PRACTICAL MATTRESS MAKER AND UPHOLSTERER,

Will be in St. Francisville, La., until NOV. 1st All patrons wanting work done should send in their orders at once.

Nine Months for 75 cts.

We renew our usual offer to send the T. D. 9 mos. for 75 cts., to any young person away at school. Many parents see the advantage of this, as the local paper for about 40 weeks costs less than two cents, the value of a postage stamp—and contains infinitly more of the home news than parents have the time or inclination to put into a letter. It is a long letter to the absent boys and girls, and is such a comfort in homesickness.

Quite a large number, of both white persons and colored went on the excursion to New Orleans Sunday. Seven coaches were filled, and many were disappointed of the trip not finding even S. R. O.

Mr. Chas. Welcher, the photographer, is taking many interesting views and groups. Notably, one of the tennis team "my dog, Joe" being included.

Money! Make It Yourself.

I never saw anything in the paper about the People's Wind Mill; we call it the "People's" because the inventor never patented it, but let every body use it free. Any farmer can make a mill himself, and all the material compacte will not cost over $10. It is a splendid mill, will pump the deepest wells, and will last longer than any mill I ever had. Any person can get diagrams and complete directions free, as I did, by sending 18 two-cent stamps to pay postage, etc., to E. B. Wilson & Co., Allegheny, Pa. Wilson & Co. sell pumps, and when you get your wind mill going will be glad to sell you a pump if you need it. It is certainly useless to pay $50 or $60 for a wind mill, when you can make one just as good for $10. I think there could be big money made putting these mills up through the country as every body would like them.

The difference between Pills and Simmon's Liver Regulator, is just this: Pills don't go down very easy with most people, and you feel them afterwards. While Simmon's Liver Regulator in liquid or powder is very pleasant to take, and the only feeling you have afterwards is the great relief that it gives from Constipation, Biliousness, Sick Headache and Dyspepsia. It is a mild laxative and a tonic.

Another Smart Woman.

My husband is poor, but proud, and he does not want me to work, as I have nothing to do I got restless, and after reading in your paper Mrs. Russell's experience selling self-heating flatirons I concluded I would try it. I wrote to J. F. Casey & Co., St. Louis, Mo., and they treated me so nicely that I felt very much encouraged As soon as I got my sample iron I started out, and sold 8 irons the first day clearing $12. I have not sold less than 8 any day since, and one day sold 17. I now have $226 clear money, and my husband does not know I have been working at all, but I am afraid he will be mad when I tell him. Have I done right or should I quit work and leave him to struggle alone.

AN ANXIOUS WIFE.

You are doing just right, your husband should be proud of you, go ahead and show the world what an energetic woman can do. That self heating iron must be a wonderful seller, as we hear of so many that are succeeding selling it.

MISS KAUFMANN'S READINGS.

Each one of the evenings that Miss Kaufmann gave the public was an improvement on the preceding one in its display of intellectual and dramatic powers. On Monday night, she recited "Hagar" by special request. The only circumstance to be regretted was that her audiences were not as large as they should have been.

Mr. Welcher will be here next week only.

Mrs. J. W. Leake is quite sick.

The sunken packet, Lula Prince is lying in about twenty-eight feet of water, and the divers think it possible to raise her. The hole in her bottom is about seven feet long and when she is raised, she can be easily put in thorough repair. It is said that her owners are negotiating for the purchase of the "Liberty" to take her place, and the *Natchez Democrat* suggests that it might prove profitable to run two boats during the fall and winter season, as the Lula Prince has had to refuse business from Natchez.

The mail is now carried by the Lizzie B.

Mrs. Mentor Barrow is reported much better.

A Churn That Churns in One Minute.

I have been in the dairy business all my life and have many times churned an hour before butter would appear, so when I heard of a churn that would churn in a minute, I concluded to try it. Every day for a week I used it, and not only could I churn in a minute, but I got more and better butter than with the common churn. This is very important information to butter makers. The churn works easily, and will churn an ordinary churning in less than 60 seconds. I have sold two dozen of these churns in the past month. Every butter maker that has seen the churn in less than a minute has bought one. You can obtain all desired information regarding the churn by addressing J. F. Casey & Co., St. Louis, and they will give you prompt and courteous attention.
