MENACING ATTITUDE IS THAT OF BOXERS

Caucasian Residents of China Are Threatened.

ANOTHER UPRISING IMMINENT.

Center of Impending Revolution Is This Time in Southern China, Which Is Overrun With Cut-Throats. Americans Assaulted In Canton.

San Francisco, Feb. 10.—Previous reports of a threatened outbreak in China against Caucasian residents is confirmed by several persons who have just arrived here from the Orient. Dr. James Young, surgeon of the steamer China, David Austin and J. G. Kavanaugh are among those who give accounts of the menacing attitude of the Boxers.

Dr. Young, accompanied by Austin and an American engineer, and under the direction of a Chinese guide, went to Canton when the steamer China was at Hong Kong. Once within the gates of the walled city the party was beset by a rabble and was met with demands for money. At the outset the chinese were complacent, but the moment the tourists refused their request for coin the Mongolians hurled stones at the visitors and drove them in terror to the five-story pagoda, where they were temporarily free from molestation. However, when the Americans emerged from the pagoda they were again pursued by the mob, which became bolder and more defiant, and finally hurled missiles of every description at Dr. Young and his party. A great stone struck Dr. Young in the neck and rendered him unconscious. The mob had almost overpowered the Americans when Dr. Young arrived and the three left the walled city with all possible speed.

Dr. Kavanaugh declares the center of the impending revolution is in the southern part of China and not in the north, where the last outbreak occurred. "Canton and the southern provinces," he said, "where there was no activity during the uprising in 1900, is now thoroughly alive with cutthroats. The Chinese are procuring arms and ammunition in open violation of the treaty with the powers at the time of the former uprising was settled."

The movement is being planned carefully. Many Americans who were in the Philippines have gone to China and are engaged in drilling and training the Chinese. It is his belief that the rising will take place at a not far distant date.

REDISTRIBUTION SCHEME.

Great Britain To Reduce Ireland's Representation in Parliament.

New York, Feb. 10.—The government has determined to reduce Ireland's representation in parliament, says The Tribune's London correspondent. The government's hands will be quite full this year with Irish land and London education, and it may be taken for granted that the redistribution scheme is to be the chief measure of 1904.

On the basis of the present population, England has 36 members too few, Scotland three too many and Ireland 23 too many. There are 103 Irish seats in the commons today, and it is an open secret that the government intends to reduce this number to 85 or less. The Nationalists argue that, as the act of union gave Ireland 100 members, the imperial parliament has no right to reduce this representation. When the act passed, the population of Ireland was 5,000,000, about half that of Great Britain. Today the population is 4,454,000, or a little more than one-ninth that of Great Britain.

Buying English Coal and Iron.

New York, Feb. 10.—After a lull in buying which was very marked during January, America is again coming into the English market for supplies of coal and iron, according to a London dispatch to The Tribune. One firm of London agents is said to have received American inquiry for 100,000 to 500,000 tons of coal, and shippers on this side are now talking of sending coal to the United States for the remainder of the year. Ten steamers have been chartered within the last few days to convey Cleveland iron across the Atlantic and in consequence the iron market is holding its own with considerable firmness.

Dole Furnished with Estimates.

Honolulu, Feb. 10.—(By Pacific Cable.)—Superintendent of Public Works Henry E. Cooper has furnished Governor Dole with his estimates of the needs of the island government and they will be transmitted to the legislature for action. Superintendent Cooper says that in the next two years his department will require $6,000,000 for public improvements, including the construction of bridges, roads and buildings for running expenses. Cooper proposes that part of the money be raised by loan, and suggests that a bill for securing $4,000,000 be introduced in the legislautre.

Vessel Could Not Cross Bar.

New York, Feb. 10.—The North German Lloyd steamer Kaiserin Maria Theresa, which sailed this morning on a Mediterranean cruise, passing out of quarantine at 10 o'clock, turned in the lower bay and came back to Quarantine at 11:45 a. m. The Kaiserin Maria Theresa anchored at Quarantine and her captain reported the tide in the harbor too low for his vessel to cross the bar.

AT NATIONAL CAPITOL.

Speaker Henderson Again Presides Over Deliberations of House.

Washington, Feb. 10.—Speaker Henderson, who has recovered from his recent indisposition, presided over the deliberations of the house today.

After the reading of the journal Mr. Richardson (Tennessee) took exception to the presentation of the conference report on the department of commerce bill at yesterday's memorial session. He contended that the action was void. The speaker ruled that it was regular. He said in his ruling that it had been repeatedly held that Sunday could be made a legislative day. There had, as a fact, been no legislation at yesterday's session. By unanimous consent the house simply permitted the filing of the conference report under the rule. The house, when in session at any time, he stated, was omnipotent except for the limitations of the constitution.

Mr. Richardson protested against the ruling as a dangerous precedent, and moved to correct the journal so as to strike out the action of yesterday. Eleven Republicans voted with the Democrats for his motion, but it was defeated on a rising vote of 80 to 88. Mr. Richardson demanded the ayes and nays, and the roll was called.

The motion was carried—116 to 101.

Mr. Hepburn insisted that although the house had just striken from the journal the record of the action of yesterday, the fact, nevertheless, remained that the conference report had been presented.

"What proof has the gentleman?" inquired the speaker.

"The house has ujst stricken all reference to the action from the journal." (Laughter.)

IN THE SENATE.

Littlefield Anti-Trust Bill Referred to Judiciary Committee.

Washington, Feb. 10.—The Littlefield anti-trust bill was received by the senate today from the house and referred to the committee on judiciary.

The naval appropriation bill was sent to conference. Messrs. Proctor (Vermont), Quarles (Wisconsin) and Cockrell (Missouri) being named as conferees.

The following bills were passed:

To extend the time granted to the "Muscle Shoals Power company" in Alabama, within which to commence and complete work previously authorized.

House bill fixing time of holding terms of court in Colorado and senate bill extending the thirteenth life saving station to Alaska.

Mr. McCarmack (Tennessee) then addressed the senate on the Rawlins resolution, calling for the records of courtmartial of officers serving in the Philippines.

The best army that ever tread the earth, Mr. McCarmack declared, could be sent to a distant tropical land, but when it became known that crimes will go unpunished the awful consequences will ensue. Just these consequences have existed, he said, and the charges have been met with stoical and cynical indifference.

GIRLS HAVE LIVELY TILT.

Basket Ball Game Results In Regular Scrimmage at Derby, Conn.

Derby, Conn., Feb. 10.—In the second half of a basket ball game between girls' teams from the Waterbury High school and the Boarding Training High school of New Haven played in the Anderson gymnasium in New Haven, it is alleged that the roughest tactics ever witnessed in this state in such a contest were indulged in.

The girls struck each other in the face, pulled hair, tripped and threw one another to the floor and lost all control of themselves.

Coaches and spectators tried to stop the fight, but failed. The girls were oblivious to all else and they reached at each other with true ferocity. Time was sounded before the game was over, and the players had to be almost dragged apart.

Both teams claimed they were obliged to adopt the tactics they did in self-defense. The final score was Waterbury, 12; New Haven, 10.

STRIKE MAY RESULT.

Employes of Manhattan Railroad Company Are Dissatisfied.

New York, Feb. 10.—There is general dissatisfaction with conditions among the employes of the Manhattan Railroad company, and it is said a strike may occur at any moment that will stop traffic on all the elevated lines. It is understood that motormen, engineers, firemen, guards and "choppers" are interested in the movement, but that the porters and office men who have organizations of their own have not so far been invited to co-operate.

A secret meeting of delegates of the malcontents was held Friday night, and since then the order to turn out has been expected by the men.

Some time ago the company was asked to make certain concessions, including a 10-hour day and a readjustment of the wage schedule, and a demand was also made for an adequate supply of coal with which to heat the stations.

It is learned that the management intends to hire about 275 men, of which number over 100 have already been secured. The strike promoters believe the company intends to employ these novices in order that it may drop veteran employes who are regarded as "trouble-makers."

FLOOD CONDITIONS AT COLUMBUS, GA.

Chattahoochee Has Fallen, but Still Raging.

MANY MILLS SUSPEND WORK.

Damage to Bridges and Manufactories Will Amount to Considerable—Water Too High as Yet For Steamer Navigation From Southern Points.

Columbus, Ga., Feb. 10.—There is no material change in the flood situation here. The Chattahoochee has fallen a little but is still raging. All works on the river fronts have been suspended except the mills at North Highlands.

The damage to the Fourteenth street bridge is greater than was at first expected, one span of the steel arch has in the bottom of the river and even if it is gotten out, the work of construction will be considerably delayed.

The fears that were entertained for the safety of the lower bridge have about subsided since the rate thas ceased to rise. No steamers have yet reached the city.

DANGER OF FLOOD PASSED.

Chattahoochee River, Which Threatened Overflow, Is Falling.

Atlanta, Feb. 10.—Advices to the Postal Telegraph company from Columbus, Ga., this morning state that the Chattahoochee river, which has been on a rise for the past two days, is slowly falling this morning, and all danger of flood has passed.

The river last night reached a height of 3½ feet, over 36 feet above the normal mark. Since last night a fall of 2 feet has been recorded, and the waters are slowly falling.

It is thought that the damage to property along the river front will be considerable, although the loss cannot yet be estimated.

All the false work of the new iron bridge was washed away last night, the river flooding that portion of the town.

Many of the mills along the river will be idle for several days or until the damaged incurred by the inundation of their water wheels can be repaired.

BOLD WORK OF BAD BLACKS.

Livery Man at Selma Assaulted, Robbed and His Stable Fired.

Selma, Ala., Feb. 10.—F. M. Bromelton, a well known citizen and livery stable owner of this place, was attacked last night by three unknown negroes, who, after assaulting him and robbing him, set fire to his stable.

Mr. Bromelton entered his stable last night about 7 o'clock when he was met by three negroes, who had been concealed in a hack. A tap robe was thrown over Mr. Donelton's head, who, after choking him into insensibility, secured $7, set fire to the stable and disappeared.

Three horses were burned to death in the flames.

Mr. Bronelton is in a serious condition.

ARGUMENT BEGINS.

Counsel For Miners and Operators Commence Debate.

Philadelphia, Feb. 10.—Argument for and against the demands of the Union anthracite mine workers, which will continue before the coal strike commission for the next six days, was begun today when the miners, through Daniel C. McCarthy, of Hazelton, made the opening argument. Mr. McCarthy was followed by former Congressman Brumm, of Minersville, who made a general argument, and Henry D. Lloyd, of Chicago, who confined his efforts to the question of recognition of the union and yearly trade agreements.

The operators will begin their argument tomorrow, continuing three days and closing with George F. Baer, president of the Reading company. Then Clarence F. Darrow, of Chicago, the principal counsel for the miners, will take up the case, and, in answering President Baer, President Mitchell, of the Miner's union is expected here during the week. Whether he will address the commission, depends upon developments.

New Brick Company.

Birmingham, Ala., Feb. 10.—The Jefferson Brick company has been organized and the brickmakers of Birmingham are stockholders. Officers have been elected as follows: W. S. Winters, president, and M. J. Gregg, secretary. The company has a yearly output of 70,000,000 building brick and the same is to be handled through the agency named. Mr. Winters will be in headquarters, established in the Chalifoux building, at all times ready for business.

A WAY TO SOLVE PROBLEM.

Dr. Hillis Refers to Negro Question In His Sermon.

New York, Feb. 10.—Dr. Newell Dwight Hillis, referring in his sermon yesterday to race hatred in America said:

"If twice a year we could bring the southerners up to New York for two weeks we would soon solve the negro problem, and if we could take the northerners three times a year for two weeks in the south they would soon cease trying to manage the southerners' affairs for them."

SOUTHERN HAS WRECK.

Passengers Have Miraculous Escape Near Round Mountain, Ala.

Atlanta, Feb. 10.—Two coaches and a baggage car of the regular passenger train on the Rome and Atlanta branch of the Southern railway overturned near Round Mountain, Ga.

It appears almost miraculous that a number of the passengers and train crew escaped from serious injury. The coaches were derailed and turned over on their sides while the train was running at a high rate of speed.

The accident occurred at Round Mountain, 70 miles south of here. The list of the injured was as follows:

H. L. Smith, Center, Ala., bruised on chest and back of head.

F. K. Sitz, of Gadsden, Ala., bruised on right knee.

Colonel Hudgens, trainmaster of Atlanta division, slightly injured on the knee.

John Saunders, of Rome, baggage master, bruised on chest and back of hipping from train.

F. A. West, newsdealer, bruised on leg and side.

Dr. John P. Stewart, Attalla, slight bruise on elbow.

Conductor Bradley applied the emergency brake as soon as he felt the cars jumping over the crossties.

It is regarded as simply miraculous that the train with 20 or 30 passengers was completely overturned and not a drop of blood sight from broken glass or bruises.

BLACKS WERE DELUDED.

Wiley Agent Promised White Wives to Carolina Negroes.

Spartanburg, S. C., Feb. 10.—Wm. White, a negro, claiming to be from Washington, has been placed in jail here for collecting money from unsuspicious negroes, telling them that he was an emigrant agent and would take them to Washington, where they could "marry rich white women and walk with them on the streets with their arms locked."

White, it is said, operated out in the country and gathered in a neat sum. Then he came to Spartanburg.

He promised the negroes that they would be carried to Washington next Monday by him, but the wily agent first required the small sum of $1 as a guarantee that the negroes would meet him at the depot Monday. His case grows worse as new facts come to light.

A negro brings in the story that White says that the negroes who go to Washington can marry white women, also that White claims to have carried already some 10,000 negroes to Washington and that he is backed by ample capital.

White will be tried at sessions court the latter part of the present month.

$100,000 OIL MILL.

Atlanta Capital May Invest in Montgomery, Ala.

Montgomery, Ala., Feb. 10.—Montgomery will soon have erected within its boundary another cotton seed oil mill with a capacity of 80 tons which will be erected at an expenditure of $100,000, if negotiations pending are consummated.

This statement was made to a representative of The Advertiser last night by J. D. Hendrix, proprietor of a grist mill and ginnery on the Haynesville road, 2 miles south of the city.

E. Van Winkle, J. J. Disseway, Mr. Wilkerson and other capitalists from Atlanta, have been in consultation with a result that the entire amount, $100,000, was subscribed. If certain pending negotiations are closed, the erection of the mill will, according to Mr. Hendrix, begin in 30 days. These negotiations probably have to do with the location of the property.

The principal owners of the proposed plant will be Messrs. Van Winkle, Disseway, Wilkerson and Hendrix. Other Atlanta capitalists will be interested as will capitalists from North Carolina.

CHARTERS FOR COTTON MILLS.

Secretary of State Commissions New Carolina Industries.

Columbia, S. C., Feb. 10.—Secretary of State Grant has issued commissions for two new cotton mills, both of which will be located in Dillon, in Marion county. One of them, the Hamer mills, will have a capital stock of $100,000, and the other, the Maple mills, will also have a capital of $100,000. It is understood that William M. Hamer will be at the head of both enterprises.

The secretary of state also issued a commission to the Harris Manufacturing company, of Greenville, with a capital stock of $12,000, which will manufacture steam valves and devices for signaling on railway trains.

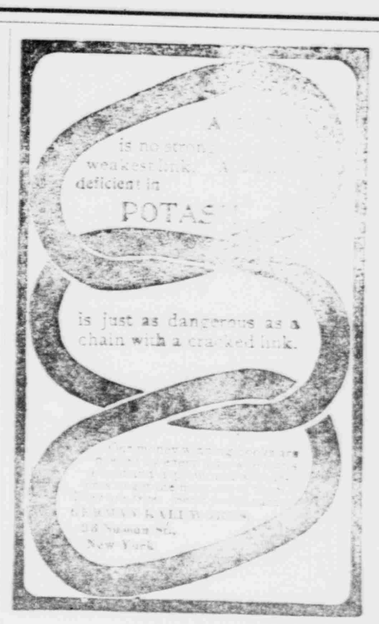
A charter was granted to the Darlington Hotel company of Darlington, with a capital stock of $25,000.

Will Ask Bail For Tillman.

Charleston, S. C., Feb. 10.—Congressman-elect George W. Croft, of Aiken, Tillman's law partner, and P. H. Nelson, a leading criminal lawyer of Columbia, attorneys for the accused, will ask next Thursday that James H. Tillman, charged with the killing of Editor N. G. Gonzales, be released on bail.

May Boycott Southern.

Spartanburg, S. C., Feb. 10.—On account of congested freight conditions on the Southern railway it is learned that there is a sentiment among the business men and the members of the chamber of commerce that a boycott of the road is the remedy to be tried unless the railroad relieves the present conditions.



RIVER CLYDE BURSTS BANKS.

Inundates Scottish Town and Does Damage Results.

Glasgow, Scotland, February 10.—The river Clyde burst its banks above Glasgow today and flooded the industrial district of Rutherglen, where a dozen of the streets were flooded to the depth of several feet. The main road was in places under water, and many houses were rendered uninhabitable. Several adjacent districts south of Glasgow were flooded. The damage is very heavy. The rainfall in river submerged miles of the country.

Elsewhere in Scotland crops and roads has been swept, bridges have been swept away and houses damaged. Thus far no fatalities have been reported.

Another Tampa Cigar Factory.

Tampa, Fla., Feb. 10.—This city will have another large factory building, which will be superintended by Salvador Rodriquez, of the Charles great cigar company. It will not only be one of the largest, but one of the best equipped and convenient located in the city. The site was recently purchased by Mr. Martinez, the manager of the company, and is located between the A. C. L. and S. A. L. railroad tracks, fronting on Palmetto Beach road. The building will cover a space 50x110 feet, will have all the most modern conveniences, specially adapted for a factory of this kind. The plans have already been drawn, and it is expected that the contract will be awarded in a few days. Work will be commenced on the new structure by the latter part of next week. Over 200 cigarmakers will be employed in the new factory on nothing but clear Havana cigars.

Buckner wins Contest.

Raleigh, N. C., Feb. 10.—Standing W. M. Buckner, of Yancey county, arrived here, accompanied by G. H. Gardner, his attorney, to contest the seat of Senator Griffith from the thirty-second district on the ground that the returns from Llewlle township, Mitchell county, were sent to the clerk of court but were not given by him to the canvassing board and that these returns, if counted, would give Buckner the majority in the district. Buckner is a Republican, Griffith, the sitting member, a Democrat.

Professional.

T. E. BIGGS,
