At a special meeting of the Woman's Relief Corp held Tuesday afternoon the following officers were elected for the ensuing year:

Clara Ritter, Present; Josephene Brainard, Senior-vice; Amanda Barber, Junior-vice; Tiny Briggs, Treasurer; Flora Clark, Conductor: Martha Garlick, Guard.

Carriers Entertained.

The carriers of the Daily RECORD were entertained at the home of the editor this afternoon. The boys had a highly enjoyable time playing various games, after which light refreshments were served.

☞Pretty lot of gold rings—at Remage's.

JENNINGS GUSHER

GUSHES SKYWARD

The Old Reliable Cannot be Kept Down, but Spouts when given a Chance

Messrs. Crawford and Halder, representatives of the Gusher City Townsite Company, arrived this morning from New York. They are two of the gentlemen who are promoting the plan of building a city north of the bayou to be known as Gusher City. In order to get information for use in their work they visited Jennings well. No. 1 during the forenoon. I. D. Williams accompanied them.

On arriving at the well Mr. Williams had the valve opened when the oil began at once to spout. A stream of oil shot upward over 50 feet and continued to flow until shut off again by closing the valve. The New York gentlemen were highly pleased with the sight, and Mr. Williams was verry much gratified at the improvement shown by the well since last tested a few days age.

The Jennings Gusher No. 1 is now a good producer and some of the oil is now being sold. The Southern Oil Company is now using oil from the Jennings No. 1 for fuel in its engines. This is the first practical use made of oil produced in the Jennings field, and although it has begun in a small way it is the opening wedge to developing a large business.

WILL BORE AT DIXIE.

The Acadia Oil & Fuel Co., whose headquarters are in New York City, are rapidly getting things in shape to begin boring on their holdings at Dixie. The big derrick is up and already seven cars of piping are on the grounds. They expect to begin drilling before the end of the week and will be sorely disappointed if they do not find oil in paying quantities.

THE CROWLEY COMPANY.

The oil well of the Crowley Oil and Mineral Company in Mamou Prairie is now down to a depth of something over 1,200 feet, and although the drillers are very reticent about giving out information, it is stated that the indications thus far for a genuine gusher are splendid.

THE SOUTHERN WELL.

Mr. Midkiff states that the Southern Oil Company has withdrawn all its stock from the market. Stock of this company which has been marketed at 50 cents is now quoted on the exchange at 75 cents a share. Lots of oil is flowing from the well of the company, and a gusher is expected at any time.

May Greatly Widen Beaumont Field.

Information has been received that the well being drilled by the Development company on block 24 is on the point of coming in and may be expected to spout tomorrow: The well is located on block 44 and if successful will widen the field about 750 feet. It is one of the most important wells to the Beaumont field being drilled today.—Beaumont Enterprise.

Buy Stoves.

We have just received a car load of Garland cook and heating stoves. We have samples in the building formerly occupied by the Jennings Times. Don't buy a stove until you see us as we want to sell them.

MRS M M SHANNON.

☞Dolls! Some beauties at Remage's.

O. E. S. Election.

The following officers of the O. E. S. were elected at the meeting of Jennings Chapter, No. 9, as follows: W. M., Minnie L. Roberts; W, P., I. D. L. Williams; A. M., Ida Coffin; Sec., M. Luella Williams; Treas. E. Scharff: Cond., Flora E. Fain; A. Cond., Dora Jaenke. The five points of the Star, Adah, Maude Coffin; Ruth, Lizzie Phillips; Esther, Susie Mitchell.; Martha, Olivia E. Shankland; Electa, Fannie McVey; Warder, Martha Daughen; Sentinel, J. M. Fain; Chaplain, Walter Coffin; Marshal, Florence Watt.

Regular meeting of O. E. S., Jan. 4th, at 3 p. m. Invitation of full attendance requested.

☞A 10 per cent cut on all suits orders for the holidays—at Bucklin Bros. 297.

☞Wood for sale by W. H. Kistner. 294

Married.

Mr. Aaron Longanecker and Miss C. Gertrude Miller, both of Roanoke, La., were joined in the holy bonds of matrimony, Jan. 1st, 1902, 5 p. m. at the house of the bride's parents, J. M. Coffman officiating.

After spending a very enjoyable evening at the home of the bride's parents the couple went immediately to the home of Mr. Longanecker, where they will reside.

Many congratulations go with them into the new year and for a long and happy and useful life.

Trouble over a Police Appointment.

Lake Charles, La., Jan. 1.—War is imminent between Mayor Poe and the City Council on one side and Chief of Police Dees on the appointment of Lawrence Butler as policeman. Butler has been appointed by the mayor and confirmed by the council, but Dees to-day refused to assign him. This fight may be carried into the courts.

Neighborhood News.

ELTON, JAN. 1.

C. H. Dunham is preparing to move to Jennings.

Mr. and Mrs. Nutt entertained a number of friends and relatives on New Years day.

Ritter & Co. are at work on the wells on the old Denham farm.

Oscar Lowe came up from Jennings Monday and took charge of Ritter's well outfit.

Mrs. Amelia Lowe is expected back from California in a few days, where she has been visiting her daughter.

Miss Maude Tennant has been visiting friends in this neighborhood this week.

Summons and Tupper have received their new deep well outfit and will be ready for operation in a few days. Their machine is new and direct from Chicago, guaranteed to put in wells to a depth of 2000 feet. Any one wishing wells will find it to their interest to consult these men.

Less Than 2000.

An unofficial count of poll taxes paid shows a little more than 1,900. It is scarcely possible that 2,000 have paid up and thus this great parish of perhaps 35,000 inhabitants will cast about 1,200 votes at the congregssional election, while at least 5,000 electors have disqualified them selves through carelessness.

☞For reliable insurance see Moses & St. Germain at Citizens bank.

Strayed or Stolen.

On Sat. Dec. 21. One dark bay mare mule with light colored nose and belly, lump on under jaw. One black horse mule with light nose and a roached mane and tail. These mules were worked on street sprinkler during the past season. A liberal reward for their recovery. W. M. Henry, north of school house, Jennings.

A Rice Experiment Station For Southwest Louisiana.

With the recent wonderful development of the rice industry in southwest Louisiana has come the desire for the more thorough investigation and exploitation of the habits and needs of the rice plant, and this desire has finally found voice in the following resolution adopted at the rice convention recently held in Crowley:

WHEREAS—The Experiment Station at New Orleans was to study especially the interests of the sugar planter, the one at Baton Rouge, located on "Bluff" land, to study the interests of the cotton planter, and the one at Calhoun, located on the "Pine Hill," was devoted to the small farmer of the hill lands—none of these experiment stations being favorably located for experiment on rice, especially for prairie rice-growing, the development of which has taken gigantic proportions since the establishment of these stations; and

WHEREAS—The importance of the rice industry to the state makes it imperative that scientific research be brought to bear on the rice industry, to throw light on the many unsolved problems that confront the rice planter, such as the most economical irrigation, fertilization, cultivation and marketing of the crop, the merits of the many varieties of rice, the acclimatization of those varieties best suited to our conditions, the improvement of varieties by plant breeding and selection, the physiology of the plant itself, its diseases, the insects affeting it favorably and otherwise, rice weeds and means of exterminating them rotation of crops, the production of stock food on the rice farm, etc., etc.; therefore

BE IT RESOLVED—That the Chair appoint a committee of five to go before the next state legislature, and ask that a rice experiment farm established and maintained at some point in the rice belt in southwest Louisiana, at the expense of the state; and

BE IT FURTHER RESOLVED—That the expenses of said committee in their efforts to obtain said rice experiment farm, be borne by the association.—The Louisiana Planter and Sugar Manufacturer.
