slaughter and have on sale at the market house Tuesday morning. Several persons who examined this animal pronounce it the finest specimen for beef they ever saw. All who desire something fine, extra and fancy, should attend their stalls Tuesday morning.

Those who entertain the Knights Templar now have a chance to furnish them some choice steaks.

MR. DE GROVE, the engineer who has charge of the work at Greenwood Cemetery, called to see us this week, and reports that he will remain here for sometime, and that the work will be pushed forward as rapidly as possible. Mr. DeGrove understands his business thoroughly, and under his management we will, when it is completed, have a cemetery that will be an honor to our city.

THE Exposition, at Nashville, is fairly under way, and constant improvements are being added in the way of decorations, machinery, and different articles for exhibition. Large crowds attend daily, the number increasing with each day. This, the third Exposition, promises to eclipse all others held in that city, and it is said to compare favorably with any in other cities. Every Tennesseean, at least, should pay it a visit.

GREENWOOD CEMETERY, on the Charlotte Pike, is becoming a place of great resort for our people. The circular lot in front of the main passway is beautiful, and intended for the last resting place of the Confederate dead who will be removed from the City Cemetery. Let the sod be kept green, and plant beautiful flowers and evergreens over the consecrated bones of those who shed their blood for our beloved South.

Now that attempts of buglary has become so frequent we would again urge upon our citizens the necessity of having their doors and windows fully secured at night. We hear of some persons who go to sleep with their doors unlocked. Some fine morning they will wake up to find that they are in possession of less of this world's goods than they had the day before. Secure your premises and keep a small piece of artillery to give sneak-thieves a warm reception.

THE Rev. Mr. Hunter, of Arkansas, preached at the M. E. Church, in this city, last Sunday morning and night. His morning sermon, from a text in Jude, 20th and 21st verses, was listened to by a large and attentive audience, and produced a happy effect upon most of the membership who worship at this church. It was old fashioned, gospel preaching, and elicited the praise of all who heard it.

RESIGNATION.—W. W. Hobbs, Comptroller of the State Treasury, on the 1st inst., offered his resignation to Gov. Brown, which was accepted. The Governor tendered the office to John C. Burch, Esq., of Nashville, who accepted it, gave bond, and was qualified as Comptroller. Mr. Burch will fill the position with honor to himself and to the satisfaction of the people of Tennessee.

MCCORMAC'S GALLERY is daily visited by many persons who desire to secure a good picture, and despite the cloudy weather we have had of late, produces the finest specimens of art. He does not make the pretty prettier, nor the ugly uglier, but gives each customer a picture true to life, one that can be recognized at a glance. His gallery is an ornament to our city, and, as an artist, he is an ornament to his profession.

MUNICIPAL.—The municipal board of our city, mayor, alderman, recorder, marshal and police, are discharging their various duties to the satisfaction of the people, at least we hear no complaint from any quarter, except a lack of repairs in some localities. A lack of means, and not disposition, is the cause these needed improvements are not made.

WE learn that Barksdale, Clark & Co. have contracts for putting up several houses at St. Bethlehem, about six miles from this city on the L. N. & G. S. Railroad. We are glad to know that this village is prospering. The people of that community are as industrious and clever as any to be found in this country.

THE different churches of our city are ably represented in the pulpit—go where you will you can hear an interesting sermon. In addition, we have recently enjoyed some excellent preaching by various denominational divines from other places. If we are not as good as we ought to be it is not for lack of means and proper instruction.

WE learn that the City Council, at their meeting last Tuesday, donated to the Hook and Ladder Company two hundred dollars to be used in purchasing a fire alarm-bell to be placed on their new house. Go to the entertainment on Monday night, and help them get the house ready for the bell.

R. H. PICKERING was elected Superintendent of the Methodist Sunday School last Sunday. The pupils have selected a man who will do all in his power to promote their spiritual and temporal welfare.

We did not learn who was elected to fill the other offices.

DR. C. LAUENSTEIN, editor of two papers at Evansville, Indiana, the Courier and Demokrat, paid us a visit this week. He represents live newspapers, and we hope his stay here was both pleasant and profitable.

GRAND COMMADERY.

From every indication, there is no doubt that the reception of the Sir Knights, who meet here in conclave next Tuesday, will be of a brilliant character, such as the standing of that grand Masonic body deserve, and the undeniable and genial hospitality of our citizens warrants. The services of the Clarksville Brass Band, under the leadership of Mr. Jackson, are engaged for the occasion. Our youth of both sexes are preparing for a gay and good time.

At 2 o'clock P. M., the Commanderies, attended by the Grand Commandery, will march through the principal streets. They will be inspected and reviewed by the Grand Commander in front of the Female Academy, and in the yard of that institution. It is probable the different Commanderies will exemplify the public drill of the Order.

Those who have received invitation cards can purchase tickets at the drug stores of Owen & Moore and S. B. Stewart. Tickets, admitting lady and gentleman to Banquet and Hop, $3.00 Doors of Hall opened at 8 o'clock, Banquet at 9.

PERSONAL.—Robert McReynolds, formerly of this city, but who now has headquarters in New Orleans, is in the city on a visit to his relatives and friends.

Mr. Stewart Dick, of Paducah, is in the city.

Dave Brownfield, of Allensville, was in the city this week, riding a fine charger.

BURGLARY.—On Friday night, 2d inst., some one entered the dwelling of Mr. Jones D. Neblett, took his watch and money from his vest pockets, ransacked the bureau drawers, etc., and departed without disturbing the sleepers.

The same night some thieves attempted to break in at several other houses in the city, but it appears they were made to "git," before they accomplished their purpose.

THE town of Paris, Tenn., was visited by a destructive fire last Monday night or Tuesday morning, which consumed every business house on the west side of the square. Eight business houses were burned, only one of which was fully covered by insurance. The loss is estimated at $100,000.

FATAL STABBING.—A negro named Sam. Gardner was stabbed at Bethel church, in this county, last Saturday night, and died Monday. Another negro, named Winston Bradshaw, has been arrested, charged with the stabbing, and is now in jail at this place. Reports as to the origin of the affray are conflicting.

Since the above was in type, we learn that Bradshaw was released on a writ of habeas corpus.

MR. FRANK PHILLIPS has been elected Chief of Police, in place of A. B. Foster, who has filled the position for the past twelve months. W. W. Morrison and J. D. Jenkins elected night police; J. M. Moore, day police.

AVAUNT, INDIGESTION!—The Charter Oak Stove is the most interesting and important feature in the family economy; for it fills the house with warmth, the table with good cheer, and prevents that dreary aspect and indigestible meals that brings sourness of temper, discomfort and dissatisfaction.

ICE CREAM.—J. C. Mattill has opened an Ice Cream Saloon in the rear of his confectionery, where he is prepared to serve as good cream as "any other man."

THE Paris Intelligencer speaks in praise of the excellent plows made here by McReynolds & Son, and advises Henry county farmers to try them. If they try them they will never regret it. This firm has an agent at Paris.

FINE FISH.—We are indebted to W. M. Orgain & Co. for a Salmon about two feet in length, that made the most savory dish we have enjoyed for a long time. If you want fresh fish, beef, pork, etc., call at Orgain & Co's. family grocery.

McCORMAC has an instrument, a late improvement, by which he is enabled to take from four to sixteen gems at one sitting. He advertises to give four of them for one dollar. Cheap pictures.

WE are glad to learn that our clever German friend, L. Straus, is doing well in the dairy business. This moist weather is favorable to his business, but he is too honest to take advantage of it.

ATTORNEY-GENERAL.—Baker D. Johnson, Esq., has been appointed Attorney General in place of F. O. Anderson, Esq., resigned. We are glad to note the promotion of our clever young townsman.

'Tis said that all the lawyers in Milwaukee are judges, but none of the judges are lawyers. If this were literally true the people there would be none the worse off.

THE steamer Frank Gracey, will carry passengers to the Exposition at half rates the same as other boats. The Gracey will go up on Wednesday, and Capt. Simms says he will be here on time.

CHIEF JUSTICE CHASE was stricken with Paralysis, in the city of New York, on the 6th, and died on the 7th inst.

ARRANGEMENTS are being made for a trial of speed between the steamers R. E. Lee and Natchez. We bet on the boat that beats.

A RASCALLY rat devoured a dozen chickens in our hen house a few nights since. That rat was, if possible, meaner than a rat printer.

UP to the 1st inst., 349 bodies had been recovered from the wreck of the Atlantic.

THE man who gets up the local for the Union and American is a sprightly writer.

WE call the attention of farmers to the communication of R. T. M., of Chester, S. C.

Clarksville Female Academy.

We clip the following, in reference to the Clarksville Female Academy, from the Nashville Christian Advocate:

"Many will hear with concern that Dr. West is about to give up the Clarksville Female Academy. It has been most successful under his management. During the seven years that he has had charge of it many hundreds of young ladies have received their education in this institution. The school has had on an average over two hundred students a year. Dr. West has afforded gratuitous instruction to many who were not able to pay—he has done this on a large scale, and he shall not be without his reward. Like Brother Hargrove, he thinks he is now entitled to devolve the work of teaching on others, and return to the regular work of the ministry. We need not say how gladly he will be welcomed back into the pastoral work. We are happy to say that he has secured an excellent successor, the Rev. J. M. Wright—the worthy President of Athens Female College. He has good antecedents, and we predict for him and the Academy a successful future.

TEN NIGHTS IN A BAR ROOM will be presented by the Thespians of the Hook and Ladder Company next Monday night, the 12th of May, at Franklin Hall. It is a temperance drama well worth seeing. Every body should attend; for a two-fold good may be reaped. There, the evil consequence of intemperance will be vividly portrayed, which should teach all, who are tempted, to shun the intoxicating bowl, as they would a viper, for it "biteth like a serpent and stingeth like an adder."

This company needs your aid and deserves your patronage. Give it, for this is a worthy cause, just what Clarksville needs in time of fire. Encourage it by your presence and aid it with your ticket.

B. M. TAYLOR.

THE tickets admitting lady and gentleman to the Banquet Tuesday night, also admit to the grand Hop, which winds up the festivities of the occasion. There are good dressing rooms for the ladies in the Hall, and an excellent String Band will be in attendance. The disciples of Terpsichore are looking forward to a rich treat.

THE revival at the C. P. Church still continues. Much interest is manifested, and several persons are seeking religion, and some have been converted. Rev. J. M. Penick is assisting in the conduct of the meeting.

COL. FLEMING, Superintendent of Public Instruction, invites all the county Superintendents to meet him at Nashville on the 22d inst., for general consultation and interchange of views.

THE late Governor William M. Sharkey, of Mississippi, was a Tennesseean. He was born in Knoxville in 1798.

THE fire department will have a display drill, on the public square, on Tuesday, 13th inst., at 3 o'clock.

APRIL showers were postponed to take place in May.

RIVER NEWS.

The river is falling rapidly, with 15 feet on Harpeth Shoals.

The tow boat I. N. Philips, with two barges of Pittsburg coal in tow, while attempting to pass the bridge piers, on Tuesday last, collided with the pier on the South side. One of the barges was badly damaged, but the prompt action of her crew in rigging their steam cyphon; kept the barge afloat until a tarpaulin was hauled under the barges. It was then pumped out, the damaged part repaired, and towed to Nashville.

The Steamers Lumsden, Tyrone and Heilman are taking passengers for the Exposition to Nashville and return for $3 00. Parties holding tickets of either the above boats can return at their pleasure during May on any of them.

The Frank P. Gracey will pass up Wednesday evening at 5 P. M. She will carry passengers to the Exposition for $1 50, or $1 00 for the round trip.

The Steamer Lawrence, from Cincinnati, is the first boat due from the Ohio river.

The Cumberland at the Mouth of Smithland is running out with such velocity that the Little Condor, with a tow of salt, cannot stem the current. She awaits the waters to subside.

The A. Jax No. 2 *can* stem the current between the brige piers. We understand that the party who took the duck hunt on her last winter are contemplating another excursion.—Every man carries his own grub—spirits furnished jointly—tickets free—no cards.

Rates on tobacco to New Orleans reduced to $6 50 per hhd.

WANTED.—To sell an entire stock of goods in Millinery and Dress Making business. A very desirable opening. Correspondence solicited. Address W. & S., Box 155, Shelbyville, Tenn. [May 6-1t*

CALL on V. L. Williams, and see those patent Soles and Heels—they are light, cheap and durable, and will last about three times as long as leather—and then save money by investing in a pair. [may 6-2t

McCORMAC'S!

Pictures For Everybody!!!

While thanking my friends and the public generally, for the very liberal trade extended to me heretofore, solicit a continuance of their patronage, and do my best to deserve it by bringing my profession to a level—in prices—with any of the large cities of the north or east, and by excelling them in the *quality of work*. My arrangements now for work are such that I can make at one sitting 4, 8, 16, or 32 photographs, to suit the wishes of my customers.

Four of the popular little Gem pictures made and beautifully colored for One Dollar!

I will guarantee the best work ever done in Clarksville. Come up and see.

Respectfully,
W. J. McCORMAC.

False Delicacy.

The friends of those who are troubled with bad breath, and, through oversqueamishness, dislike to refer to it, commit a positive and cruel mistake, especially if they are aware of the merits and great efficacy of the fragrant SOZODONT. This is the true and only remedy for the difficulty; there is no valid excuse for a bad breath now.

Spadling's Glue mends everything.

KENTUCKY ITEMS.

The county jail of Harrison county has been tenantless for more than two weeks.

Mt. Sterling is about to erect a monument to the memory of her illustrious Confederate heroes.

Young men in Franklin waste their time playing croquet in the court-house yard. Better be at work.

Laurel Furnace, in Kentucky contemplates changing from hot to cold blast.

Hazel G. Petrie, of Todd county, has been named by his friends as a candidate for the office of Clerk of the Court of Appeals.

An old soldier of the war of 1812 is in the poor-house of Warren county. He will be 96 years of age on the 4th of July next.

John Ravenscraft, of Harrison co., says he is the owner of two ewes which have dropped 23 lambs in five years—all of which were raised except two.

The Glasgow Times says: "We learn that the epizootic has re-appeared, or some disease resembling it, in some portions of our county, and that several horses have died from it."

Coal has been found within three miles of Elkton, on the farms of W. P. Stevens and Reuben Thomas.

The peach crop of Todd was almost entirely destroyed by the late frosts, but the wheat crop is improving beyond the expectation of every one.

The Owen News says that in the vicinity of New Liberty tobacco plants look badly, "and fears are entertained that the frost of last week has well nigh ruined them, in so much that new sowings will have to be made to insure a crop."

It is said that prominent parties in Henderson and Hopkins counties are about instituting suit to set aside the recent consolidation of the Henderson & Nashville Railroad with the St. Louis & Southern Railroad.

The Franklin Patriot says: "Up to last Friday night, we never had a better prospect for a fine crop of fruit; but alas! on Saturday morning our hopes and at least 85 per cent. of the fruit, were blighted by the frost. The young life of apples pears, peaches, plums, cherries, &c., and worse still, of the strawberries, went out with the glitter of the frost crystals."

Friday morning of last week, our farmers arose to find that a heavy frost had fallen during the preceding night and well-nigh destroyed the prospect for fruit of every description. From every portion of the county the same intelligence reaches us, and we conclude that there is now but little chance for fruit this year in this county. Prior to this biting frost, the prospect for fruit in Warren was never better. The blight has come, however, and we must content ourselves with an inexpressibly serious privation.—*Bowling Green Democrat.*

MONTHLY SALES.

I propose to establish regular monthly sales of property at the head of Public Square, in Clarksville on every County Court day, (first Monday). Persons having property of any kind to sell, will find me ready at all times to wait upon them. There is now a good demand for horses, mules, milk cows, &c., &c. I will also attend to all sales of real and personal estate in city and country, and pledge my best efforts to give satisfaction. I would suggest that stock be brought in the day before and put in one of our livery stables, where they will be well groomed, fed, and put in condition for sale. I will also give attention to the sale of furniture, dry goods, groceries, or anything that will command a bid at public auction.
