There is a dangerous hole in the e across Principal St., Bayou Sara the residence of Josaphine Henks. We called attention to this fact as ack as June 16th last.

No fears we believe are entertained strike on the West Feliciana rail ; should it occur however, it is ght *possible* that forty or fifty thousof Hartranft's valliant (?) boys night l the insurrection.

A colored gentleman was *"bulldozed"* days since, to the extent of a good hing, by a party of his own color, being in the wrong place at the g time. A *lady* was at the bottom e affair.

Mr. M. Alexander successor to the Mr. D. Rosen has taken charge of the ness at the old stand where He will be ed to serve the friends of the establent with every thing in his line from ge and well selected stock. Give a call.

The political offal thrown off by West iana seems to drift naturally to Donville. How's that Harry and y?—WEST FELICIANA SENTINEL.

The great *"strike"* throughout the h and West is at an end. It resulted e loss of forty or fifty lives, the ction of much valuable property, he complete demonstration of the hat the Philadelphia militia are as *dly* a set of boys as ever trod shoe er.

With the Thermometer at 95 one like tripping over to Biloxi to get nefit of the exhilerating gulf breeze. Montross House at that place offers ally fine accommodations for who desire to carry this idea into tion, and we suppose every body except the "cant-get-aways."

A contemporary speaking of the y worked roads in his parish says are in splendid condition to be travover in *balloons*. Apropos of this t, would it not be a good idea for Police Jury to institute some kind of tem of inspection in order to ascerwhether or not our road overseers performed their duties properly ? It matter of no inconsiderable impor-.

We have received for publication ral contributions descriptive of the time's entertainment and while we rn acknowledgements to our friends their kind thoughtfulness, they will ily perceive that it is impossible for o give space to all, and in order to d any unpleasant feelings that might e through our giving preference to particular one, we have concluded to e them all out, believing that the elrate account from our own reporter ers the essential points touched upon our correspondents, and embodies all resting particulars concerning that yable occasion.

Attention is directed to the advertment of Whitworth Female College ch appears in another column of this e. This splendid educational instion is situated in the flourishing little of Brookhaven, Miss., on the New eans, Jackson & Great Northern road, 128 miles North of New Orleans locality noted for its healthfulness, of easy approach by rail via New ans. All the departments are comly organized and the institution proil with a full corps of competent chers, and an adequate supply of s, charts and apparatus for the scienc department. This school offers suor advantages. Send for Catalogue H. F. Johnson, President.

CUT THIS OUT.—IT MAY SAVE YOUR LIFE.—There is no person living but what suffers more or less with Lung Diseases, Coughs, or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. DR. A BOSCHEE'S GERMAN SYRUP has lately been introduced in this country from Germany and its wonderous cure astonish every one that tries it. If you doubt what we say in print, cut this out and take it to your Druggist and get a sample bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

MARRIED.

MUELLER—GERLACH.—At the residence of the bride's mother, in this village, on the evening of Tuesday, July 31, 1877, by the Rev. A. G. Bakewell, Mr. August Mueller and Miss Louisa Gerlach.

Hand in hand they have entered the conflict of life, hearts bouyant with joyous hope and bright anticipations; mutual esteem and confidence, undimmed by one darkening shadow, shining with resplendent lustre from the recesses of their young and ardent souls. Again does the regal gem of virtue adorn honor's glistening diadem.

CROP PROSPECTS.—The favorable indications that we have been enabled to announce from time to time, as attending the crops in West Feliciana, continue to prevail throughout the parish, so far as our information extends. The rain of last week was of inestimable value, though the crops in the low lands could have gotten along with less of it, and we may say that if no unfavorable event, now unforseen, occurs to change the prospect, one of the largest crops of cotton ever produced in West Feliciana may be anticipated as the result of this year's labor. In connection with this subject, it may be appropriate to state the fact that there has been less trouble in regard to labor in this parish, than during any period since the war. Indeed there has been no trouble at all. The hands have worked industriously under the new feeling of confidence that prevails between the races, and a remunerative harvest awaits the result of their toil.

POST OFFICE MATTERS AGAIN UNSETTLED.—Last week we gave a list of the sureties on the new bond of Post Master Stephens as an evidence of what the solid men of our parish were disposed to do for a colored man deemed to be honest and capable. We regarded it as the best bond that had been furnished in West Feliciana for many a long day, aware as we were of the solvency of every gentleman upon it and knowing that each was good for much more than the amount secured individually, but it seems the Department at Washington viewed it in an entirely different light. What we regarded as constituting the *strength* of the bond, they seem to have regarded as its peculiar *weakness*. At any rate the bond was rejected by the "powers that be," but upon what ground or pretext we have not been able as yet to ascertain. In the mean time the people are put to serious inconvenience from the fact that post stamps, envelopes &c., can not be obtained at the office until the Post Master furnishes security satisfactory to the Hon. Mr. Key *et als.*

UNION BENEVOLENT SOCIETY.—This charitable organization of our colored friends made a most magnificient *spread* on yesterday, the occasion being the recurrence of the anniversary of the association. We were recipients of the generous hospitality of the society, and shall long cherish the memory of the occasion as one of the bright incidents of our life. In our next issue we shall have more to say of this excellent organization and its celebration of yesterday, and in the meantime, bid our colored friends a hearty God speed, in their noble work. The polite committee of reception was composed of James H. Stephens, Robt. Hewlet and Sol. Jones.

TUTT'S PILLS

A Noted Divine says

They are worth their weight in gold.

READ WHAT HE SAYS:

DR. TUTT:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation, and Piles. Last spring your pills were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.
REV. R. L. SIMPSON, Louisville, Ky.

TUTT'S PILLS CURE SICK HEADACHE.
TUTT'S PILLS CURE DYSPEPSIA.
TUTT'S PILLS CURE CONSTIPATION
TUTT'S PILLS CURE PILES.
TUTT'S PILLS CURE FEVER AND AGUE.
TUTT'S PILLS CURE BILIOUS COLIC
TUTT'S PILLS CURE KIDNEY COMPLAINT.
TUTT'S PILLS CURE TORPID LIVER

Dr. Tutt has been engaged in the practice of medicine thirty years, and for a long time was demonstrator of anatomy in the Medical College of Georgia, hence persons using his Pills have the guarantee that they are prepared on scientific principles, and are free from all quackery.

He has succeeded in combining in them the heretofore antagonistic qualities of a *strengthening, invigorative, and purifying tonic.*

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy constitutions are produced.

The rapidity with which *persons take on flesh*, while under the influence of these pills, of itself indicates their adaptability to nourish the body, and hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and all those who require a healthy tone to the system. Such persons may expect to gain health and strength imparting health and strength to the system. Sold everywhere. Office, 35 Murray Street, New York.

WHAT IS QUEEN'S DELIGHT?

Read the Answer

It is a plant that grows in the South, and is specially adapted to the cure of diseases of that climate. It is

NATURE'S OWN REMEDY,

Entering at once into the blood, expelling all scrofulous, syphilitic, and rheumatic affections. Alone, it is a searching alterative, but when combined with Sarsaparilla, Yellow Dock, and other herbs, it forms

Dr. Tutt's Sarsaparilla and Queen's Delight,

The most powerful blood purifier known to medical science for the cure of old ulcers, diseased joints, foul discharges from the ears and nostrils, abscesses, skin diseases, dropsy, kidney complaint, evil effects of secret practices, disordered liver and spleen. Its use strengthens the nervous system, imparts a fair complexion, and builds up the body with

HEALTHY, SOLID FLESH.

As an antidote to syphilitic poison it is strongly recommended. Hundreds of cases of the worst type have been radically cured by it. Being purely vegetable its continued use will do no harm. The best time to take it is during the summer and fall; and instead of debility, headache, fever and ague, you will enjoy robust health. Sold by all druggists. Price, $1.00. HOUSE PAINTERS

ATTENTION.

BAXTER, BELL & CO.'S

PURE LIQUID PAINTS,

OR

HOUSE PAINTER'S COLORS

We beg to invite the special attention of Dealers and Consumers to these PAINTS. They are manufactured from the very BEST AND CHOICEST PIGMENTS, and mixed or thinned with only STRICTLY PURE Linseed Oil and Turpentine, and they cannot be excelled in covering capacity, durability, fineness and beauty of finish. They will neither chalk, flake, or peel off, and work with perfect freedom under the brush. They weigh from 15 to 16 lbs per gallon, which, of itself, POSITIVELY demonstrates their purity and superiority.

The various compounds known in the market as Chemical Paints, contain only about 50 per cent. of Paint; the balance is water, introduced into the same by the use of an alkali, to combine it. The last mentioned Paints, so-called, only weigh from 9 to 10 lbs per gallon, which we think certainly proves their lack of capacity or body. When water is mixed with Paint, it not only destroys its body, but, to a very great extent, its adhesiveness, which all practical men know is of the highest importance to preserve, in order to make a durable Paint.

We think, from the statement we have made, that buyers cannot fail to at ONCE perceive that their interest will be best promoted by buying our Liquid Paints (i. e. Pure Paints), in preference to the so-called Paints referred to.

Sample card and prices sent free on application.

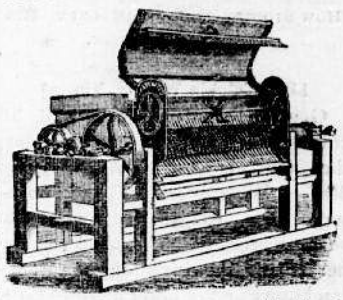
"REVOLVING HEAD"

COTTON GIN.

Patented July 15th, 1873.

PRICES REDUCED TO $4 50 PER SAW



THIS GIN has been in use for the last four seasons, and several recent improvements have been added. It obviates all friction at the ends of the cotton box, prevents the roll from breaking and gives a larger yield of lint from the same amount of seed than any other gin in use. The Revolving Head lightens the draft and causes the Gin to run fast with less driving power, thus doing a great deal more work within the same time while economizing steam or animal power than any other Gin. The seed being ginned very close, the length of the staple is increased producing cotton on this account of a greater market value. This improved value, given by length of staple, with extra production of lint added to increased amount of work done, more than covers the cost of the Gin in every 100 bales ginned. A MAN

So heartless and unconcerned as to stand silently gazing upon a dying wife and daughter without an effort to save them is guilty of the severest condemnation.

It is a conceded fact that a truly wonderful combinnation: a boon to all suffering females; a never-failing female regulator; a powerful uterine tonic is now offered, that will at once remove all *unnatural* monthly obstructions and derangements, such as painful, suppressed, obstructed, profuse or irregular menstruation, it will speedily establish nature in young girls who are feeble, and developing slowly; and will cure a disease that

DECEIVES

Wife and daughter. It immediately cures Hysterics, sick headache, pains in side, back and loins, chlorosis or Green sickness, anaemia debility, nervousness, palpitation swimming and giddiness of the head, cold feet and hands, sterility, barrenness, loss of memory, sleeplessness, and as a general Tonic improving the appetite, aiding digestion and keeping the liver and bowels in a proper condition, it has no equal. Husbands are informed that

HIS WIFE & DAUGHTER

Can be cured of all chronic complaints, such at Leucorrhoea or Whites, ulceration of the womb, falling of the womb, and monthly troubles, and it imparts color to the pale, adds strength to the weak and feeble, and can be used at all ages and under all cirumstances.

It is known as Dr. Dromgoole's English Female Bitters, and thousands of first class encomiums, have been passed upon its peculiar efficacy, from all sections. Put up in large bottles, and has been reduced in price to $1.00 or 6 for $5.00. Sold by druggists and dealers everywhere, on expressed or receipt of price. Address,
